

# Ark Lite

United States. Federal Power Commission

Arc Light Eric Harry,2013-01-22 In a scenario terrifyingly close to today's headlines, Harry's debut novel opens with a North Korean invasion of South Korea that leads, through a series of tragic errors and decisions, to a Russian nuclear attack on military bases in the U.S. Like techno-thriller master Tom Clancy, Harry offers a sprawling narrative that focuses on a small army of soldiers, politicians and their families, American and Russian. National Security Advisor Greg Lambert must keep and tell secrets that may lead to Armageddon; Reservist David Chandler must leave his pregnant wife in order to drive a tank; U.S. President Walter Livingston, eager for peace, must endure the ignominy of impeachment; Russian General Yuri Razov must deal with the consequences of his initial decision to launch nuclear missiles. Ground, air and submarine battles alternate with scenes of anarchy stateside as exhausted leaders are forced to make instant decisions that might snuff out humanity forever. With a masterful grasp of military strategy and geopolitics, Harry moves his characters through nightmares of blood and death; his intricately detailed scenes of nuclear devastation are particularly horrifying. Told through a series of rapid-fire climaxes, this novel, a political and military cautionary tale of considerable power and conviction, will keep readers riveted. —Publishers Weekly

**A River Called Time** Courttia Newland,2021-04-06 A monumental speculative fiction story of love, loyalty, politics, and conscience, set in parallel Londons. \* Short-listed for the Arthur C. Clarke Award Newland...imagines a world where colonialism never happened at all...It's speculative fiction that genuinely made me speculate. --Wired A dystopian multiverse imagined at thrilling scale...Extraordinary...The excitement lies largely in its ideas about power and personal responsibility. --Times Literary Supplement Newland has produced a text that piques and provokes, providing a guidebook to worlds both uncomfortably familiar and radically new. --Strange Horizons An immersive speculative novel set in a dystopian city that's facing an uprising. --Foreword Reviews, a Book of the Day selection What would London be like if the UK had not colonized half the world? That's the question that drives Courttia Newland's A River Called Time. When young Markriss has the opportunity to move into the Ark--a massive structure that promises a utopian existence for the invited--he takes it, only to find that the world of his dreams isn't as idyllic as he was promised. --Bustle Part sci-fi, fantasy, and Afro-futurism but not squarely one or the other, A River Called Time transports the reader into a London undone by time, a London of possibility and, necessarily, of new villains. --Public Books No one can doubt the sheer energy and verve of Newland's vision. --The Guardian (UK), Book of the Day selection This mystical coming-of-age tale...is sure to please fans of thought-provoking speculative fiction. --Publishers Weekly This is an ambitiously imagined book that, by removing the European lens on African cultures, creates a new reality that allows us to question how we view our own. Complex and multilayered, this novel opens the door to the possibilities of noncolonial worlds. --Kirkus Reviews A River Called Time is ambitious, sprawling, unpredictable and fascinating...A relentlessly imaginative novel about a world where colonialism and slavery never occurred and yet brutal inequality persists. --Shelf Awareness Courttia Newland is a formidable writer...And his latest work, A River Called Time, is an extraordinary piece of speculative fiction...Newland offers a brilliant remix of history...This may be a work of speculative fiction but its critical lens is present and prescient. --Financial Times, reviewed by Imani Perry The Ark was built to save the lives of the many, but rapidly became a refuge for the elite, the entrance closed without warning. Years after the Ark was cut off from the world--a world much like our own, but in which slavery has never existed--a chance of survival within the Ark's confines is granted to a select few who can prove their worth. Among their number is Markriss Denny, whose path to future excellence is marred only by a closely guarded secret: without warning, his spirit leaves his body, allowing him to see and experience a world far beyond his physical limitations. Once inside the Ark, Denny learns of another with the same power, whose existence could spell catastrophe for humanity. He is forced into a desperate race to understand his abilities, and in doing so uncovers the truth about the Ark, himself, and the people he thought he once knew.

**The First Ark** Chris Fox,2014-12-24 There is a voice in my head, slithering through my mind like a serpent. It whispers dark things. Tells me to feed. -Osiris, Egyptian Lord of the Underworld. Were the Egyptian gods fanciful imaginings of primitive people, or something more? Some believe that they once walked the earth as mortals, that they warred and loved just as any of their worshippers. This is their story, the tale of how Isis gained the power of shaping. How mighty Osiris died and lived again. How they discovered the fabled First Ark, a structure older than man. It is the tale of us all, the story that shaped our race from cave dwellers into the people we are today. Are these fanciful tales? Or long lost truth wrapped in myth? Only time knows. It's like Clan of the Cave Bear ran right into The Walking Dead. - The author's totally biased friend. The Deathless Saga Book 0: The First Ark Book 1: No Such Thing As Werewolves Book 2: No Mere Zombie Book 3: Vampires Don't Sparkle (October 2015)
