India's Store Wars Geoff Hiscock, 2012-11-30 As India's middle class grows and disposable incomes rise, modern retail is becoming the next hot sector of the Indian economy. Hundreds of millions of new consumers will join this retail revolution, venturing into supermarkets, department stores and air-conditioned shopping malls for the first time. But instead of just window shopping, many of them will be serious buyers with money to spend. To cater for their needs, established

players in the modern retail sector such as Biyani, Raheja and Goenka are being joined by the big names of Indian business - Reliance, Birla, Bharti, Tata etc - who plan to spend billions over the next few years rolling out supermarkets, big-box outlets and specialty stores. At the same time, property developers are getting on with the malling of India, and looking for high profile anchor tenants to lure customers. On the sidelines of this Indian retail revolution are big overseas players such as Wal-Mart, which already has a tie-up with Bharti to provide much-needed "back office" support. But what Wal-Mart really wants is the right to set up its own stores in India. The same goes for Tesco, Carrefour, Metro and other international players. While the macro outlook appears bright, the problems are astronomical for India retail industry. There is no reliable cold chain, transport logistics are appalling, there is a huge lack of managerial talent, there is no consistency for quality and quantity of supply, there is political opposition from groups such as market middlemen, the mom and pop kirana corner stores have to be catered for, as do the farmers who grow the produce that is integral to a successful retail revolution. How well will these disparate players cope with the various pressures of a dynamic and fast-moving industry?

The Power of Purpose in Life Krishna Ganesh, 2013-05-08 The book is written to emphasize the importance of having a purpose in one's life. Life, after all, must be led happily and having a purposeful life ensures happiness. The current unrest and gloom in the society are because of the fact that people do not have definite goals in life. The mind, by nature, is negative and requires conscious effort to turn positive. A strong purpose in life engages the mind constructively and turns it positive, thus bringing plenty of joy and happiness. However, finding purpose in one's life is not easy. It involves serious introspection, as questioning oneself is the only way to find it. But it is worth making an attempt as our self-esteem and happiness in life are directly linked to it. The book brings out the information about one's natural abilities and explains how they have connections with one's passion. So discovering either natural abilities or passion or both would eventually lead to the purpose of life. This book gives more insight into the relationship between them and describes how a strong purpose in life has the ability to make life joyful. The examples given in the book can help serious readers to find theirs. All the people who made it big in life have used their inherent abilities and passion to bring success to themselves. This book captures their inspiring stories to make the readers aware of the potential of having a strong purpose in life.

Organized Retail in India Deepali Malhotra & V. K. Malhotra, 2021-09-15 Organized retail in India is a decade or so old phenomenon. During the last ten or twelve years, it has progressed well. At the same time, it is facing many problems, challenges, difficulties some are general and others

are India specific. The objective of this book is to analyze these problems and discuss future prospects of this sector in India. In addition to problems and prospects, some other important related aspects of organized retailing in India such as politics and organized retail, use of latest technology in organized retail, the impact of organized retail on the Indian economy and unorganized sector, foreign direct investment in organized retail, job and career opportunities in organized retail in India are also included in this work. Broadly, there are six categories of chapters. In the first political and technical category come two chapters that deal with some important and hitherto untouched aspects of organized retail in India such as politics and technology. In the second category are seven chapters on the growth of modern and organized retail in India, its changing faces, its impact on the Indian economy. The third category consists of two chapters that deal with the impact of organized retail on unorganized retail in India. The fourth category also has two chapters on Foreign Direct Investment (FDI) in the organized retail sector in India. Career and job opportunities are the theme of the next two chapters that come under the fifth category. In the sixth and last category are five chapters that explain problems and challenges faced by the organized retail and future prospects of this sector in India. Retailing or retail management is now found a place in the syllabi of MBA programs. Many universities and colleges have initiated new courses in retailing at different levels. Some have started separate and specialized MBA in Retail Management. Pass outs of these programs and courses are providing manpower and human resources to upcoming organized retail outlets like malls, hypermarkets, stores, etc. In other words, the organized retail sector is providing new job and career opportunities to young people. Retailing is emerging a useful and contemporary discipline in Commerce and Management faculties. But one finds a very limited number of books on the organized retail sector in India. The present compendium endeavors to fill

this gap. It is hoped that this book will be very useful to the corporate sector involved in the emerging organized retail industry; executives, managers and employees of malls and stores; faculty of educational institutions involved in teaching and students of this new discipline.

TITAN Vinay Kamath, 2018-12-15 When Titan Company Limited launched its quartz watches some 30 years ago, the founders ? a merry bunch of Tata employees who started out simply wanting `to do something different? ? could not have foreseen just how completely they would capture the imagination of Indian consumers in the post-liberalization era of the 1990s. The brand they created ? at first against tremendous odds and restrictive norms ? injected freshness into the market and in retail spaces through its cutting-edge marketing strategy and empathetic advertising. Not only did the new watchmakers on the block transform watches from being utilitarian objects to fashion statements, but it also systematically ventured into areas untapped by corporate entities with its

brands Titan, Tanishq, Titan Eyeplus, Skinn and Taneira, and established itself as a winner across multiple verticals. Titan: Inside India's Most Successful Consumer Brand takes readers from boardrooms to back rooms to reveal how a quintessential Indian brand from the house of the Tatas, not known till then for its success in the consumer goods market, reached such remarkable heights. It is a tale of innovation and fortitude, of thinking outside the box and staying the course, of obsession with detail and the courage to acknowledge failure. A story that will inspire every reader, here is the inside account of what continues to make Titan tick.

Corporate Social Responsibility C. V. Baxi, Ajit Prasad, 2005 In the contemporary debate on the modern corporation and its impact on the economy, society and nation, the focus has shifted from growth with only profitability to growth with sustainable development, which includes the stakeholders. While there is considerable debate on the corporations' obligations to civil society in the Western world, in the developing countries the debate is sporadic; the present publication is an

effort to initiate a nationwide discourse on the concepts and practices of corporate social action in India. The book is divided in two sections; section one contains papers, which analyze the conceptual framework of Corporate Social Responsibility. The unique feature of this book is the case studies on different aspects of CSR presented in section Two. The cases focus on such segments as education, healthcare and environment, among others. It is for the first time that under the aegis of UNDP-CII-AICTE-MDI the business schools in the country participated in preparing cases from various industries focusing on the process and decision making content implicit in the introduction, implementation, and evaluation of various facets of Corporate Social Responsibility. The cases are illustrative and they will help in identifying further areas of research. The teaching notes have been developed by the individual authors, and will be available on request.
