Discover in detail the 12 crucial dos and don'ts to car buying from a seasoned insider. This comprehensive, tell-all car buying guide holds nothing back! reviews Hanford Sentinel Commentary: You and the Law: Shopping for a new car? Now a retired car salesman, Lopez has written *Inside the Minds of Car Dealers*, a book which You and the Law absolutely recommends that anyone in the market for a new car reads before stepping onto a dealer's lot. We were impressed by his honesty, desire to educate and protect the public, along with a terrific sense of humor, making this not only a practical, money-saving book, but also an entertaining read. 'Just how practical is the book? Beyond interesting, will it save me money?' you might be thinking. One of his tips was responsible for a You and the Law staff member saving close to \$4,000 on a new car, while another answered the question, 'Do I trade-in or sell privately?'... ABC's 20/20 -you can watch it the May 9 segment here. Congrats to Five Star Publications author Ray Lopez - who gave guidance to car shoppers on ABC World News with Diane Sawyer in the broadcast that aired on 11/16/2011. Video: Used Car Tactics: Former Salesman Speaks Out How do you get a car that's safe, yet something for a great deal? USA Today quotes Ray Lopez, Five Star Publications' author of Inside the Minds of Car Dealers as saying buyers of the priciest luxury cars want to have all that's available. But for more mainstream cars, expensive safety features are a very hard sell. Read the article & Ray's book to shop smarter for your next car. USA Today Next time I step onto a dealer's lot, I'm going armed with insider information. Inside the Minds of Car Dealers is a new book written by Ray Lopez, a former car salesman with thirty years of experience in numerous dealerships. Inside the Minds of Car Dealers is, as the title suggests, a 118-page insight into the mind of a car salesman, and contains engagingly-written explanations of what goes on behind the curtain at a car dealer, so to speak. Inside the Minds of Car Dealers offers tips on how to find a good dealer before you even leave the house, explains the head games salesmen play and how they can spot a so-called auto expert a mile away-and take him or her for even more money than they will the average consumer. Reading Inside the Minds of Car Dealers, I saw exactly what was going on when I bought my Miata...and my Saab...and my Escort. This book explained what the dealer was doing in each case-and how I was getting taken for every last cent each time!

Lopez'' writing style is a bit heavy-handed at times, but the information contained in this volume is vital, valuable stuff that''ll make your next car buying experience a great deal less stressful. It''s \$15.95 well spent. Christopher Jackson Elepent Automotive Reviews What makes someone sell you a clunker? Inside the minds of Car Dealers: How to Buy Your Next Car without Fear is a guide for readers who seek a psychological edge in dealing with the shifty con artists who go by the more politically correct title of car dealers. Written by a man who has played the devil, he offers much in the way of trying to decipher the thoughts on both sides of the deal and does well in arming his readers in how to get the best deal they can and avoid the toxic ones. Inside the Minds of Car Dealers is a must for anyone considering purchasing a new vehicle in the near future. Midwest Book Review Library Bookwatch December 2009 5 out of 5 stars A PROFESSIONAL, INFORMATIVE AND USEFUL GUIDE! In 2003, I walked into a Chevrolet showroom to purchase a new car for my daughter. As I look back now, I remember being there from opening to closing. After signing the contract and going through with the deal, I realized that I wasn''t prepared, and I could have saved a lot of money. Since that sale, I''ve read many books and did some research on how to buy a new car, or used car, and what we should know about trading in your car. In comparison to THE CAR BUYER''S BIBLE, HOW TO BUY A CAR, and BUYING A CAR FOR DUMMIES, I found INSIDE THE MINDS OF CAR DEALERS to be the most informative guide on this subject. If you want expert advice on buying a car, then it

