**Albert Bonnier och hans tid** Per T. Ohlsson,2020-09-17 1835 anlände en knappt femtonårig judisk bokhandlanson från Köpenhamn till Stockholm. Två år senare gav han ut sin första bok. Under Alberts tid drog förändringens vindar fram över landet: tekniskt, politiskt, socialt, ekonomiskt – och litterärt. När han avled år 1900 var han den främste förläggaren av svensk skönlitteratur. Han nådde denna position trots en grasserande antisemitism. 2020 är det 200 år sedan Albert Bonnier föddes. Det här är berättelsen om Sveriges första moderna förläggare, ständigt vägled av den publicistiska princip som han gjort till sin: sprida, icke döma. Boken är rikt illustrerad och vackert formgiven av prisbelönta formgivaren Nina Ulmaja.

**Make Enemies & Gain Fans** Fredrik Öst,Snask,Magnus Berg,2012 Snask is a branding, design and film agency based in the heart of Stockholm. They are young, successful, bold, edgy and self-confident. They challenge the design industry by doing things differently. And that inspires and attracts, because if you combine young, successful,

bold, edgy and self-confident, you get something people like or even want to become themselves. Snask has been around for 5 years and is the perfect example of a new breed in the design world. Their international fame was built via blogs and by delivering entertaining keynotes at international conferences. Now they share how they think, talk, lie, kiss and tell. You will learn how to pee on yourself or tell pink lies and find out why making enemies is a good thing. Reading a design book has never been more fun and creative entrepreneurship has never been as inspiring as doing it the Snask way!

**Museum Marketization** Karin M. Ekström, 2019-12-06 This wide-ranging book explores the impact of marketization on the creative industries. With critical perspectives from a variety of disciplines and global experts, numerous examples from international cultural institutions are employed to illuminate the topic. Culture and business have become increasingly intertwined, and cultural institutions need to be aware of their place in the market. Commercial awareness, which was previously disparaged, is now seen as a legitimate and necessary response to increased competition, enhancing experience, increasing accessibility, broadening inclusivity and sustainable futures with diminishing funding. The contributions to this book highlight that marketing, public relations, sponsorship and fundraising have become integral to the survival of many museums, galleries and events. Of interest to students and scholars across topics such as arts marketing, arts administration, heritage marketing and museum studies, the book is also insightful for reflective practitioners in the creative sector.

National Brands and Global Markets Nikolas Glover, David M. Higgins, 2023-02-02 Between Brexit, efforts to 'Make America great again', and ongoing appeals for patriotic consumption to boost economies, the intersection between national identity, marketing campaigns, and consumer choices has been brought to the fore. This book maps out this terrain and provides a framework for how research on 'Made in' campaigns and programmes in individual countries can be placed into a broader historical context. The book argues that the history of 'Made in' can be used to shed light on society at large: the actors that have promoted it, the institutions that have regulated it, and the cultural environments that have attributed it meaning. At times 'Made in' has been a basic, descriptive trade mark, while, in other periods, it has been a key component of carefully developed commercial brands, and in yet other instances it has been used in attempts to forge and redefine national identities. The book opens with an introduction to the three key factors which have featured prominently in 'Made in' campaigns – commercial logic, national economic policy, and its use as an instrument in political discourse, and it provides an overview of the evolution of 'Made in' from a marketing perspective. This is followed by country-specific discussions of 'Made in' with case studies including countries in Western Europe, the US, Japan, and the antipodes. This book will be of significant interest to students and scholars of economic history, business history, and marketing. Chapter 7 of this book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com).
