

Ace Battle

R.G. Head

Race of Aces John R Bruning, 2020-01-14 The astonishing untold story of the WWII airmen who risked it all in the deadly race to become the greatest American fighter pilot. In 1942, America's deadliest fighter pilot, or ace of aces -- the legendary Eddie Rickenbacker -- offered a bottle of bourbon to the first U.S. fighter pilot to break his record of twenty-six enemy planes shot down. Seizing on the challenge to motivate his men, General George Kenney promoted what they would come to call the race of aces as a way of boosting the spirits of his war-weary command. What developed was a wild three-year sprint for fame and glory, and the chance to be called America's greatest fighter pilot. The story has never been told until now. Based on new research and full of revelations, John Bruning's brilliant, original book tells the story of how five American pilots contended for personal glory in the Pacific while leading Kenney's resurgent air force against the most formidable enemy America ever faced. The pilots -- Richard Bong, Tommy McGuire, Neel Kearby, Charles MacDonald and Gerald Johnson -- riveted the nation as they contended for Rickenbacker's crown. As their scores mounted, they transformed themselves from farm boys and aspiring dentists into artists of the modern dogfight. But as the race reached its climax, some of the pilots began to see how the spotlight warped their sense of duty. They emerged as leaders, beloved by their men as they chose selfless devotion over national accolades. Teeming with action all across the vast Pacific theater, *Race of Aces* is a fascinating exploration of the boundary between honorable duty, personal glory, and the complex landscape of the human heart. Brings you into the cockpit of the lethal, fast-paced world of fighter pilots . . . Fascinating. - - Sara VladicExtraordinary . . . a must-read. --

US Navy Captain Dan PedersenA heart-pounding narrative of the courage, sacrifice, and tragedy of America's elite fighter pilots. -- James M. ScottVivid and gripping . . . Confirms Bruning's status as the premier war historian of the air. -- Saul David

Luftwaffe Aces in the Battle of Britain Chris Goss,2020-12-02 "An extraordinary analysis of the 'scores' chalked up by individual fighter pilots serving in the Luftwaffe during the Battle of Britain. So much detail!" -Books Monthly The term "fighter ace" grew in prominence with the introduction and development of aerial combat in the First World War. The actual number of aerial victories required to officially qualify as an "ace" has varied but is usually considered to be five or more. For the Luftwaffe, a number of its fighter pilots, many of whom had fought with the Legion Condor in Spain, had already gained their Experte, or ace, status in the Battle of France. However, many more would achieve that status in the hectic dogfights over southern England and the Channel during the Battle of Britain in the summer of 1940. A number would also be either killed or captured. Some of these men, individuals such as Adolf Galland, Werner Mölders, and Helmut Wick, who between them had claimed 147 aerial victories by October 31st1940, are well-known, but most are less so. In this book, the story of each of the Luftwaffe's 204 Messerschmitt Bf 109 "aces" from the summer of 1940 is examined, with all of the individual biographies, detailing individual fates during the war, being highly illustrated throughout. Original German records from the summer of 1940, have been examined, providing a definitive list of each pilot's individual claims. It also covers, to a lesser extent, those forgotten fifty-three Messerschmitt Bf 110 pilots who also achieved ace status by day and also by

night between 10 July and 31 October 1940. "A fascinating book indeed." -UK Historian

Oswald Boelcke R.G. Head, 2016-08-05 This biography of the pioneering WWI flying ace who mentored the Red Baron is "fascinating . . . [it] captures combat aviation at its inception" (MiG Sweep: The Magazine of Aviation Warriors). With a total of forty victories, Oswald Boelcke was Germany's first ace in World War I—and a century later he remains a towering figure in the history of air warfare, renowned for his character, inspirational leadership, organizational genius, development of air-to-air tactics, and impact on aerial doctrine. Paving the way for modern air forces across the world with his pioneering strategies, Boelcke had a dramatic effect on his contemporaries. The famed Red Baron's mentor, instructor, squadron commander, and friend, he exerted a tremendous influence upon the German air force. He was one of the first pilots to be

awarded the famous Pour le Mérite, commonly recognized as the "Blue Max." All of this was achieved after overcoming medical obstacles in childhood and later life with willpower and determination. Boelcke even gained the admiration of his enemies: After his tragic death in a midair collision, Britain's Royal Flying Corps dropped a wreath on his funeral, and several of his captured foes sent another wreath from their German prison camp. His name and legacy live on, as seen in the Luftwaffe's designation of the Tactical Air Force Wing 31 "Boelcke." This definitive biography reveals his importance as a fighter pilot who set the standard in military aviation.

