## 25 Business Ideas For Smart Entrepreneurs Arun

Jayaram,2021-02-10 They say business ideas are dime a dozen but I don't fully agree with this!! If you want pursue a idea similar to that of a multi national conglomerate you are sure to go bust.. Unless have resources for it.. All that aside ideas are very important. Otherwise you will be competing in red ocean(basically from the book blue ocean strategy the idea is to focus on niche or business where there is not much competition) . But that doesn't stop there. Many people waste time by coming up idea after idea without taking action,(they are called wanterpreneurs) which is of no use .. After idea test for its validity and money making potential and pursue it execution is name of the game!! . Test test test and improvise on your initial idea or hypothesis!!

As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right .
