**Tom Cunliffe**

Yachting Monthly's Confessions Paul Gelder, Yachting Monthly, 2013-05-17 This is a wonderful cherry-picked collection of humiliating misadventures from the enduringly popular Confessional column of Yachting Monthly magazine. For over 25 years, yachtsmen have clamoured to tell the world about their most embarrassing exploits and their most shameful blunders, and the cream of the crop are collected together here in the hope that the rest of us can learn from their mistakes instead of our own - or at least have a good laugh at their expense! Shipwrecks, strandings, mutiny, getting locked in the lavatory... you couldn't make them up. Counted among the contributors are no less than four former editors of Yachting Monthly, which goes to prove that worse things really do happen at sea! Accompanied by cartoons from the inimitable Mike Peyton, this collection deserves a place at every bunkside.

**Yachting Monthly's Channel Havens** Ken

Endean, 2013-09-07 Channel Havens is a cruising guide with a difference. Recognising that many of us would like to sail away from the crowd, Ken Endean introduces the reader to beautiful, unfrequented places within the Western English Channel, from the Solent to the West Country, Channel Islands and Northern France. Here are sandy bays, coves, reef anchorages and the upper reaches of river estuaries - places neglected by most pilot books - where one can experience the sense of discovery and adventure that is more usually associated with faraway cruising. Anyone who is attracted by the dramatic scenery of unspoilt coastal waters will treasure this guide from an experienced sailor who has gone before.

*Yachting Monthly's This Cruising* Libby

Purves, 2001-09-28 A collection of amusing stories from the

popular Yachting Monthly column.

*Crash Test Boat* Paul Gelder, 2013-04-04 From the people behind the UK's leading sailing magazine for cruisers comes *Crash Test Boat*, a dramatic documentation of controlled sailing disasters which has the potential to save the lives of each and every seaman who buys it. *Crash Test Boat* is unique in its field, with no other title on the market aimed at explicitly revealing at first hand what happens when a boat encounters a major disaster. On the spot reporting with action photographs show what happens when typical family boats fall victim to eight different types of sailing disaster. How quickly does a cabin fill with water when the hull is holed? How do you control a gas leak or explosion? What should you do first when dealing with a dismasting? By providing cruising and racing yachtsmen with vivid accounts of such extreme events, *Crash Test Boat* equips the reader with vital knowledge on what to do if disaster strikes and, ultimately, gives everyone on board a greater chance of survival if the boat is overcome.

Yachting Monthly's Expert Sailing Skills Tom Cunliffe, 2012-04-13 Become a better yachtsman with the help of Tom Cunliffe and Yachting Monthly. There are plenty of sailing and seamanship skills that don't feature on the syllabus of even the most advanced official sailing course - and a wealth of wisdom can be found in these pages. There's advice on everything from fixing an engine to recovering a casualty from the water - and all of it is delivered with lively prose and hundreds of easy to follow photographs and diagrams. Sailing guru Tom Cunliffe teaches sailors how to improve a vast range of sailing skills - from dropping anchor to planning a passage and from sailing harmoniously with your partner to using onboard electronics. Each chapter deals with a specific skill and is highly illustrated with step-by-step photos.

### Yachting Monthly's Further Confessions Paul

Gelder, 2013-05-17 There were too many degrading disasters, mortifying mishaps and groan-worthy gaffes for one collection, so following on from Yachting Monthly's Confessions, here is another wonderful collection of humiliating misadventures from the enduringly popular Confessional column of Yachting Monthly magazine. For over 25 years, yachtsmen have clamoured to tell the world about their most embarrassing exploits and their most shameful blunders, so here is another crop of entertaining examples, so that the rest of us can learn from other people's mistakes instead of our own - or at least have a good laugh at their expense! Accompanied once more by cartoons from the inimitable Mike Peyton, this collection helps to prove that worse things really do happen at sea!

### *Yachting Monthly's Sailing an Atl* Alastair

Buchan, 2002-01-31 It is every sailor's goal to cross the Atlantic - but to complete an entire Atlantic circuit by sailing the tradewind circular route, with the highlight of a Caribbean cruise on the way, is the stuff that dreams are made of. This book is intended for sailors planning to join the Atlantic loop at any stage of the circuit. It is an informative user-friendly guide that will provide the reader with all the facts, first-hand advice and useful data they need to give their dreams substance. Topics covered include: \* modifying a standard cruiser to make the trip \* taking on crew - known and unknown \* route planning and timings \* tropical storms; how to miss them \* living aboard - at sea and in harbour \* paperwork required for vessel and crew \* reef navigation for the Caribbean \* gear to work harder for longer \* heavy weather strategies \* security and crime prevention \* disaster management; planning for the

worst \* tables of costs

**What Now Skipper?** Bill Anderson, Chris Beeson, 2009-10-14 Following in the Yachting Monthly paperback series (Confessions, Further Confessions, etc) this book is based on a popular run of articles over the last eight years in Yachting Monthly, in which navigational and seamanship problems are posed and the highly respected author (former RYA Training Manager Bill Anderson) gives his opinion on the best way to resolve them. And if there are several options, he airs them all. The question and answer format is an ideal way for readers to absorb, in a very practical way, good seamanship lessons arising from a whole range of boating problems which have all occurred in real life. This accessible paperback is entertaining, non-preachy and non-textbook, and the invaluable advice is helped along with lively colour photos, maps and diagrams.