Hurricane Squadron Ace Nick Thomas, 2014-11-30
Air Commodore Peter Malam 'Pete' Brothers CBE, DSO, DFC, and Bar (1917-2008) was one of the most heroic and highly praised pilots of the Second World War. Decorated extensively, he secured a total of 16 'kills' over the course of the conflict, with 10 of these occurring during the Battle of Britain. Pivotal moments in his career include the time, in August 1940, when his flight encountered around a hundred enemy aircraft, including Messerschmitt 110's; he led the flight in attack against them, and soon found himself in a stalled position, out of which he spun, only to be confronted by a Dornier 215, which he shot down, before later destroying a Messerschmitt 109. Scores of these kind of risky manoeuvres and winning victories punctuated a career defined by great courage, leadership and initiative in the face of fierce opposition. ??This new and engaging biography profiles a pilot who, until now, hasn't been the subject of such a thorough book-length study. The story of his career is incredibly entertaining, featuring a number of hair-raising episodes, and is sure to appeal to fans of aviation history as well as the more general reader seeking out an action-packed biography

offering fresh insights into one of the most pivotal conflicts of the twentieth century.

An Ace of the Eighth Norman J.

Fortier, 2007-12-18 FOR A FIGHTER PILOT IN THE MIGHTY EIGHTH, DEATH WAS ALWAYS A HEARTBEAT AWAY. When the skies of Europe blazed with the fiercest air battles in history, fighter pilots like Norman "Bud" Fortier were in the thick of it, flying four hundred miles an hour at thirty thousand feet, dodging flak and dueling with Nazi aces. In their role as "escorts" to Flying Fortresses and Liberators, the fighter squadrons' ability to blast enemy aircraft from the sky was key to the success of pinpoint bombing raids on German oil refineries, communication and supply lines, and other crucial targets. Flying in formation with the bomber stream, Fortier and the rest of his squadron helped develop dive-bombing and strafing tactics for the Thunderbolts and Mustangs. As the war progressed, fighter squadrons began to carry out their own bombing missions. From blasting V-1 missile sites along France's "rocket coast" and the hell-torn action of D day to the critical attacks on the Ruhr Valley and massive daylight raids on German industrial targets, Fortier was part of the Allies' bitter struggle to bring the Nazi war machine to a halt. In describing his own hundred-plus missions and by including the accounts of fellow fighter pilots, Fortier recaptures the excitement and fiery terror of the world's most dangerous cat-and-mouse game.

Red Baron: The Life and Death of an Ace Peter Kilduff, 2012-04-01 The classic bestselling autobiography of the most successful fighter pilot of the First World War. This is the memoir of the undisputed top gun of World War I's aerial war, Captain Manfred von Richthofen, who shot down 80 Allied aircraft. Originally published in German in late 1917 as *Der Rote Kampfflieger* (The Red Air Fighter), it was a runaway bestseller. The English

language edition followed in 1918 without any official deal with the German publishers as it was argued that Richthofen's accounts of combat against the Allied air force aircraft provided valuable intelligence to use against the enemy. Originally a cavalryman, Manfred transferred to the Imperial German Army Air Service in May 1915 and quickly distinguished himself as a fighter pilot. During 1917 he became leader of Jagdgeschwader 1. It was better known as the "Flying Circus" because of its aircraft's bright colors and because the squadron moved like a traveling circus, from place to place as a self-contained unit so that it appeared wherever the fighting was the thickest. It would be operating at Verdun one week only to be north of Arras the next. A few days later, it would be down on the Somme. Richthofen was a brilliant tactician, although his *modus operandi* was as simple as it was deadly. Typically, he would dive from above to attack with the advantage of the sun behind him (the victim would not see him coming, blinded by glare), with other pilots of his flying circus covering his rear and flanks. By 1918, he was regarded as a national hero in Germany and held the country's highest honor, the "Blue Max." Richthofen was well-known in the Allied countries and a respected advisor of military aviators. Newly illustrated with twenty-one contemporary images. Includes many of the Red Baron's eighty combat reports, contemporary interviews with a selection of his surviving victims, and an extra chapter on the death in combat of von Richthofen.

Enemy Ace Garth Ennis, Robert Kanigher, Joe Kubert, 2003 From 1914 to 1918, Hans Von Hammer earned the nickname The Hammer of Hell in the bloody skies of World War I. Now it's World War II, and blood rains from the skies once again! Von Hammer, the finest pilot Germany has ever known, is now a 46-year-old man with plenty of enemies in

the Naziregime. This edition also includes a classic World War One Enemy Acetale by creators Robert Kanigher and Joe Kubert, reprinted from STAR-SPANGLEDWAR STORIES #139

Spitfire Ace Martin Davidson, James Taylor, 2015-10-22 The Battle of Britain, 1940, was one of the most famous air battles in the history of warfare and it is a story of ruthless organisation, brilliant control and command. But at its heart is one particular figure, a legend ever since - the RAF fighter pilot. And one particular plane - a piece of machinery that has almost mythic historical glamour - the Supermarine Spitfire. Spitfire Ace reintroduces the few that flew in the Battle of Britain and includes interviews with many of the surviving veteran Spitfire pilots. Combined with a historical narrative of the events surrounding the Battle of Britain, you will learn for the first time what it was really like to fly a Spitfire and to experience combat flying at its most visceral. Fully illustrated with 16 pages of photographs and contemporary archive material, Spitfire Ace provides a vivid portrait of the fighter boys and their finest hour, their planes (including Spitfires, Hurricanes and Messerschmitts) and Fighter Command - RAF versus the Luftwaffe.

