*Armed Action* James Newton, DFC,2007-06-09 'I couldn't see the tank. I couldn't see it... Someone was screaming over the radio. Scream all you want, I still can't see it, I said to my pilot. The next explosion was so close it lifted my chest armour off my body in the shock wave. The noise brought me back to my awful reality. I looked out of the sight to see the shattered cockpit glass. The next one would be it and we knew it.' Lieutenant Commander James Newton survived and was awarded the Distinguished Flying Cross for his bravery. In a career that has seen him on operations over Bosnia, Sierra Leone, Northern Ireland and most recently Iraq, Newton is no stranger to being shot at. He has flown all the aircraft the Navy has and even ones it doesn't. Thrilling, fast-paced and an adrenaline-fuelled adventure, *Armed Action* is a fascinating insight into life in the air.

**Small Arms, Crime and Conflict** Owen Greene,Nic Marsh,2013-07-03 This book focuses on the use of small arms in violence and attempts by the state to govern the use and acquisition of these weapons. It is likely that hundreds of thousands of people are killed every year as a result of armed violence – in contexts ranging from war zones to domestic violence. This edited volume examines why these deaths occur, the role of guns and other weapons, and how governance can be used to reduce and prevent those deaths. Drawing on a variety of disciplines, ranging from anthropology through economics to peace and security studies, the book's main concern throughout is that of human security – the causes and means of prevention of armed violence. The first part of the book concerns warfare, the second armed violence and crime, and the last governance of arms and their (mis)-use. The concluding chapter builds on the contributors' key findings and suggests priorities for future research, with the aim of forming a coherent narrative which examines what we know, why armed violence occurs, and what can be done to reduce it. This book will be of much interest to students of small arms, security studies, global governance, peace and conflict studies, and IR.

*Shark Assault* Peter Jennings,Nicole Moore,2015-11-28 The story of a brutal shark attack that cost a woman her arm and much of her leg, and her death-defying recovery. One of the most dreadful experiences humans fear is a shark attack. This horrifying agony is exactly what happened to Nicole Moore, a nurse from Orangeville, Ontario. It was an assault all the more brutal for being so unlikely – she was standing in waist-deep water at a Mexican resort. She came very close to dying, losing 60 percent of her blood from deep bites on her arm and leg, and was rushed to a hospital where she received a questionable level of medical care that left her and her family confronting physical and mental anguish. Surviving gruesome misery, including the amputation of her left arm and attempts to rebuild her disfigured leg, she has fought on to become a source of inspiration for those facing seemingly insurmountable challenges.
