Authoritarianism, Informal Law, and Legal Hybridity Ihsan Yilmaz, 2022-04-06 This book investigates Turkey's departure from a 'flawed democracy' under Kemalist secularism, and its transitioning into Islamist authoritarian Erdoğanism, through the lenses of informal law, legal pluralism, and legal hybridity. In doing so, it examines the attempts of Turkey's ruling party (AKP) at social engineering and gradual Islamisation of the Turkish state and society, by using informal Islamist laws. To that end, the book argues that the AKP has paved the way for Islamist legal hybridity where society, state, and law, are being gradually Islamised on an ad hoc basis. Informal law and legal pluralism in Turkey have had a non-state characteristic which have permitted Muslims to solve disputes by seeking the opinions of religio-legal scholars. Yet under the AKP rule, this informal legal system has become increasingly dominated by conservatives, sometimes radical Islamists, which the governing party has taken advantage of by either formalizing some parts of the informal Islamist law, or using it informally to mobilize its supporters against the opposition.

Mainstreaming the Headscarf Esra Özcan, 2019-11-14 With the rise to power of the Justice and Development Party (AKP) in the early 2000s in Turkey, the headscarf that used be looked down upon by the secular middle and upper classes moved to the mainstream. It has since become a symbol of desirable womanhood. This development has pushed Turkey's secular feminists, who had been critical of the headscarf ban, to the margins. This book is the first to trace this new phase of conservative gender politics by examining the images of women's headscarves across secular and Islamic news media. Based on the analysis of photographs and the columns of conservative women journalists, the book sheds light on how the AKP is transforming the image of womanhood. It also identifies the rise of the conservative female journalist as an important phenomenon in the country. Esra Özcan problematizes designators such as "Islamist women" or "Islamic feminists" and instead aims to understand these women in terms of their commitment to right-wing activism and politics, which has so far been ignored. An original contribution to feminist scholarship on Muslim women, this book draws on the unique perspectives of Visual Culture and Communication Studies.

Turkey-European Union Relations Meltem Müftüler-Bac, Yannis A. Stivachtis, 2008 Turkish membership to the European Union generates significant debate among politicians, policy-makers, and academicians. At the same time, the issue of Turkish membership carries challenges for European Union policy-making as well as for theories of integration. This volume comes at a timely interval when there is a need to better understand the Turkish accession to the European Union. The purpose of this volume is twofold. First, it seeks to examine the political background of the European Union-Turkey enlargement negotiation process, and second, it aims at assessing the current strengths and weaknesses of the Turkish candidature. By analyzing the obstacles in front of Turkish negotiations, it aims to uncover the road in front of Turkey's European Union membership. The volume focuses on political, social, and economic issues relevant to the accession process and assesses the transformation at these different levels in line with the negotiations.

Rethinking Turkey-Iraq Relations Mehmet Akif Kumral,2016-08-31 This book explores key historical episodes to understand the reasons and consequences of the enduring partiality problem in cooperation between Turkey and Iraq. Notwithstanding their mutual material interdependence and common cultural heritage, these two close neighbors have stayed far from achieving comprehensive cooperation. The author examines contextual-discursive dynamics shaping Turkey-Iraq partial cooperation around critical events, such as the Saadabad-Baghdad pacts, the Gulf War, the US Invasion, and the war against ISIS. Leading pro-government Turkish daily newspapers of the period are analyzed to highlight ambivalent ontological-rhetorical modes and ambiguous political narratives-frames that perpetuate paradoxes of partiality in Ankara's rationalization and contextualization of cooperation with Baghdad and Erbil.

