**The Semantic Web - ISWC 2009** Abraham Bernstein, David R. Karger, Tom Heath, Lee Feigenbaum, Diana Maynard, Enrico Motta, Krishnaprasad Thirunarayan, 2009-11-06 As the Web continues to grow, increasing amounts of data are being made available for human and machine consumption. This emerging Semantic Web is rapidly entering the mainstream and, as a result, a variety of new solutions for searching, aggregating and the intelligent delivery of information are being produced, both in research and commercial settings. Several new challenges arise from this context, both from a technical and human-computer interaction perspective – e.g., as issues to do with the scalability and usability of Semantic Web solutions become particularly important. The International Semantic Web Conference (ISWC) is the major international forum where the latest research results and technical innovations on all aspects of the Semantic Web are presented. ISWC brings together researchers, practitioners, and users from the areas of artificial intelligence, databases, social networks, distributed computing, web engineering, information systems, natural language processing, soft computing, and human-computer interaction to discuss the major challenges and proposed solutions, success stories and failures, as well as the visions that can advance the field.

**Hydrometry** W. Boiten, Wubbo Boiten, 2008-05-15 Hydrometry presents a thorough introduction to the science of hydrometry: the measurement of flow in open channels. Dealing with both traditional techniques and innovative new methods and instruments, in line with the latest ISO standards, this book deals with the main themes of hydrometry: the measurement of water levels and bed levels, of discharge, and of sediment transport; it considers the use of flow measuring structures, hydrological networks, and the organization of surveys. Dr Boiten has extensive experience of teaching students from many countries and backgrounds, and has distilled this experience into a clear and comprehensive account of hydrology and water resource management. Hydrometry will appeal to graduate students and to professionals engaged in hydrology and the management of water resources.

**DE AVONTUREN VAN EEN START-UP** R.J. van Hooghoudt-Schimmelpenninck, 2013-11 Het verhaal neemt ons mee naar het hart van een fictief bedrijf van Robert-Jan (of RJ zoals hij bekend staat) waarin hij zijn droom om iets groots neer te zetten, moet afwegen tegen letterlijk overleven wanneer de door hemzelf gekozen compagnon en investeerders hem steeds verder afbrengen van wat hij wil. De droom van elke ondernemer om het te maken, de tegengestelde belangen van de aandeelhouders, en de worsteling met morele kwesties komen elke dag keihard terug. Totdat hij besluit dat het anders moet, anders kan. Nog nooit kon je zo diep in de ziel van een ondernemer kijken, en begrijpen wat er met je gebeurt als iemand je droom probeert af te pakken.

**A Portrait of the Artist as Australian** Paul Matthew St Pierre, 2004-09-30 A Portrait of the Artist as Australian offers the first critical assessment of Barry Humphries' entire career - as a daring postmodern deconstructionist on stage, film, and television, with sixty-seven stage shows, twenty-four film and thirty-four video appearances, thirty-four television series and seventy-one television appearances, and seventy-two audio recordings, but especially what he calls his second career as author of twenty-nine books. With an oeuvre that includes novels, biographies, autobiographies, editions, compilations, comic books, poetry, dramatic monologues, sketches, film scripts, and several unclassified works, Humphries is a literary and dramatic artist of considerable significance. Arguing that Humphries is one of Australia's greatest writers, Paul Matthew St Pierre reveals a multi-faceted artist whose success is rooted in music halls, Dadaism, and his identity as an Australian.

*Speaking* Willem J. M. Levelt, 1993-08-26 In Speaking, Willem Pim Levelt, Director of the Max-Planck-Institut für Psycholinguistik, accomplishes the formidable task of covering the entire process of speech production, from constraints on conversational appropriateness to articulation and self-monitoring of speech. Speaking is unique in its balanced coverage of all major aspects of the production of speech, in the completeness of its treatment of the entire speech process, and in its strategy of exemplifying rather than formalizing theoretical issues.

**Come Fly with Us** Melvin Croft, John Youskauskas, 2019-02-01 2020 Space Hipsters Prize for Best Book in Astronomy, Space Exploration, or Space History Come Fly with Us is the story of an elite group of space travelers who flew as members of many space shuttle crews from pre-Challenger days to Columbia in 2003. Not part of the regular NASA astronaut corps, these professionals known as “payload specialists” came from a wide variety of backgrounds and were chosen for an equally wide variety of scientific, political, and national security reasons. Melvin Croft and John Youskauskas focus on this special fraternity of spacefarers and their individual reflections on living and working in space. Relatively unknown to the public and often flying only single missions, these payload specialists give the reader an unusual perspective on the experience of human spaceflight. The authors also bring to light NASA’s struggle to integrate the wide-ranging personalities and professions of these men and women into the professional astronaut ranks. While Come Fly with Us relates the experiences of the payload specialists up to and including the Challenger tragedy, the authors also detail the later high-profile flights of a select few, including Barbara Morgan, John Glenn (who returned to space at the age of seventy-seven), and Ilan Ramon of Israel aboard Columbia on its final, fatal flight, STS-107. **Blaggers** Barry Ley, 2012-12-21 In 1988 a fresh-faced 18-year-old, Barry Ley, made his first tentative foray into the cut-throat world of timeshare sales. This book chronicles his adventures around the world, from side-splitting anecdotes of sales tactics to hair-raising tales of extortion and organised crime. It follows Barry's story from his first days as a rep in 1988 to his time in Mexico, detailing all his adventures, relationships and losses along the way. Ninety per cent of those who enter the timeshare business give it up within a fortnight, such are the pressures they face. But for those who stick it out the rewards can be sky high: the chance to earn big money, and have a bloody good time doing it. Blaggers is an insider's exposé of timeshare salesmen - the people we all love to hate - as they fast-talk and freewheel their way around one of the most ruthless marketplaces on earth.

**Tragedy and Triumph in Orbit** Ben Evans, 2012-06-01 April 12, 2011 is the 50th anniversary of Yuri Gagarin’s pioneering journey into space. To commemorate this momentous achievement, Springer-Praxis is producing a mini series of books that reveals how humanity’s knowledge of flying, working, and living in space has grown in the last half century. “Tragedy and Triumph” focuses on the 1980s and early 1990s, a time when relations between the United States and the Soviet Union swung like a pendulum between harmony and outright hostility. The glorious achievements of the shuttle were violently arrested by the devastating loss of

Challenger in 1986, while the Soviet program appeared to prosper with the last Salyut and the next-generation Mir orbital station. This book explores the continued rivalry between the two superpowers during this period, with each attempting to outdo the other – the Americans keen to build a space station, the Soviets keen to build a space shuttle – and places their efforts in the context of a bitterly divisive decade, which ultimately led them into partnership.
