**Untold Stories** Alan Bennett, 2008-09-04 Alan Bennett's first collection of

prose since Writing Home takes in all his major writings over the last ten years. The title piece is a poignant family memoir with an account of the marriage of his parents, the lives and deaths of his aunts and the uncovering of a long-held family secret. Bennett, as always, is both amusing and poignant, whether he's discussing his modest childhood or his work with the likes of Maggie Smith, Thora Hird and John Gielgud. Also included are his much celebrated diaries for the years 1996 to 2004. At times heartrending and at others extremely funny, Untold Stories is a matchless and unforgettable anthology. Since the success of Beyond the Fringe in the 1960s Alan Bennett has delighted audiences worldwide with his gentle humour and wry observations about life. His many works include Forty Years On, The Lady in the Van, Talking Heads, A Question of Attribution and The Madness of King George. The History Boys opened to great acclaim at the National in 2004, and is winner of the Evening Standard Award, the South Bank Award and the Critics' Circle Award for Best New Play. 'Perhaps the best loved of English writers alive today.' Sunday Telegraph Untold Stories is published jointly with Profile Books.

**Intelligent Retail** Gerrit Heinemann,2022-10-13 This book shows stationary retail a way to reinvent itself after Corona, in order to be able to survive against the strong competition of online retail. The focus is on the central issues that will shape the retail of the future. For example, brick-and-

mortar retail in particular must now work with intelligent systems based on data and adopt or even surpass methods that the large online marketplaces have been using successfully for a very long time. In this regard, artificial intelligence also plays a major role in retail. This is not just about automation and robots taking over tasks, but also about instruments and machines being able to learn and draw conclusions themselves in all retail functions. This is becoming increasingly difficult because our shopping and search behavior is constantly changing. Therefore, a customer should receive intelligent recommendations in the store, which are also based on his already known interests and behavior patterns. Gerrit Heinemann shows how intelligent action can save stationary retail in city centres and shopping centres. The content - From stationary Retail to intelligent Retail - Threats to the stationary retail trade - Basic requirements and manifestations of intelligent Retail - Examples of intelligent retail of the future - Risks for intelligent Retail

**Trigger Yappy** Diana Orgain,2020-09-01 Although still not quite a dog lover, Maggie Patterson meets with her new group of dog-loving friends for "Yappy Hour" every Friday night in the sleepy seaside town of Pacific Cove, CA. Both she and her sister Rachel have put the past murderous summer behind them, with Rachel even securing a headline feature for the Wine & Bark in the famous Doggie Day magazine. But when her sister comes down with a case of salmonella poisoning, Maggie is left to run the business in her absence. Even worse, Maggie overhears an argument between her friend Yolanda and Bonnie, who runs the Chic Chickie shop. Then poor Bonnie turns up dead. With evidence piling up against Yolanda, the Roundup Crew is desperate to find the real killer and convince Maggie to investigate. With the help of charming detective Officer Brad Brooks, Maggie finds that everyone has a motive, even some of her beloved Roundup Crew friends. Maggie must put her new job as a purser on hold while she tracks down a murderer. Will Maggie's investigation kill her budding romance with Officer Brooks? Sometimes getting to the truth

is not for the faint of bark...er...heart. Between running the bar, managing her love life, and solving a murder in time for the editorial spread, things are about to get a little hairy in this laugh-out-loud cozy mystery.

**The new online trade** Gerrit Heinemann, 2023-03-30 This book presents developments and future trends in e-commerce, which is shaped by customers' new digital communication and consumption patterns. Gerrit Heinemann sheds light on e-commerce business models, channel excellence as well as success factors such as digital time advantages and customer centricity. He analyzes the digital challenges and highlights the consequences and opportunities associated with online commerce. Recognized best practices illustrate how successful digital commerce works and what the lessons learned of the past years are. The 13th edition describes which new approaches will shape the future of online retail and which developments will remain long-term issues. While, for example, app and smartphone commerce, including mobile payment, continue to be long-running issues, the environmental issue is coming at online commerce with a concentrated charge. This means that people's growing need for more sustainability and consideration for the environment has now also arrived in e-commerce. This work is therefore devoted to sustainable e-commerce in the context of online logistics, which runs counter to the new trend towards quick commerce. The topics of climate neutrality and returns management are also increasingly coming into focus. In addition, current topics such as the marketplace theme and social commerce will be explored in

greater depth. Furthermore, numerous new legal requirements are taken into account, which place increased obligations on marketplace operators in particular. The content - Meta-targeting and business ideas in online retailing - Business model of online trade - Forms of online trade - Business systems and benchmarks in e-commerce - Best practices and risks in online retailing