would be logical to obtain information from someone who spent thirty years as a car salesman, who served an estimated 2,800 customers per year. Ray Lopez worked for many top-notch leading dealerships such as Chrysler, Cadillac, and Nissan. Through the experience of his thirty year career, knowledge, and expertise, the author can educate the public on how to be a wise car buyer. I highly recommend this book to anyone who is contemplating on buying a car, or trading in your used car. The author provides excellent information that is extremely helpful in purchasing a car, or trading one in. This book is easy to read and understand, many tips are provided on how to obtain the best deal, and many crucial factors are included as to what to do, and what not to do. Did you ever go to a showroom, and buy a car that you didn't want? Were you ever told by a salesman that you can afford to buy their car? Were you ever disrespected, or mistreated by a car salesman? Were you ever lured into a factory discount? Ever gone for a test drive, but told you can't drive it off the lot due to insurance liability? Ray Lopez can answer these questions and many more, while showing you every trick of the trade that can be used against you, through manipulative schemes. The author reveals the biggest secrets in the car buying industry in this unique, professionally written, informative guide. **INSIDE THE MINDS OF CAR DEALERS** is something you may want to read again-and-again, before walking into that showroom as a potential buyer. You will indeed be prepared, and informed on how to become a composed car buyer. Ray Lopez encourages you to do research, includes resources of

what to be aware of, and how to detect signs of being taken advantage of. By Geraldine Ahearn Author Geri Ahearn October 5, 2009 (Phoenix, AZ) 5.0 out of 5 stars Very Impressive Amazon Verified Purchase. I bought the book because I wanted to find out the right way to buy a car. I'm going to be ready for a new one in a few months. So I might as well start now on learning all I can about car salesmen. I can't trust them. My goal was to buy one, read it, then buy another, and so on, as long as they had high recommendations and were reasonably priced. I figured I'd spend about \$75 on 5 books. By then I could probably learn everything about how they always end up screwing you. And if it cost me \$75 but saved me \$1000 or more, it would be a worthwhile investment. I saw this book and I liked the title so I thought, why not? I'll take a chance. I'm really glad I did. Inside The Minds Of Car Dealers has everything you'll ever need to know on how to get a really good deal. There was stuff in it that I never even dreamed of that goes at the dealership. And it's not just with the salesman. It's with the sales manager, the way the showroom is laid out and even the dealership's ads for salesmen! Who would've ever thought to start researching there first? But it does make sense. This book explains why you never want to go on the lot with an attitude like you know how to deal. I just found out why my friend ended up paying more for his Focus than I did a couple years ago. We bought ours a few days apart. He told them he knew the exact price they paid for the car and he wouldn't pay anything over that. He ended up paying \$1378 more than

me. And the reason is in this book. Too bad for him the book wasn't available back then. There's so much great information in it and it's so easy to read too. None of the sales lingo. Just plain English. And it uncovers even more than you'd ever expect. I'm going to read it a few more times before I get my new car. And I recommend to everyone to buy *Inside The Minds Of Car Dealers*. It will save you money and a lot of time. And like the title says, you can Buy Your Next Car Without Fear. Dream Garages Kris Palmer, 2012-09-15 DIVA garage is a special place—not home, not office, not rec room. It may combine elements of all of these, yet it remains unique. Dreams are born, housed, revived, and realized within the walls and beneath the rafters of an enthusiast's garage. It is a haven from

life's broader concerns, where work is not really work, and virtually anything seems possible. Dream Garages explores this hallowed space, taking the reader into 21 motorhead havens, where automotive and motorcycle enthusiasts store and work on the objects of their passion. Some of the structures are expansive, some more modest; some are working garages, others near spotless showcases of pristine machines and automotive art work and memorabilia. Pervading all of them is a love of the motor vehicle and an appreciation for the structure that allows us to harbor and revive them. Here readers will find enthusiasts who collect, preserve, and work on sports cars, race cars, motorcycles, trucks, speed record vehicles and related machinery, and treasures. Revered names like Ferrari, Corvette, Road Runner, Cobra, and Jaguar dwell in these special spaces. Dream Garages is not a manual on building a great garage; it's a look at the ideas and passions that can make any garage great. Dream Garages is the Architectural Digest for those whose veins run with gasoline./div

How Are Cars Made and Sold? Bridey Heing, 2019-12-15 In our globalized world, cars and car parts are sourced, made, and shipped to and from all over the Earth. Help readers explore the intricate process of manufacturing components, putting them all together, and delivering finished cars. This book highlights the fascinating technologies of robotics and logistics such as the use of giant ships for transport. The book also describes how cars are

marketed and sold, underscoring the idea that industries must shift and evolve to survive.

