**The Jump** Jessica DiPalma,2021-10-26 To most people best friends Riley Caldwell and Jack Saunders are just two average sixth graders living in New York City. However, things are not always what they seem. The truth is Riley is descended from a secret legacy of art jumpers. Since Jack accidentally discovered that fact as Riley was about to enter a painting and she was forced to take him with her on a jump, they have shared two amazing adventures together. When Riley's grandfather, a conservator at the New York Museum of Art, shows them a painting of a city scene, they instantly know this is the perfect work for their next jump. Upon landing in this painting, Jack and Riley quickly become caught up in the fascinating world of a traveling show from the early 1900s. It is also there that they meet Max, a boy about their age, and his younger sister Lettie who are part of the troupe's crew and have dreams of playing a much bigger role in the show. When a turn of fate offers an opportunity to make their dreams come true, Riley and Jack will face an exciting adventure as they attempt to help their new friends become vaudeville stars while also being careful to be sure to make it back to the portal before it closes and they are trapped in the painting's world.

But now with an oil refinery being built right in their backyard, each also has their own problems. Their families are at risk of losing their jobs, their communities, and their homes. So when The Order, a mysterious vigilante organization, hijacks the scavenger hunting forum and concocts a puzzle of its own, promising a reward of influence, Team Jericho sees it as the chance of a lifetime. When the Rabbit Jumps Allan David Mowat,2017-09-26 Why do some of us, despite our own trying circumstances, go out of our way to help others, while most people ignore the plight of strangers? Quite often, these actions simply cannot be explained. That's the question Jarrod Wakefield—a fugitive from justice—asks himself the night he meets Lucas, a troubled youth on the run from yet another bad group home placement. After Jarrod rescues Lucas from a close call with the law, the two develop an unlikely friendship and decide to travel together across the American Midwest in the early 1980s. Both are fleeing a past they would rather forget, with the hope of building a future that is free from the many problems that have plagued them thus far. Along the way, they meet a colorful cast of characters, including the leaders of a commune in the hills of Minnesota who attempt to lure Lucas into a lifestyle he has no interest in pursuing. Rather than the idyllic answer to the boy's troubles, their methods simply become another form of manipulation and abuse. Desperate to find freedom, the two escape the commune and cross the border into Canada. But

as much as they want to separate themselves from their past, they come to realize the freedom they seek may always remain just out of reach. Will they finally be able to stop and face up to the troubles that put them on the road in the first place?
