Metropolis Philip Kerr, 2020-05-05 In his final book, New York Times bestselling author Philip Kerr treats readers to his beloved hero's origins, exploring Bernie Gunther's first weeks on Berlin's Murder Squad. Summer, 1928. Berlin, a city where nothing is verboten. In the night streets, political gangs wander, looking for fights. Daylight reveals a beleaguered populace barely recovering from the postwar inflation, often jobless, reeling from the reparations imposed by the victors. At central police HQ, the Murder Commission has its hands full. A killer is on the loose, and though he scatters many clues, each is a dead end. It's almost as if he is taunting the cops. Meanwhile, the press is having a field day. This is what Bernie Gunther finds on his first day with the Murder Commission. He's been taken on because the people at the top have noticed him—they think he has the makings of a first-rate detective. But not just yet. Right now, he has to listen and learn. Metropolis is a tour of a city in chaos: of its seedy sideshows and sex clubs, of the underground gangs that run its rackets, and its bewildered citizens—the lost, the homeless, the abandoned. It is Berlin as it edges toward the new world order that Hitler will soon usher in. And Bernie? He's a quick study and he's learning a lot. Including, to his chagrin, that when push comes to shove, he isn't much better than the gangsters in doing whatever he must to get what he wants.

The Porsche 911 Book Jürgen Lewandowski, 2018 The introduction of the Porsche 901 in 1963 marked a milestone in automotive history. Although the name later had to be changed because Peugeot had patented having a 0 in the middle of car model numbers, the 911 didn't let anything stand in the way of its becoming an iconic sports car. This success story spans all the way from the 901 and the Carrera RS 2.7 (which with its characteristic rear spoiler--the so-called ducktail--was the fastest production car of its time) right up to the current generation of the 991. For the 50th birthday of the populous 911 family, the famous automotive photographer Rene Staud, whose *The Mercedes-Benz 300 SL Book* has also been published by teNeues, showcases the most important models--all in his typically radiant and distinctive style.

In the Cornish coastal village of Mount Polbearne, the Christmas season has arrived. It's a joyous time for family, friends, and feasting, as decorations sparkle along the town's winding streets and shop windows glow with festive displays. And in Polly's Little Beach Street Bakery, the aroma of gingerbread cookies and other treats tempts people in from the cold. Though Polly is busy keeping up with the demands of the season, she still makes time for her beekeeper boyfriend, Huckle. She's especially happy to be celebrating the holiday this year with him, and can't wait to cuddle up in front of the fireplace with a cup of eggnog on Christmas Eve. But holiday bliss soon gives way to panic when a storm cuts the village off from the mainland. Now it will take all of the villagers to work together in order to ensure everyone has a happy holiday. Full of heart and humor, Jenny Colgan's latest novel is an instant Christmastime classic.

Big Feelings Liz Fosslien, Mollie West Duffy, 2022-04-26 From the duo behind the bestselling book *No Hard Feelings* and the wildly popular @LizandMollie Instagram, an insightful and approachable illustrated guide to handling our most difficult emotions. We all experience unwieldy feelings. But between our emotion-phobic society and the debilitating uncertainty of modern times, we usually don't know how to talk about what we're going through, much less handle it. Over the past year, Liz Fosslien and Mollie West Duffy's online community has laughed and cried about productivity guilt, pandemic anxiety, and Zoom fatigue. Now, *Big Feelings* addresses anyone intimidated by oversized feelings they can't predict or control, offering the tools to understand what's really going on, find comfort, and face the future with a sense of newfound agency. Weaving surprising science with personal stories and original illustrations, each chapter examines one uncomfortable feeling—like envy, burnout, and anxiety—and lays out strategies for turning big emotions into manageable ones. You'll learn: • How to end the cycle of intrusive thoughts brought on by regret, and instead use this feeling as a compass for making decisions • How to identify what's behind your anger and communicate it productively, without putting people on the defensive • Why we might be suffering from perfectionism even if we feel far from perfect, and how to detach your self-worth from what you do *Big Feelings* helps us understand that difficult emotions are not abnormal, and that we can emerge from them with a deeper sense of meaning. We can't stop

emotions from bubbling up, but we can learn how to make peace with them.

Thus Spoke the Plant Monica Gagliano, 2018-11-13 A research scientist's fascinating study of plant communication reveals how we "have been misunderstanding plants, and ourselves, for all of history" (The Paris Review). "A compelling story of discovery . . . [that] will change the way you see the world"—for fans of *The Hidden Life of Trees* (Robin Wall Kimmerer, author of *Braiding Sweetgrass*) In this "phytobiography"—a collection of stories written in partnership with a plant—research scientist Monica Gagliano shares genuine first-hand accounts from her research into plant communication and cognition. By transcending the view of plants as the objects of scientific materialism, Gagliano encourages us to rethink plants as people—beings with subjectivity, consciousness, and volition, and hence having the capacity for their own perspectives and voices. The book draws on up-close-and-personal encounters with the plants themselves, as well as plant shamans, indigenous elders, and mystics from around the world and integrates these experiences with an incredible research journey and the groundbreaking scientific discoveries that emerged from it. Gagliano has published numerous peer-reviewed scientific papers on how plants have a Pavlov-like response to stimuli and can learn, remember, and communicate to neighboring plants. She has pioneered the brand-new research field of plant bioacoustics, for the first time experimentally demonstrating that plants emit their own 'voices' and, moreover, detect and respond to the sounds of their environments. By demonstrating experimentally that learning is not the exclusive province of animals, Gagliano has re-ignited the discourse on plant subjectivity and ethical and legal standing. This is the story of how she made those discoveries and how the plants helped her along the way.
