All You Need to Know About the Music Business Donald S. Passman,2023-10-24 Dubbed "the industry bible" by the Los Angeles Times, All You Need to Know About the Music Business by veteran music lawyer Donald Passman is the go-to guide for everyone in the music business through ten editions, over thirty years, and over a half a million copies sold. Now with updates explaining why musicians have more power today than ever in history; discussion of the mega-million-dollar sales of artists' songs and record catalogs; how artist access to streaming media, and particularly TikTok, has completely reshaped the music business; the latest on music created by AI; and a full update of the latest numbers and trends. For more than thirty years, All You Need to Know About the Music Business has been universally regarded as the definitive guide to the music industry. Now in its eleventh edition, Passman leads novices and experts alike through what has been the most profound change in the music business since the days of wax cylinders and piano rolls: streaming. For the first time in history, music is no longer monetized by selling something—it's monetized by how many times a listener streams a song. And also, for the first time, artists can get their music to listeners without a record company gatekeeper, creating a new democracy for music. The "industry bible" (Los Angeles Times), now updated, is essential for anyone in the music business—musicians, songwriters, lawyers, agents, promoters, publishers, executives, and managers—and the definitive guide for anyone who wants to be in the business. So, whether you are—or aspire to be—in the music industry, veteran music lawyer Passman's comprehensive guide is an indispensable tool. He offers timely information about the latest trends, including the reasons why artists have more clout than ever in history, the massive influence of TikTok, the mega million dollar sales of artists' songs and record catalogs, music in Web3 and the Metaverse, music created by AI, and a full update of the latest numbers and practices.

Music Industry Management Verena Stickler,2011-09 Research Paper (undergraduate) from the year 2008 in the subject Communications - Broadcast and entertainment, grade: 1,6, London Metropolitan University (London Metropolitan University), language: English, abstract: Britney Spears is an American pop music singer, songwriter, dancer, actress and author. She has sold over 83 million records worldwide and is the only female in music history to have had her first four albums debut at No. 1. Britney's extremely successful career took off in the late 90's and was targeted at a teenage audience, with emphasis put on her projected image. Her at times controversial music videos and live performances have contributed to her success immensely as have product endorsements and merchandising. Britney, who was discovered by Larry Rudolph in 1995, was created and supported by a strong management team. Ever since splitting from long time manager Rudolph in 2004, Britney's management has changed constantly with even her being her own manager at one point. Combined with her current personal struggles this is having a rather negative impact on her career, with her image suffering greatly under these circumstances. Although sales for her newest album Blackout have been doing well, critics tend to credit the producers rather than Britney herself. Other critics question as to whether the album, which is predominantly perceived as good, is enough to maintain her successful

career. Taking all these current factors into consideration, it is advisable to contract a strong and stable management team for Britney who will step in to save her flagging career and simultaneously help her regain her high public profile.

The Global Manager's Guide to Cultural Literacy Christine Uber Grosse,2019-04-29 Global managers need to communicate and connect with many different cultures. The new language of business is cultural literacy, which encompasses basic knowledge of business language, culture and the local economy. This book provides a general overview and specific examples of cultural literacy. It will provide managers with a basic understanding of the business language, culture and economy of seven countries in the G-20, including Brazil, Mexico and the US in the Americas, China and South Korea in Asia, and France and Germany in Europe. For global managers, knowing even the basics about a country's culture, language and economy is invaluable for making connections, doing business, and communicating across cultures. Clearly managers do not have time to learn the language of every country they visit. However, they can invest time to develop basic cultural literacy of the countries to which they travel. Cultural literacy gives them a baseline of knowledge to connect with customers, suppliers and co-workers, and shows respect for people and their culture. It also helps businesspeople find common ground on which to build business relationships. This volume offers business students and managers a quick introduction to language basics and cultural knowledge, and familiarity with the business environment of seven countries. In addition, it provides a template for developing basic business language literacy, and building business connections with people from other countries.

John Butler, Vice President of Promotion at Curb, believes that Marcone and Philp take on our ever-changing business with a fresh and complete approach.
