Breathe Roger White, MD, 2016-03-09 Right now, are you breathing to the best of your ability? This may sound like an odd question, but breathing actually involves a lot more than just taking a breath in and letting it out. Each breath we take from birth until death sustains our fragile lives, yet most of the time we think very little about our breathing unless we have a problem. But breathing is always with us in everything we do. Through fascinating stories, Dr. White, a cardiologist, writes about real people and their challenges with breathing. This inspiration book provides much insight on something we each do several times a minute for a lifetime.

How to Breathe Right Edward Lankow, 1996-09 1917 Instructions for all classes in the community, in the art of right breathing for health and strength. Also particular directions and exercises for the specific needs of soldiers, sailors, schoolchildren, singers, clergymen, public speakers, and the.

Breath Taking Michael J. Stephen, 2021-01-19 An expert in pulmonary medicine shares a wide-ranging exploration of the human lung: the organ that explains our origins and holds the keys to our future. We take an average of 7.5 million breaths a year and some 600 million in our lifetime, and what goes on in our body each time oxygen is taken in and carbon dioxide expelled is nothing short of miraculous. "Our lungs are the lynchpin between our bodies and the outside world," writes pulmonologist Michael Stephen. And yet, we too often take our lungs for granted. In *Breath Taking*, Stephen sheds much-needed light on our extraordinary lungs. He relates the history of oxygen on

Earth and the evolutionary origins of breathing, and explores the healing power of breath and its spiritual potential. Stephen interweaves his narrative with scientific history, such as the development of the lung transplant, and poignant human stories, including his own frantic attempts to engage his son's lungs at birth. Despite great advances in science, our lungs are ever more threatened. Asthma is on the rise, increasing anxiety leaves us vulnerable to disease, and COVID-19 has revealed that vulnerability in historic ways. *Breath Taking* offers inspiration and hope, inspiration, and vital perspective to us all.

The Breath of Life John Burroughs,2013-05-14 When for the third or fourth time during the

spring or summer I take my hoe and go out and cut off the heads of the lusty burdocks that send out their broad leaves along the edge of my garden or lawn, I often ask myself, What is this thing that is so hard to scotch here in the grass? I decapitate it time after time and yet it forthwith gets itself another head. We call it burdock, but what is burdock, and why does it not change into yellow dock, or into a cabbage? What is it that is so constant and so irrepressible, and before the summer is ended will be lying in wait here with its ten thousand little hooks to attach itself to every skirt or bushy tail or furry or woolly coat that comes along, in order to get free transportation to other lawns and gardens, to green fields and pastures new? It is some living thing; but what is a living thing, and how does it differ from a mechanical and non-living thing? If I smash or overturn the sundial with my hoe, or break the hoe itself, these things stay smashed and broken, but the burdock mends itself, renews itself, and, if I am not on my guard, will surreptitiously mature some of the burs before the season is passed. Evidently a living thing is radically different from a mechanical thing; yet modern physical science tells me that the burdock is only another kind of machine, and manifests nothing but the activity of the mechanical and chemical principles that we see in operation all about us in dead matter; and that a little different mechanical arrangement of its ultimate atoms would turn it into a yellow dock or into a cabbage, into an oak or into a pine, into an ox or into a man.

The Breath of Life John Burroughs, 2015-06-11 As life nears its end with me, I find myself meditating more and more upon the mystery of its nature and origin, yet without the least hope that I can find out the ways of the Eternal in this or in any other world. In these studies I fancy I am about as far from mastering the mystery as the ant which I saw this morning industriously exploring a small section of the garden walk is from getting a clear idea of the geography of the North American Continent. But the ant was occupied and was apparently happy, and she must have

learned something about a small fraction of that part of the earth's surface.

The Breath, and the Diseases Which Give It a Fetid Odor Joseph W. Howe, 2016-03-21 The Breath, and the Diseases which Give it a Fetid Odor by Joseph W. Howe. This book is a reproduction of the original book published in 1878 and may have some imperfections such as marks or handwritten notes.

The Breath of the Gods Sidney McCall, 2014-04-16 The stone dwelling of Senator Cyrus C. Todd, usually as indistinguishable from its neighbors as is one piano key from another, presented at nine o'clock on this night of November third, nineteen hundred and three, a claim to individuality in the excess of light pouring from every window, from the perpendicular wink of every opening door (opened but to close again as quickly); oozing, it would seem, from the very pores of the pale facade, thereby giving to the great flat rectangle of the house a phosphorescent value that set it six feet out into the night. The upper windows shone more brilliantly than those below. A roller shade had been carelessly left high. Through the film of chamber curtains heads could be seen passing. Once, there was the outflung gesture of a slim, bare arm. Everything bespoke approaching festivity. At this brightest window a silhouette suddenly appeared, sharp, dark, complete. It was that of a Japanese girl with wonderfully looped and curved coiffure, shoulders that sloped tenderly, and a small, straight throat. Just at this moment, on the shadowed entrance-steps below, answering silhouettes began noiselessly to climb. These were men with thin black legs, and strange burdens, black like themselves. They showed angles as of gnarled roots; one, the great curved body of a gigantic spider. The front door, opening instantly to a ring, disclosed them merely as musicians, -Signor Marcellini of Milan and his colleagues, -bearing basso, cello, and flutes, secure in swart cases.
