A Basic Reference Grammar of Slovene William Wadleigh Derbyshire, 1993 This reference grammar is intended for adult speakers of English who are at the elementary through the intermediate levels of acquisition of the Slovene language. It begins with a brief description of the Slovene language, its major dialects and its place among the Slavic languages. Information on the alphabet, pronunciation, and spelling rules follows. The major part of the work treats the major categories of speech: nouns, adjectives, pronouns, numeral declensions, and verbal conjugations. There are brief sections treating prepositions, adverbs, information on syntactic constructions relevant to the early stages of Slovene language study, and word order and word formation. Word and subject indexes and a bibliography are included. (Contains 30 references.) (Author)
