Standards and Their Stories Martha Lampland, Susan Leigh Star, 2009

Standardization is one of the defining aspects of modern life, its presence so pervasive that it is usually taken for granted. However cumbersome, onerous, or simply puzzling certain standards may be, their fundamental purpose in streamlining procedures, regulating behaviors, and predicting results is rarely questioned. Indeed, the invisibility of infrastructure and the imperative of standardizing processes signify their absolute necessity. Increasingly, however, social scientists are beginning to examine the origins and effects of the standards that underpin the technology and practices of everyday life. *Standards and Their Stories* explores how we interact with the network of standards that shape our lives in ways both obvious and invisible. The main chapters analyze standardization in biomedical research, government bureaucracies, the insurance industry, labor markets, and computer technology, providing detailed accounts of the invention of standard humans for medical testing and life insurance actuarial tables, the imposition of chronological age as a biographical determinant, the accepted means of determining labor productivity, the creation of international standards for the preservation and access of metadata, and the global consequences of ASCII imperialism and the use of English as the lingua franca of the Internet. Accompanying these in-depth critiques are a series of examples that depict an almost infinite variety of standards, from the controversies surrounding the European Union's supposed regulation of banana curvature to the

minimum health requirements for immigrants at Ellis Island, conflicting (and ever-increasing) food portion sizes, and the impact of standardized punishment metrics like Three Strikes laws. The volume begins with a pioneering essay from Susan Leigh Star and Martha Lampland on the nature of standards in everyday life that brings together strands from the several fields represented in the book. In an appendix, the editors provide a guide for teaching courses in this emerging interdisciplinary field, which they term infrastructure studies, making *Standards and Their Stories* ideal for scholars, students, and those curious about why coffins are becoming wider, for instance, or why the Financial Accounting Standards Board refused to classify September 11 as an extraordinary event.

Mental Dr. Steve Ellen, Catherine Deveny, 2021-07-21 Become your own mental health expert Mental illness is too often portrayed with a sense of despair, as if it's a life sentence. Nothing could be further from the truth. Virtually everyone improves with help, and most of the help is relatively easy to access. How do we define mental illness? What does a diagnosis mean? What should you ask your doctor before you begin treatment? Are there alternatives to medication? What does the research show actually works? Practitioner and professor of psychiatry Dr Steve Ellen and popular comedian Catherine Deveny combine

forces to demystify the world of mental health. Sharing their personal experiences of mental illness and an insider perspective on psychiatry, they unpack the current knowledge about conditions and treatments. This updated edition includes a new chapter on coping with the challenges of the covid-19 pandemic, as well as updates on new drugs and therapies. Whether you have a mental illness or support someone who does, *Mental* offers clear practical help, empowering you with an arsenal of tips and techniques to help build your resilience. Dr Steve Ellen is a professor of psychiatry at the University of Melbourne and the Director of Psychosocial Oncology at the Peter MacCallum Cancer Centre. She is the author of eight books, including *Use Your Words*, *The Happiness Show*, *Free to a Good Home*, *Say When* and *It's Not My Fault They Print Them*.

Striker, MD, 2016-10-04 Imagine naturally occurring toxic substances that are responsible for chronic disease and accelerated aging. When trying to discover why patients with diabetes are prone to complications such as heart disease, Dr. Helen Vlassara and her research team focused on compounds called advanced glycation end products, or AGEs, which enter the body through the diet. For years, these amazing studies remained virtually unknown to the public. Now, renowned researchers Dr. Vlassara and Dr. Gary Striker, and best-selling author Sandra Woodruff have written a complete guide to understanding AGEs and avoiding

their harmful effects through the careful selection of foods and cooking techniques. Most important, you'll learn how you can reduce AGEs and improve your health by making simple changes in the way you eat. Part Two offers over a hundred taste-tempting AGE-less recipes that show you just how easy—and delicious—it is to follow an AGE-less diet. By lowering your AGE levels, you can reduce the potential of developing any number of serious disorders and enjoy greater health. Dr. Vlassara's AGE-Less Diet will guide you in making a real difference in your life.

The RealAge (R) Makeover Michael F. Roizen,2004-04-06 Why not live at 60 feeling like you did at 35? Thousands of Americans are younger today than they were five years ago. How is that possible? By following the specific recommendations that reverse aging in Dr. Michael Roizen's bestselling book RealAge®: Are You As Young As You Can Be?, people who were previously much older than their chronological age have now taken up to twentynine years off their biological ages. Since that first publication, more than 10 million people have taken the RealAge® test in one form or another, and thousands of people have thanked Dr. Roizen for helping them make simple changes in their lives -- changes that have made them healthier, younger, and more vibrant. In the last several years, Dr. Roizen and his team have learned much more about the aging process. The RealAge® Makeover makes sense of recent critical medical findings -- mportant new research on inflammation in your arteries, stress reduction, chronic disease management, hormone replacement therapy,

and other choices you can make to keep aging at a distance. You'll also find the latest on vitamins and other supplements, which are age-reducing, which are aging, and which ones to avoid if you are taking certain medications. Roizen then offers more than seventy ways to reduce or even prevent 80 percent of the diseases that make you feel older. For example, coffee or the right kind of chocolate in moderate amounts can help reduce inflammation, preserving your arteries, joints, and memory. But the wrong choice can lead to needless aging and loss of energy, such as taking too much Vitamin A. And The RealAge® Makeover tells you how much (in years) each choice is worth so you can make the choices that are meaningful to you. More potent than any statistic or finding are the personal stories interwoven throughout -- success stories from readers who followed the RealAge program, became biologically younger, and are living happier, healthier lives. With this book, readers have more opportunity than ever to turn back their biological clock to look, feel, and actually be many years younger. Join the RealAge® Revolution and give yourself a RealAge® Makeover!

A Tangled Web John Edward DeToro, 2017-10-03 This story takes place during World War II. It is about pride, bigotry, love, and deceit. It sends Vince Romano, an innocent young man, to prison due to false testimony about a one-night affair with a soldier's wife, Valerie

Farr, who later cries rape to cover the affair. Through the confessional, a priest, brother-in-law to the allegedly raped married woman, learns the truth about the affair. However, by canon law in the Catholic world, he cannot reveal the truth, even under penalty of law. Arnie Swartz, a press reporter, accidentally hears the alleged confession and reveals it during a new trial, creating doubt as to the charge of rape. There is much to do with relationships, family, and others, along with romance, violence, intrigue, and jury tampering. A military adventure results in a strong bond between two men of different cultures, who become entangled in the rape jury trial.