Richard Bong Pete Barnes, 2009-08 Wisconsin-born Richard Bong was the highest-rated flying ace in World War II, famous for having shot down 40 Japanese planes during a 3 year career as a fighter pilot. The recipient of a Silver Star and a Congressional Medal of Honor, Bong was killed after the war in a flying accident just months after marrying the love of his life, Marge Vattendahl. Badger Biographies is a series intended to integrate reading and Wisconsin history for 4th through 8th grade students or for ELL/ESL high school students.

Spitfire Ace Gordon Olive, 2015-07-15 The amazing

story of one of 'the Few', Spitfire fighter pilot Gordon Olive, who shot down ten enemy aircraft during the Battle of Britain.

Bill Lambert Samuel J. Wilson, 2016-08-16 World War I fighter pilot William C. Lambert of Ironton, Ohio, flew for the British Royal Air Force in 1918. When he left the Western Front in August, he had 22 victories--then the most achieved by any American pilot. (By the time of the Armistice in November, his total was surpassed by Eddie Rickenbacker, the former race car driver from Columbus, Ohio, with 26 victories.) Lambert survived the war and lived into his eighties, unwilling until late in life to seek public acclaim for his war record. This book examines his life and the wartime experiences that defined it.

Fighter Pilot William R. Dunn, 2014-04-23 This WWII fighter pilot memoir recounts the author's many exploits as a flying ace during WWII in the Normandy invasions, the Battle for France and beyond. Born in Minneapolis in 1916, William R. Dunn decided to become a fighter pilot at the age of twelve. In 1939 he joined the Canadian Army and was soon transferred to the Royal Air Force. As part of the RAF's famous Eagle Squadron, Dunn was sent to Europe to fight in the Second World War. Flying Hawker Hurricanes and Supermarine Spitfires, he was the first Eagle Squadron pilot to shoot down an enemy aircraft. When he later transferred to the US Army Air Forces, he became the first American ace of the war. Lieutenant Colonel Dunn saw action in the Normandy invasion and in Patton's sweep across France. Twenty years later he fought again in Vietnam. In this lively memoir, Dunn keenly conveys the fighter pilot's experience of war--the tension of combat, the love of aircraft, the elation of victory, the boisterous comradeship and competition of the pilot brotherhood.

Kenneth Lee DFC Nick Thomas, 2011-02-28 The

heroic life of the pilot who became an ace with one of the most successful fighter squadrons in the RAF and a captive in a notorious Nazi POW camp. Following training, Lee received his commission and was posted to 501 Squadron which was sent to support the Expeditionary Force in France, arriving on 10 May, only hours after the Blitzkrieg had been launched. Lee quickly opened his score, claiming several bombers during the first week of operations. Having been wounded when his Hurricane exploded following a dogfight, Lee was briefly rested but soon rejoined the Squadron before they moved to their first Battle of Britain base at Middle Wallop. Lee scored more damaged and destroyed enemy aircraft and by the end of July he was Mentioned in Dispatches. Lee was forced to take to his parachute for the second time, learning of the richly deserved award of his DFC while still recovering from his wounds. He later recalled how each of the Squadrons aces, even Ginger Lacey, had been shot down at least twice during that summer. Lee was later posted to 112 (Shark) Squadron, flying Curtis Kittyhawks on Fighter and Fighter-Bomber missions in North Africa and then to 260 Squadron which was heavily involved in the lead-up to the battle of El Alamein, seeking out and destroying enemy troop columns and fighting off the Luftwaffe which still had air superiority. In March 1943, 123 Squadron began Fighter-Bomber operations against Mediterranean targets. During one Lee was hit by AA and made a forced landing in an olive grove. He was captured and sent to Stalag Luft III just in time to play a key role in the Great Escape.

First Fighter Ace Stanisław Skalski, 2017-08-01
Stanisław Skalski was the top Polish fighter ace and the first Allied fighter ace of World War II. His combat career began on the war's very first day, September 1, 1939, and within two weeks, Skalski had achieved ace status, with six German

kills to his credit. After Poland's surrender, Skalski and other Polish pilots ended up in England to join the Royal Air Force during the Battle of Britain. He later took command of the Polish Fighting Team, known as Skalski's Circus, which claimed twenty-six enemy aircraft shot down in a mere two months in North Africa. Skalski then became the first Pole to command an RAF squadron, which he led in Sicily and Italy until he took over a Polish fighter wing and saw action in France after D-Day. According to official tallies, he had scored some twenty aerial victories.