Car People Richard Merrill Dalton, Jr., 2001 We are overstocked and that is our problem, but it can be good for you as prices have never been lower says the nice man in the television ad. Or It is Tax time and we have to get rid of 100 cars this week before the tax man comes. The perils of purchasing a car are discussed in this short narrative, which is dedicated to the American Auto Sales Industry. Cars should be labeled like cigarette packages as being harmful to your health. People fear the task of buying a car, much the same as giving a speech in public. It ranks with fear of Death. Yet like the lemming that continually march to the sea, people continually march to the lot and are the gluttons for the product. The ordeal is sometimes traumatic but never dull. The advertising, the sales gimmicks and chicanery of the auto business are reveled in this humorous anecdotal account of Car Man. The fantasies and greed of the owners to the avarice of the sales managers are exposed to the naked eye. Reading is believing, times change, models change, years go by but car man's tactics remain constant. The inner life of the Car Man is exposed in a humorous tongue in cheek approach. The author attempts through personal knowledge to tell the public of the inner workings of the auto sales business. The life and times of CAR MAN. His methods, his lifestyle, his basic motivations are laid bare to the public in this expose. Beginning with the history of the automobile and its influence on the

lifestyles of the southwest in the early parts of the 20th century taking into account the daily boring grind of the auto salesperson to the final excitement of the closing. The endless cold and lonely hours out on the LOT. Car man's environment. His social habits as well as his Sociopathy. Looking at the inner secrets of the auto dealership to include: invoices the most treasured artifact of the auto business. Documents that the CIA cannot see. Compared to this in-depth treatise the inner workings of the Masonic Lodge are general knowledge and mundane. Then taking the reader a step further so as to look at the futuristic marketing of autofliers the Buick or Oldsmobile of the future. Looking at artificially maintained atmospheres in biospheric domes. We will discover that in spite of adverse elements, CAR MAN will adapt and prevail.

EBay Motors Money Machine Master Mechanic, 2015-01-11 Make \$500 a week selling used auto parts on eBay I'm going to show you how I make \$500 a week (usually much more) selling used auto parts on eBay. And, the great thing is- it's something anybody can do, if you don't mind getting a little dirty or greasy. What I'm going to show you doesn't require a fancy education or previous experience selling on eBay. You don't even really need to know anything about cars or car parts, but if you do- that's a big plus that can help you make even more money. What got me started selling car parts was I had an old mustang I always planned to restore. Then I got married. We had a kid, and the car sat there in the driveway gathering dust and complaints from the neighbors about it being an eyesore. Finally, I had enough and decided I'd try to sell it on Craigslist, but I didn't get any takers. I called the scrapyard. They offered me one hundred bucks. I was pretty sure a few of the parts alone were worth more than that. Several days later I got this crazy idea. What if I part it out on eBay? I was sure to get more than \$100. Over the next three weeks I pulled every part I could off of that car- shift knobs, shifter arm, distributor, glove box door, hood emblem, and window crank handle. You name a part, I put it up for sale, and the funny thing is they sold. Someone paid me \$33.00 for a window crank, \$25.00 for the Mustang horse emblem, and \$25.00 for the owner's manual. It was nuts! People emailed to ask

if I had this or that part left. When I got their emails I'd head back out to the car with my wrench and screw driver to yank it out for them. I'd come back in the house and list the part on eBay for the agreed upon price. After three weeks I'd sold close to \$700 in parts from a car the junkyard offered a hundred bucks for. All I could think was-I need another car. That's when my brother-in-law popped into my head. He had an old Blazer. He was always saying he needed to get rid of it. I offered to take it off his hands for fifty bucks, and he said okay. By this time I was pretty much hooked. The Blazer parts sold for close to \$1000. I picked up a few more Junkers on Craigslist and made a couple dollars on them. The money was good, but it was just too much work. I told myself there had to be an easier way-one that didn't take so much time, effort, or hard work. That's what I'm going to cover next-how to get all of the used car parts you want without the hassle of having to buy the entire car and strip it down-without having to get all greasy and dirty. Get serious about your eBay selling Order this book - TODAY!