New Normal Beyond The Pandemic: Rethinking Alienation From Local To Global / Pandemiyle Birlikte Yerelden Küresele Yabancılaşmayı Yeniden Düşünmek Zeynep Banu Dalaman,2021-11-16 The Covid-19 crisis, with all the horrors it has caused, has offered humanity an opportunity to reflect on itself and evaluate its point, even if it is delayed. In a very short time, we found ourselves worried about whether we could reach the objects we needed, whether we would lose our jobs or keep our freedom. Alienation is described as withdrawing or separation of a person or a person's affections from an object or position of former attachment: alienation viewed as a sense of detachment from the values of one's society, family, and even from one's own feelings from the values of one's society and family (S. L. Halleck). Different forms of alienation, such as cultural alienation, professional alienation, and religious alienation, are among the current issues. It is obvious that we need to define different forms of alienation along with the pandemic. I believe this book will not be the first nor the last research book published on the Covid-19 pandemic. Our aim is to leave a resource on the subject for the next generation of researchers. I would like to thank everyone who contributed to the book and hope it will be beneficial for the academic community. Covid-19 krizi yaşattığı tüm dehşetle birlikte insanlığın kendi üzerinde düşünmek, gelmiş bulunduğu noktayı değerlendirmek için de, gecikmeli olsa bile bir imkan sunmuştur. Kendimizi çok kısa bir süre içerisinde ihtiyacımız olan nesnelere ulaşp ulaşamayacağımız, işimizi kaybedip kaybetmeyeceğimiz ya da özgürlüklerimizi elimizde tutup tutamayacağımız hakkında kaygılanır bulduk. Kelime anlamı itibarı ile yabancılaşma bir şeyin veya kimsenin başka bir şeyden veya kimseden uzaklaşması, başka bir şeyle veya kimseyle olan fonksiyonel veya anlamsal paylaşımının sona ermesi durumunu ifade etmektedir (S.L.Halleck). Kültürel yabancılaşma, mesleki yabancılaşma, dinsel yabancılaşma gibi farklı yabancılaşma biçimleri de günümüzün aktüel konularındandır. Pandemi ile birlikte farklı yabancılaşmaları da tanımlamamız gerektiği aşikârdır. Bu kitabın amacı, yeni sürecin yarattığı yabancılaşmayla birlikte, melezleşme sürecini yeniden inşa etmek, küresel ve yerel arasındaki kültürel karşılaşmalara alternatif yaklaşımları anlamaya katkı sunmaktır. Media and Terrorism in the 21st Century Ismayil, Elnur, Karadogan Ismayil, Ebru, 2022-04-22 Media plays a specific role within modern society. It has been and continues to be a tool for spreading terrorist messages. However, it can just as easily be used as a tool for countering terrorism. During these challenging times where both international and domestic terrorism continue to threaten the livelihoods of citizens, it is imperative that studies are undertaken to examine the media’s role in the spread of terrorism, as well as to explore strategies and protocols that can be put in place to mitigate the spread. Media and Terrorism in the 21st Century presents the emerging ideas and insights from experts, academicians, and professionals on the role media and new media plays in terrorist propaganda from a critical international perspective. It examines the historical relation between media and terror and analyzes the difficulties and obstacles presented by the relation in the 21st century. Covering topics such as AI-based dataveillance, media development trends, and virtual terrorism, this book is an indispensable resource for government officials, communications experts, politicians, security professionals, sociologists, students and educators of higher education, researchers, and academicians.

Conspiracy Theories in Turkey Doğan Gürpınar, 2019-05-29 Conspiracy theories are no longer just a curiosity for aficionados but a politically salient theme in the age of Trump, Brexit and fake news. One of the countries that has been entrapped in conspiratorial visions is Turkey, and this book is the first comprehensive survey in English of the Turkish conspiratorial mind-set. It provides a nuanced overview of the discourses of Turkish conspiracy theorists and examines how these theorists argue for and legitimize their worldview. The author discusses a broad range of conspiracy theories, including some influenced by Kemalist and Islamist perspectives as well as those of the ruling Justice and Development Party. The most influential authors, books, references and images within the conspiracist milieu are all examined in detail. This book will be an important source for scholars interested in

extremism in Turkey and the societal and political impact of conspiracy theories.

Clash or Cooperation of Civilizations? Wolfgang Zank, 2016-05-23 For decades North Africa and the Middle East have experienced overlapping identities and integration processes. With the exception of Morocco, the countries of North Africa have supported the re-launch of pan-Africanism in the form of the African Union and its growing institutionalization; but they also share an Arab identity and are members of the Arab League. Islamism commands wide support among the regions of North Africa and the Middle East, and the impact of European integration can increasingly be seen in varying forms. This comprehensive volume focuses on overlapping identities and integration processes in the Mediterranean basin and queries to what extent these various identities and integration processes are compatible or in conflict. Incorporating both theoretical and empirical material, it unites contributions from a variety of countries, thus exploring these issues from different perspectives.

