

Zoo Metro

Jonathan A. Saidel

American Zoo David Grazian,2017-12-05 A close-up look at the contradictions and wonders of the modern zoo. Orangutans swing from Kevlar-lined fire hoses. Giraffes feast on celebratory birthday cakes topped with carrots instead of candles. Hi-tech dinosaur robots growl among steel trees, while owls watch animated cartoons on old television sets. In *American Zoo*, sociologist David Grazian takes us on a safari through the contemporary zoo, alive with its many contradictions and strange wonders. Trading in his tweed jacket for a zoo uniform and a pair of muddy work boots, Grazian introduces us to zookeepers and animal rights activists, parents and toddlers, and the other human primates that make up the zoo's social world. He shows that in a major shift away from their unfortunate pasts, American zoos today emphasize naturalistic exhibits teeming with lush and immersive landscapes, breeding programs for endangered animals, and enrichment activities for their captive creatures. In doing so, zoos blur the imaginary boundaries we regularly use to separate culture from nature, humans from animals, and civilization from the wild. At the same time, zoos manage a wilderness of competing priorities—animal care, education, scientific research, and recreation—all while attempting to serve as centers for conservation in the wake of the current environmental and climate-change crisis. The world of the zoo reflects how we project our own prejudices and desires onto the animal kingdom, and invest nature with meaning and sentiment. A revealing portrayal of comic animals, delighted children, and feisty zookeepers, *American Zoo* is a remarkable close-up exploration of a classic cultural attraction.

Philadelphia Zoo, Performance Audit Jonathan A. Saidel,1998-12 Focusing on the Phila. Zoo's operating results for FY1992 through FY1996, this audit was performed to determine if the Zoo was operating in such a manner as to ensure that it would maintain the current level of financial independence from the City and to identify opportunities for increasing revenues and reducing costs to help foster that independence. Identifies obstacles to self-sufficiency, evaluates the job that the Zoo is doing, and presents recommendations for improvements addressed at both the Zoo and the City. Includes responses to the audit by Alexander Hoskins, Pres. of the Zoological Society of Phila., as well as the City admin.

Zoo Studies Paul A. Rees,2023-05-31 Zoos and aquariums are culturally and historically important places where families enjoy their leisure time and scientists study exotic animals. Many contain buildings of great architectural merit. Some people consider zoos little more than animal prisons, while others believe they play an important role in conservation and education. Zoos have been the subject of a vast number of academic studies, whose results are scattered throughout the literature. This interdisciplinary volume brings together research on animal behaviour, visitor studies, zoo history, human-animal relationships, veterinary medicine, welfare, education, enclosure design, reproduction, legislation, and zoo management conducted at around 200 institutions located throughout the world. The book is neither 'pro-' nor 'anti-' zoo and attempts to strike a balance between praising zoos for the good work they have done in the conservation of some species, while recognising that they face many challenges in making themselves relevant in the modern world.
