*A Cognitive-Historical Approach to Creativity* Subrata Dasgupta, 2019-03-20 At the heart of creativity is the practice of bringing something new into existence, whether it be a material object or abstract idea, thereby making history and enriching the creative tradition. A Cognitive Historical Approach to Creativity explores the idea that creativity is both a cognitive phenomenon and a historical process. Blending insights and theories of cognitive science with the skills, mentality and investigative tools of the historian, this book considers diverse issues including: the role of the unconscious in creativity, the creative process, creating history with a new object or idea, and the relationship between creators and consumers. Drawing on a plethora of real-life examples from the eighteenth century through to the present day, and from distinct fields including the arts, literature, science and engineering, Subrata Dasgupta emphasizes historicity as a fundamental feature of creativity. Providing a unified, integrative, interdisciplinary treatment of cognitive history and its application to understanding and explaining creativity in its multiple domains, A Cognitive Historical Approach to Creativity is essential reading for all researchers of creativity.

Utopia(s) - Worlds and Frontiers of the Imaginary Maria do Rosário Monteiro, Mário S. Ming Kong, Maria João Pereira Neto, 2016-11-03 The idea of Utopia springs from a natural desire of transformation, of evolution pertaining to humankind and, therefore, one can find expressions of "utopian" desire in every civilization. Having to do explicitly with human condition, Utopia accompanies closely cultural evolution, almost as a symbiotic organism. Maintaining its roots deeply attached to ancient myths, utopian expression followed, and sometimes preceded cultural transformation. Through the next almost five hundred pages (virtually one for each year since Utopia was published) researchers in the fields of Architecture and Urbanism, Arts and Humanities present the results of their studies within the different areas of expertise under the umbrella of Utopia. Past, present, and future come together in one book. They do not offer their readers any golden key. Many questions will remain unanswered, as they should. The texts presented in Proportion Harmonies and Identities - UTOPIA(S) WORLDS AND FRONTIERS OF THE IMAGINARY were compiled with the intent to establish a platform for the presentation, interaction and dissemination of researches. It aims also to foster the awareness and discussion on the topics of Harmony and Proportion with a focus on different utopian visions and readings relevant to the arts, sciences and humanities and their importance and benefits for the community at large.