The Cadillac That Followed Me Home Christopher W. Cummings, 2006-09-21 The Cadillac V-16 was conceived in secrecy in the middle of the Roaring Twenties, when incomes were rising, prosperity seemed endless and the car business was beginning to break from a traditional emphasis on function over form. But by the time the Cadillac V-16 reached showrooms in 1930, the nation was falling headlong into the Great Depression, and it soon became a rare relic of the

boom before the crash. That is why in the mid-1960s, when Christopher Cummings was an adolescent car enthusiast, the oldest Cadillac V-16s were a dream just out of reach. This memoir tells the story of a boy who grew up loving cars, learned everything he could about them, and acquired quite a few impressive models for himself, while always looking forward to the day he would, by surprising circumstance, find the automobile of his dreams. Early chapters reveal the adventure Cummings underwent renovating his first car at age 13. Over the course of his teenage years he would work to acquire three classic Cadillacs: a 1941 Cadillac Series 7523 seven-passenger touring sedan, a 1941 Cadillac Series 61 coupe, and a 1931 Cadillac Series 355A Fleetwood Cabriolet. Later chapters recount the painstaking effort he put into renovating and maintaining those coveted vehicles. The story culminates with Cummings' unexpected acquisition of the car that earned the motto Standard of the World, the 1930 V-16 Imperial Sedan limousine. In all, this memoir bears witness to an elegant sample of the best that the Classic era of automotive history had to offer.

How to Buy a Car Without Losing Your Shirt Jay Hamilton, 2016-03-20 When you walk into a car dealership to look for a car, who do you think has the advantage? Does the customer have the advantage, since he has the money? Not on your life! Even if you buy a new car every two or three years, the salesperson who is about to greet you talks to at least three or four customers EVERY DAY! The dealer has this down to a science, and you don't. This book will tell you what to watch out for, and how the salesperson is trained to control the customer. I became a car salesman after I went shopping for a new pickup truck in 1979, and the dealership offered me a job

because the salesperson couldn't control me, and couldn't break me. In fact, I bought another brand entirely, because I got such a great deal. But I just could not turn down the kind of money I could make selling what I knew were the most reliable cars on the road, so I took the job. Every dealership belongs to an organization that employs Psychiatrists and Psychologists to interview customers, and determine what words and phrases the salesperson should use at each point in the selling process. I can help you negotiate the best deal. More than that my experience includes working as parts, service, and warranty claims manager for two smaller sports car dealerships, and as a service writer for a larger dealership, as well as working as a sales representative for three different dealerships in two states. I have also worked as a mobile home sales rep, a motorcycle, ATV, and Personal Watercraft sales rep, parts guru in the same shop, and parts counterman in a boat dealership. This book is twice as long as most books of its kind, and I go into how to not get ripped off by the service department, and how to handle warranty repairs, and I even discuss phony warranty claims, and how you can help the manufacturer control this cost of doing business, which I believe amounts to hundreds of dollars of the sticker price on every new car. Then I tell you how to get the best deal on financing, and whether you should finance or pay cash, if you can afford it. I tell you all about dealership added accessories, like rustproofing, fabric coatings, and paint glaze, and about extended warranties. Topics in this book include: Pay Plan for

salespeople, mechanics, and service writers, and how that affects their conduct The Five Principle Steps in selling a car The Test Drive Negotiating the Deal The F & I Guy (Finance and Insurance) aka Customer Service Manager (LOL) Delivery (No, not to your house, at the dealership, but they call it delivery) How to see and read the invoice, or determine the dealer's true cost How to determine the Actual Cash Value of your trade, or any used car The Quota System, and how it affects the dealership and you (including the best month to buy and the best TIME of the month to buy.) Getting the best financing deal Buying a used car Dealing with the Service Department Warranties and Warranty Work How to choose between the dealer and an independent shop for after sales service Keeping an eye out for phony warranty claims The most important thing to look for in test driving a used car, and why you should always do this Why your salesperson is your best asset in the dealership, and why you should not buy a car over the phone or over the internet Dealers who say they have only one price--you can do better at a conventional dealership if you learn to negotiate the best deal Bird Dog fees your dealer will be happy to pay you When you have finished reading this book, you will be ready to buy a new or used car, at the best possible price, and what to do when problems arise after the sale. I also suggest that you practice buying a car from other dealers before you shop with the dealer you are most interested in buying from. And I advise you to check with friends about what they think of the dealers they bought from, and find out whether

there is a high turnover of personnel there.