National Elections in Turkey F. Michael Wuthrich, 2015-07-28 What determines voting behavior in Turkey? At a time when the center-right, religious-conservative leadership of the Justice and Development Party has dominated government and the political scene in Turkey—so much so that the democratic credentials of the regime have come into question—many have sought to understand what undergirds this party's success at the polls. While many scholars have argued that elections in Turkey over time can be effectively and simply explained by static social or cultural cleavages, Wuthrich challenges these assertions with a framework that carefully attends to patterns of strategic vote-getting behavior in elections by political parties and their leaders. Using the campaign speeches of the political elite, election data at national and provincial levels, and careful observations of voter mobilization strategies across time, Wuthrich traces four distinct patterns that explain important shifts in electoral behavior. He covers the first free and fair multiparty election in 1950 and follows campaign strategies through 2011, highlighting and explaining the potential development of a new and more problematic paradigm emerging in the post-2007 environment.

Another Brick in the Barricade: The Gezi Resistance and Its Aftermath Güneş Koç, Harun Aksu, 2015-10-30 „After more than two years, what has remained of the Gezi Park protests?“ „Is Gezi's critique of political power still valid?“ „What has changed after Gezi?“ These valid questions linger; not properly answered, not yet properly discussed. Perhaps Gezi's enduring effects and legacy can be discovered in the resistances, dissents and practices of political critique that have been created since June 2013. In this book, fourteen authors discuss and elaborate on such questions from both political and quotidian perspectives. Critique of the power of the multitude, the anthropology and ethnography of resistance, the causes, effects and continuity of the Gezi Park protests are among the issues covered in „Another Brick in the Barricade: The Gezi Resistance and Its Aftermath.“ This book does not offer all-explaining narratives of singular objective truths. It does not represent the whole of the multitude. A wide perspective of analyses ranging from political science to sociology, psychology to anthropology, economics to media studies consider Gezi resistance not only as an exceptional state of resistance, but also in terms of the new possibilities it offers for political critique. These possibilities constitute the fieldwork for academic

studies, which in turn become part of social struggle. This volume seeks to make diversity its distinguishing aspect. The phenomena it considers - Gezi and its aftermath - requires this. The interdisciplinary approach and variety of discussions in the volume provide not just critique about power and dominance in Turkey, but also inspire resistance against domination and power around the world.

Regime Change in Contemporary Turkey Necati Polat, 2016-10-27 Turkey has undergone a series of upheavals in its political regime from the mid-19th century. This book details the most recent change, locating it in its broader historical setting. Beginning with the Justice and Development Party's rule from late 2002, supported by a broad informal coalition that included liberals, the book shows how the former Islamists gradually acquired full power between 2007 and 2011. It then describes the subsequent phase, looking at politics and rights under the amorphous new order. This is the first scholarly yet accessible assessment of this historic change, placing it in the larger context of political modernisation in the country over the past 150 years.

The European Court of Human Rights and the Rights of Marginalised Individuals and Minorities in National Context Dia Anagnostou, Evangelia Psychogiopoulou, 2010 This volume examines the effects of Strasbourg Court jurisprudence for protecting the rights of marginalised individuals and minorities. It argues that its consequences vary depending upon the diverse social, legal and institutional context that shapes litigation and judicial approaches in each country.

Gendered Identities Fazilet Ahu Özmen, Rasim Özgür Dönmez, 2013-05-16 This book aims to analyze and deconstruct the forms of patriarchy embedded in Turkish society and politics. In this regard, it analyses how patriarchy functions and reconstructs itself by suppressing women and non heterosexuals. It also reveals its effects on women and non-heterosexuals through some societal and political issues such as military interventions, the perceptions on transsexuals by the state and society, juvenile penal justice, and policies on environment.

Religious Politics in Turkey Ceren Lord, 2018-11-08 Since the elections of 2002, Erdogan's AKP has dominated the political scene in Turkey. This period has often been understood as a break from a 'secular' pattern of state-building. But in this book, Ceren Lord shows how Islamist mobilisation in Turkey has been facilitated from within the state by institutions established during early nation-building. Lord thus challenges the traditional account of Islamist AKP's rise that sees it either as a grassroots reaction to the authoritarian secularism of the state or as a function of the state's utilisation of religion. Tracing struggles within the state, Lord also shows how the state's principal religious authority, the Presidency of Religious Affairs (Diyanet) competed with other state institutions to pursue Islamisation. Through privileging Sunni Muslim access to state resources to the exclusion of others, the Diyanet has been a key actor ensuring persistence and increasing salience of religious markers in political and economic competition, creating an amenable environment for Islamist mobilisation.

