Reverse Design Patrick Holleman,2018-09-03 The Reverse Design series looks at all of the design decisions that went into classic video games. This is the second installment in the Reverse Design series, looking at Chrono Trigger. Written in a readable format, it is broken down into four sections examining some of the most important topics to the game: Analyzes how the designers use gameplay to preserve and embellish the surprises in the plot Explains how Chrono Trigger is really two different games: the Tragedy of the Entity and the Comedy of the Sages. Highlights how the two games differ in terms of tone, linearity, player choice and in the pacing of their content.

A War Transformed Frederick Silburn-Slater,2023-09-28 The Great War meets the horrors of forgotten folklore in this occult skirmish wargame. 1916: A World Transformed. As the Great War raged, the Moon fell from its orbit. Seas shifted, uncovering new lands and revealing what tide and time had concealed. Long known as a potent occult power, the Moon's descent also heralded the terrifying resurgence of magic. Long-forgotten gods and spirits began to stir in hidden groves and caverns and old traditions found new strength. Soon, stone circles echoed once more with the chanting of ancient rituals and menhirs were again bedecked with wildflowers and presented with offerings of honey and blood. 1918: A War Transformed. Rival nations battle on new fronts, seeking dominance with weapons of spell, song, and sacrifice. Thrust to the surface, Doggerland, the ancient bridge between Britain and Europe, becomes a crucial battleground in the conflict. In this alien landscape, raiding parties pick through the ribs of wrecks and the ruins of lost villages, war machines festooned with totems and fetishes roll over the brittle bones of long-dead giants, and cavalry charge across plains made verdant by the vegetation returning to this new land with unnatural speed. A War Transformed is a skirmish wargame set in a world where World War I was utterly changed by forces far beyond human comprehension. Players command small forces of infantry, cavalry, artillery, and other... stranger... troops on the Doggerland Front. Fast-paced gameplay and a tense initiative bidding system are combined with authentic folk traditions and occult philosophies of the era – it is a game of rifle and relic, of bayonet and belief, of machine gun and magic.

Rules of Play Katie Salen Tekinbas,Eric Zimmerman,2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In Rules of Play Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written Rules of Play as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, Rules of Play is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.

Extinct Barbara Penner,Adrian Forty,Olivia Horsfall Turner,Miranda Critchley,2021-11-11 Blending architecture, design, and technology, a visual tour through futures past via the objects we have replaced, left behind, and forgotten. So-called extinct objects are those that were imagined but were never in use, or that existed but are now unused—superseded, unfashionable, or simply forgotten. Extinct gathers together an exceptional range of artists, curators, architects, critics, and academics, including Hal Foster, Barry Bergdoll, Deyan Sudjic, Tacita Dean, Emily Orr, Richard Wentworth, and many more. In eighty-five essays, contributors nominate “extinct” objects and address them in a series of short, vivid, sometimes personal accounts, speaking not only of obsolete technologies, but of other ways of thinking, making, and interacting with the world. Extinct is filled with curious, half-remembered objects, each one evoking a future that never came to pass. It is also a visual treat, full of interest and delight.

Playing Partners George Peper,2003-05-01 The editor-in-chief of Golf magazine examines the friendship that took root while he and his son set out to dispel the myth that golf is a good walk spoiled. Teenagers are notorious for differences with their parents, but George Peper has been lucky to share a special friendship with his 18-year-old son, Scott. For the past decade, the two have bonded over a mutual passion for golf, spending hundreds of hours together they would never have enjoyed if not for their love of chasing around a little white ball. Now, Peper examines their relationship, analyzing how their roles have morphed from faultless father and worshipful son to teacher and pupil, dictator and insurgent, and ultimately, target and assassin, as son tries to outscore father over 18 holes. In an endearing portrait, George Peper hits on the universal lessons of life, love, and golf-as he's learned them from his teenage son.
