The Digital Double Bind Mohamed Zayani, Joe F. Khalil, 2024-01-16 The Middle East's digital turn has renewed hopes of socio-economic development and political change across the region, but it is also marked by stark contradictions and historical tensions. In this book, Mohamed Zayani and Joe F. Khalil contend that the region is caught in a digital double bind in which the same conditions that drive the state, market, and public immersion in the digital also inhibit change and perpetuate stasis. The Digital Double Bind offers a path-breaking analysis of how the Middle East negotiates its relation to the digital and provides a roadmap for a critical engagement with technology and change in the Global South.

Shaping the Current Islamic Reformation B.A. Roberson, 2004-08-02 The essays that comprise this study eschew stereotypical representations of a politicized Islam in the Mediterranean Region. The contributors consider the reality that lies behind current issues in the area and the role that an embedded Islam has played or may play in the region.

A Global Idea Mayssoun Sukarieh, 2023-08-15 A Global Idea outlines how youth—as shown by the Arab Spring uprisings and subsequent state responses—became a prominent social and political category during the first two decades of the twenty-first century in the Middle East. Drawing on ethnographic fieldwork, interview data, and textual analysis, Mayssoun Sukarieh explains that the spread of youth as an important category is linked to the operation of a global youth development complex, a diverse transnational network of state, private sector, civil society, and international development aid organizations that worked through key urban areas such as Washington, DC, Amman, and Dubai. In its analysis of the arrival, extension, and embedding of the youth development complex in the Middle East during this period, A Global Idea addresses a broader question that is of global and not just regional concern. How are certain ideas that are central to the working and reproduction of global capitalism able to travel the world so that they are found virtually everywhere?

The Making of Foreign Policy in Iraq Zana Gulmohamad, 2021-01-14 How is foreign policy made in Iraq? Based on dozens of interviews with senior officials and politicians, this book provides a clear analysis of the development of domestic Iraqi politics since 2003. Zana Gulmohamad explains how the federal government of Iraq and Kurdistan Regional Government (KRG) have functioned and worked together since toppling Saddam to reveal in granular detail the complexity of their foreign policy making. The book shows that the ruling elites and political factions in Baghdad and in the capital of the Kurdistan Region, Erbil, create foreign policies according to their agendas. The formulation and implementation of the two governments' foreign policies is to a great extent uncoordinated. Yet Zana Gulmohamad places this incoherent model of foreign policy making in the context of the country's fragmented political and social context and explains how Iraq's neighbouring countries - Iran, Turkey, Saudi Arabia and Syria before the civil war - have each influenced its internal affairs. The book is the first study dedicated to the contemporary dynamics of the Iraqi state - outside the usual focus on the “great powers” - and it explains exactly how Iraqi foreign policy is managed alongside the country's economic and security interests.

The Politics of Love Rebecca Joubin, 2013-10-03 Dramatic miniseries are the primary arena for the expression of postcolonial Syrian culture and artistic talent, an arena that unites diverse aspects of artisanship in a struggle over visions of the past, present, and future of the nation. As the tour de force of the television medium, blossoming amidst persisting authoritarianism, these miniseries serve as a crucial and complex artistic avenue through which political and social opposition manifests. Scholars have tried to come to terms with a highly critical culture produced within attempted state co-optation, and argue that politically critical culture operates as a “safety valve” to release frustrations so that dissenters are less likely to mobilize against the government. Through research fueled by a viewing of over two hundred and fifty miniseries ranging from the 1960s to the present—as well as an examination of hundreds of press reports, Facebook pages, and extensive interviews with drama creators—this book turns

away from the dominant paradigm that focuses on regime intent. When turning attention instead to the drama creators themselves we witness the polyphony of voices employing love and marriage metaphors and gender (de)constructions to explore larger issues of nationalism, self-identity, and political critique. At the heart of constructions of femininity are the complications that arise with the symbiosis of pure femininity with authentic national identity. Deconstructing masculinity as political critique has been less complicated since it is not implicated in Western identity issues; on the contrary, illustrations of subservient masculinity serve to subtly denounce government corruption and oppression. Miniseries from the 1960s demonstrate that the focus of the qabaday (tough man) on female sexuality comes from his own political alienation vis-à-vis the state, and is part of a vicious cycle of state violence vis-à-vis the citizen. In recent years, and in particular after the uprising, we can see the emerging definition of the true qabaday as one who does not suppress a woman's sexuality, thereby allowing for full equality in relationships as the basis of a truly free society.

Music in the Social and Behavioral Sciences William Forde Thompson, 2014-07-18 This first definitive reference resource to take a broad interdisciplinary approach to the nexus between music and the social and behavioral sciences examines how music affects human beings and their interactions in and with the world. Fundamentalism in the Modern World Vol 1 Ulrika Martensson, Jennifer Bailey, Priscilla Ringrose, Asbjorn Dyrendal, 2001-11-22 How does religious fundamentalism operate in modern global society? This two-volume series analyses the dynamics of fundamentalism and its relationship to the modern state, the public sphere and globalisation. In this first volume, fundamentalism is approached from the perspective of state and community building, ideology and practices within the context of global society, and the ways in which fundamentalism is intertwined with issues of politics, state power, democracy, globalization, political activism and political ideology. Expert scholars in the field address specific contemporary and past fundamentalist movements that have emerged from within mainstream Islam, Christianity, Baha'ism, Hinduism, Judaism and Buddhism. This is an important study of an increasingly significant and controversial aspect of modern society, and will be essential reading in the fields of Religion,

Politics and International Relations.