Communication Strategies in Turkey Taner Dogan, 2020-12-10 The Turkish President Recep Tayyip Erdogan is known for his populist Islamist ideology, charismatic personality, and for ushering in new forms of communication strategies in Turkey. The key tools in Erdogan's political communication repertoire include religious, cultural

and historic symbols and imagery. From engaging Israel to the Gezi Park protests, from the Arab uprisings to the July 2016 coup attempt, every key moment in Turkey's recent history has heralded a change in Erdogan's rhetoric. *Communication Strategies in Turkey* examines the transformation of political messaging that has taken place within the Justice and Development Party (AKP) under Erdogan. Using quantitative and qualitative analysis of in-depth interviews with high profile AKP officials, observations at AKP rallies and headquarters, and analysis of Erdogan's speeches from 2002 to 2019, the book shows how his method of communication changed over time to prioritise a "New Turkey" to replace Atatürk and his legacy.

Routledge Handbook of Political Islam Shahram Akbarzadeh, 2020-12-29 This updated, second edition of the Handbook of Political Islam covers a range of political actors that use Islam to advance their cause. While they share the ultimate vision of establishing a political system governed by Islam, their tactics and methods can be very different. Capturing this diversity, this volume also sheds light on some of the less-known experiences from South East Asia to North Africa. Drawing on expertise from some of the top scholars in the world, the chapters examine the main issues surrounding political Islam across the world, including: Theoretical foundations of political Islam Historical background Geographical spread of Islamist movements Political strategies adopted by Islamist groups Terrorism Attitudes towards democracy Relations between Muslims and the West in the international sphere Challenges of integration Gender relations Capturing the geographical spread of Islamism and the many manifestations of this political phenomenon make this book a key resource for students and researchers interested in political Islam, Muslim affairs and the Middle East.

Tracing Cultural Change in Turkey's Experience of Democratization Metin Koca, 2023-03-24 Does democracy require an agreement on specific foundational values? Bringing insights from Turkey to the study of democratization, this book argues that democracy may rather be about acknowledging the disagreement over values before negotiating over other concerns, such as rights, freedoms, capabilities and duties. It explores this idea by examining three landscapes of culture in Turkey, which have been the subjects of persistent stories regarding the unequal relationship between the self and the other. These include LGBT visibility and the entertainment sector, women and clothing, and Alevism and funerals. Through these case studies, the book analyses the remaking of (in)tolerance through the integration of LGBT representations into broader political struggles over values, the assertion of women's rights and freedoms from traditional values surrounding dress, and the conflict between essentialist intolerance and the syncretic traditions of Alevi identity. Bringing these landscapes together with the surrounding cultural tensions in Turkey and the West, *Tracing Cultural Change in Turkey's Experience of Democratization* will be a valuable resource for students and scholars of Middle Eastern studies and politics, gender studies and cultural studies.

Media and Politics in the Southern Mediterranean Roxane Farmanfarmaian, 2020-10-20 This edited volume presents ground-breaking empirical research on the media in political transition in Tunisia, Turkey and Morocco. Focusing on developments in the wake of the region's upheavals in 2011, it offers a new theoretical framework for

understanding mediascapes in the confessional and hybrid-authoritarian systems of the Middle East. In this book, media scholars focus on three themes: the media's structure as an expression of governance, the media's function as a reflection of the market, and the media's agency in communicating between power and the public. The result is a unique addition to the literature on two counts. Firstly, analysis of similar players, issues and processes in each country produces a thematically consistent comparative assessment of the media's role across the southern Mediterranean region. The first cross-country comparison of specific media practices in the Middle East, it covers issues such as women in talk shows, media's relationship with surveillance, and comparative practices of media regulation. Secondly, actualising the idea that media reflects the society that produces it, the studies here draw on field data to lay the foundations for a new theory of media, Values and Status Negotiation (VSN), which evolved from the region's unique characteristics and practices, and offers an alternative to prevailing Western-centric approaches to media analysis. *Media and Politics in the Southern Mediterranean* will appeal to students and scholars of politics, sociology, Media Studies, Cultural Studies and Middle Eastern Studies.