*Ionian, Greece* Lucinda Heikell, 2020-05-01 Do you only have a week to spare? For those of us who are time poor but who want to seize the moment, either on our own boat or on a charter, it's reassuring to know that there are plenty of cruising hubs from where we can enjoy some of the best of the region in only a few days. Imray Pocket Pilots are a new series of affordable PDF books, companions to the Yachting Monthly series A Week Afloat. They visit some ideal destinations and suggest a one week itinerary, and include expanded sailing directions for cruising each area based on printed Imray pilot books. Familiar Imray chartlets cover marina detail and approaches, and photos add both information and colour to the downloads. This Imray Pocket Pilot covers The Ionian, Greece.

**Sailing, Yachts & Yarns** Tom Cunliffe, 2011-03-29 Sailing, Yachts and Yarns is a selection of British sailing legend Tom Cunliffe's most entertaining, outspoken and instructive writing from the pages of Yachting Monthly

magazine. Tom's regular column for this leading sailing magazine gives him free reign to explore a wide range of topics. He has a gift for capturing the magic of sail and finding pearls of practical wisdom in the most unlikely nautical adventures. *Sailing, Yachts and Yarns* is a wonderful miscellany of wit, wisdom and wonder. It will make you laugh and make you think - and make you want to cast off to enjoy the delights of life afloat.

**Rites of Passage 2020** Royal Cruising Club (Great Britain). Pilotage Foundation, *Yachting Monthly*, 2020

*Confessions* Paul Gelder, 2009-07-01 Over 17 years readers have owned up to their most embarrassing moments afloat for the amusement and enlightenment of their fellow yachtsmen.

**The Insider's Guide to Choosing & Buying a Yacht** Duncan Kent, 2011-02-04 This book offers practical advice

to ensure you choose the right yacht for your sailing needs and budget. Potential buyers are guided through every stage of the process, from deciding on hull design and accommodation to deck layout and keel shape. There is information on construction materials and help in deciding what sort of craft would best suit your needs, including clever ways to 'try before you buy'. Expert guidance will help you decide whether to buy a new or used yacht, and both buying processes are carefully explained to ensure your investment is protected. Hidden costs are revealed and there are tips on conducting your own boat test and initial survey. Sections on registration, VAT and insurance will help you cut through the red tape. Don't buy a yacht without reading this first!

*The Capable Cruiser* Lin and Larry Pardey, 2010-06-08  
Lin and Larry Pardey have now been cruising on board their own boats, racing, delivering, and repairing other people's boats for more than 44 years. After west-to-east and east-to-west circumnavigations, and voyages to more than 75 countries, they have a breadth of knowledge that few other boating authors possess. Most of the voyaging has been done on an earn-as-you-go budget that could be well within the reach of the majority of those whose dream is to set sail. Their motto? "Go small, go simple, but go now!" The Pardeys' strengths are neatly symbolized by the boats they have built. Each one is romantically traditional, with swooping sheerlines, and is completely dependent on the wind. And yet each boat carries the best, strongest, and most seamanlike gear. Like their vessels, the Pardeys' writings are founded on a marriage of the spirit of romantic adventure and the practical, up-to-date seamanship that keeps them and their boats safe. This revised and expanded third edition of a cruising classic includes 10 completely new chapters with such advice as: sixteen ways

to encourage your lover (partner) to share your dream; strategies for turning sudden engine failure into a minor incident; choosing safety equipment; repairing rigging at sea. All of the original chapters have been updated to ensure that the information will be helpful for everyone who dreams of cruising—whether now or soon. The Capable Cruiser is a logical extension of the Pardeys' The Self-Sufficient Sailor, with more emphasis on seamanship underway, including careful analysis of extreme anchoring situations and solutions for mitigating them. Underlying each and every chapter is the warmth and encouragement that spurred Herb McCormick, former editor of Cruising World magazine, to label Lin and Larry Pardey "the enablers."

**East Coast Rivers** Jack Howard Roy Coote, 1956

**Cost Conscious Cruiser** Lin and Larry

Pardey, 1999-07-07 The pleasures and adventures of cruising under sail are amazingly affordable, say Lin and Larry Pardey. But to keep your dream on budget, you have to decide: Are you a cruiser or a consumer? In this book, a logical successor to their Self-Sufficient Sailor and Capable Cruiser, they discuss making your getaway plans, finding a truly affordable boat, keeping your outfitting costs and maintenance time under control, and learning to feel confident as you cruise farther afield. Their comparison of the gear considered necessary by many yachting experts and the gear carried by several cost-conscious cruisers will help you gauge whether you are buying the true necessities or overloading your boat with high-tech items that can break down and steal your sense of confidence offshore. The chapters on getting the most from your cruising funds, the attributes of successful long-term voyagers, how to upgrade your boat with your own hands, plus answers to the then questions most frequently asked by potential

cruisers will help you prepare to explore under sail. as Lin and Larry explain, The decisions you make now will determine if you'll come back from your cruise feeling more empowered or more enslaved by today's consumer society.