A Political Economy of Free Zones in Gulf Arab States Robert Mogielnicki, 2021-04-13 This is the first book-length empirical study of free zones (FZs) in Gulf Cooperation Council (GCC) countries. The volume systematically illustrates the development processes behind FZs in Gulf Arab states and assesses the impact of these commercial entities on regional integration, global trade and investment trends, and the Gulf's foreign relations. In the process, the work maps how economic strategies involving FZs evolve alongside varying levels of resource availability and state capacity on a local level while also revealing how development paths in Gulf Arab states are linked to regional and global accumulation circuits. FZ development is an under-examined topic in the wider literature on the Gulf. The empirical findings and theoretical implications of the work therefore offer an original contribution to prevailing political economy discussions concerning the Gulf region.

Rethinking Salafism Raihan Ismail, 2021-10-01 Salafism has received scrutiny as the one of the main ideological sources for extremist violence perpetrated by jihadi groups. There is a significant corpus of literature discussing transnational jihadi networks, especially after the 9/11 attacks in the United States. These discussions include the radicalization of Salafi thought by jihadi theoreticians and 'ulama. However, Salafism is not monolithic. It contains numerous streams, and an examination of these streams is crucial to understanding its influence on Muslim societies. Besides Salafi jihadists those who sanction violence there are two other broad trends in Salafism: quietist and activist. Quietist Salafis endorse an apolitical tradition and find political activism in any form unacceptable. Activist Salafis advocate peaceful political change. Each stream is led by 'ulama, seen as the preservers of Salafi traditions. The quietist and activist 'ulama are active participants in their communities. Studies of such clerics have tended to be country-specific, focusing on the influence and nature of Salafism and its dynamics in those countries. In *Rethinking Salafism* Raihan Ismail assesses the origins, interactions, and dynamics of the transnational networks of Salafi 'ulama in the region comprising Saudi Arabia, Egypt, and Kuwait, showing how quietist and activist 'ulama work across borders to preserve and promote what they see as authentic Salafism while taking domestic circumstances of the 'ulama into consideration. The book offers a reassessment of the quietist/activist dichotomy, arguing that this dichotomy does not apply to such aspects of Salafi thought as attitudes towards the Shi'a and social matters in Muslim societies.

Global Citizenship and Its Impact on Multiculturalism in the Workplace Diab-Bahman, Randa, Al-Enzi, Abrar, 2023-10-16 The fast

economic, social, and political changes that characterize today's world have created much uncertainty not only in countries but also in companies and public sector organizations. Such uncertainty has created the notion of "Global Citizenship," which entails a multicultural view of the workplace. Given the ongoing effects of the COVID-19 pandemic, managers continue to struggle with finding optimal approaches to managing their employees. The pandemic continues to present new challenges to the workplace and challenge our understanding of the concept of diversity and multiculturalism. *Global Citizenship and Its Impact on Multiculturalism in the Workplace* illuminates theories and practices as they continue to evolve and broadens conventional perspectives in accordance with the changing times. It focuses on the expansion of the notion of diversity, particularly in a post-pandemic context, and what that entails for different stakeholders. Covering topics such as benefits management, educational diversity, and a multi-generational workforce, this premier reference source is an indispensable resource for business executives and leaders, entrepreneurs, human resource managers, government officials, non-profit organizations, educational administrators, librarians, researchers, and academicians.

Russia and the GCC Diana Galeeva, 2022-12-29 In recent decades Russia has played an increasingly active role in the Middle East as states within the region continue to diversify their relations with major external powers. Yet the role of specific Russian regions, especially those that share an 'Islamic identity' with the GCC has been overlooked. In this book Diana Galeeva examines the relations between the Gulf States and Russia from the Soviet era to the present day. Using the Republic of Tatarstan, one of Russia's Muslim polities as a case study, Galeeva demonstrates the emergence of relations between modern Tatarstan and the GCC States, evolving from concerns with economic survival to a rising paradiplomacy reliant on shared Islamic identities. Having conducted fieldwork in the Muslim Republics of Tatarstan, Bashkortostan and Dagestan, the book includes interviews with high-ranking political figures, heads of religious organisations and academics. Moving beyond solely economic and geopolitical considerations, the research in this book sheds light on the increasingly important role that culture and shared Islamic identity play in paradiplomacy efforts.

Digital World War Haroon K. Ullah, 2017-01-01 Over de invloed van het gebruik van social media op de machtsverhoudingen in de moslimwereld en het gebruik van social media en cybercriminaliteit in moslimextremistische kringen

Reassessing Order and Disorder in the Middle East Robert Mason, 2017-02-09 Case studies help identify the emerging trends and influences

that dominate the political decision making and policy behavior of many states in the Middle East. The chapters investigate foreign policy challenges and debates in various states, changing relations and balance of power between them, and the continuing role of the US in the region.

In the Eye of the Storm Mitri Raheb, 2023-06-23 The situation of Christians in the Middle East has become an important topic of international discussion as well as an important theme covered in the media, as several CBS Sixty Minutes programs have highlighted the plight of Christians in Palestine, Syria, Jordan, Lebanon, and Egypt. In the Eye of the Storm tells the story of the plight of twenty-first-century Middle Eastern Christians in five countries (Palestine, Israel, Jordan, Lebanon, and Egypt) in the context of the so-called Arab Spring and within a destabilized region that is a geopolitical triangle shaped by Israeli hegemony and Arab-Iranian tensions. The book places the situation of the Christians within the wider sociopolitical context of the Middle East in the twenty-first century. A unique feature of this book is that it is written mainly by native Christians who have spent their entire lives in the region and continue to live there. In the Eye of the Storm, therefore, provides an insider perspective rather than a hegemonic and colonial outsider perspective. This book hopes to offer a sociopolitical framework for the Christians of the Middle East, thus allowing them to tell their own story as they see it and not one that has been projected onto them by outside forces.
