*Targum Onkelos* Onkelos,2016-01-23 Targum Onkelos (or Unkelus) is the official eastern (Babylonian) targum (Aramaic translation) to the Torah. However, its early origins may have been western, in Israel. Its authorship is attributed to Onkelos, a famous convert to Judaism in Tannaic times (c. 35-120 CE). According to Jewish tradition, the content of Targum Onkelos was originally conveyed by God to Moses at Mount Sinai. However, it was later forgotten by the masses, and rerecorded by Onkelos. Some identify this translation as the work of Aquila of Sinope in an Aramaic translation (Zvi Hirsch Chajes), or believe that the name Onkelos originally referred to Aquila but was applied in error to the Aramaic instead of the Greek translation. The translator is unique in that he avoids any type of personification. Samuel D. Luzzatto suggests that the translation was originally meant for the simple people. This view was strongly rebutted by Nathan Marcus Adler in his introduction to *Netinah La-Ger*. In Talmudic times, and to this day in Yemenite Jewish communities, Targum Onkelos was recited by heart as a verse-by-verse translation alternately with the Hebrew verses of the Torah in the synagogue. The Talmud states that a person should complete his portions of scripture along with the community, reading the scripture twice and the targum once (*Shnayim mikra ve-echad targum*). This passage is taken by many to refer to Targum Onkelos.

**Militant Jihadism** Serafettin Pektas, Johan Leman, 2019-10-15 Scholarly analysis of evolving jihadist organisation, strategies, and operation Jihadist militants keep being a global threat. Many observers suggest that a transformation is likely to happen in their organisation, operation, mobilisation, and recruitment strategies, particularly after the territorial decline of the “Caliphate”

of the “Islamic State.” This volume explores different aspects of the future trajectories of militant jihadism and the prospective transformation of this movement in and around Europe. The authors analyse the changing jihadist landscape and networks, and the societal challenges posed by both returned foreign terrorist fighters and those who have not returned to their countries of origin. Other topics of discussion are cyber jihadism, jihadist financing, women's position in and relevance for contemporary jihadism, the role of prisons in relation to radicalisation and militancy, and the changing theological dynamics. Based on recent empirical research, *Militant Jihadism* offers a solid scholarly contribution to various disciplines that study violence, terrorism, security, and extremism.

*Reassembling the Republic of Letters in the Digital Age* Howard Hotson, Thomas Wallnig, 2019 Between 1500 and 1800, the rapid evolution of postal communication allowed ordinary men and women to scatter letters across Europe like never before. This exchange helped knit together what contemporaries called the ‘*respublica litteraria*’, a knowledge-based civil society, crucial to that era’s intellectual breakthroughs, formative of many modern values and institutions, and a potential cornerstone of a transnational level of European identity. Ironically, the exchange of letters which created this community also dispersed the documentation required to study it, posing enormous

difficulties for historians of the subject ever since. To reassemble that scattered material and chart the history of that imagined community, we need a revolution in digital communications. Between 2014 and 2018, an EU networking grant assembled an interdisciplinary community of over 200 experts from 33 different countries and many different fields for four years of structured discussion. The aim was to envisage transnational digital infrastructure for facilitating the radically multilateral collaboration needed to reassemble this scattered documentation and to support a new generation of scholarly work and public dissemination. The framework emerging from those discussions – potentially applicable also to other forms of intellectual, cultural and economic exchange in other periods and regions – is documented in this book.

**Grace Encounters** Aaron Erhardt, 2019-09-24 Grace is better experienced than explained. Perhaps that is why the Gospel does not define grace, but rather demonstrates it through the various stories of Jesus Christ. His life was a constant outpouring of divine favor upon an underserving world. The grace He extended to people was practical yet profound. It met them where they were, but never left them as they came. See for yourself as Aaron takes you on this exciting journey!

**Demosthenes, Speeches 1-17** Demosthenes, Jeremy Trevett, 2011-12-01 This is the fourteenth volume in the Oratory of Classical Greece. This series presents all of the surviving speeches from the late fifth and fourth centuries BC in new translations prepared by classical scholars who are at the forefront of the discipline. These translations are especially designed for the needs and interests of today's undergraduates, Greekless scholars in other disciplines, and the general public. Classical oratory is an invaluable resource for the study of ancient Greek life and culture. The speeches offer evidence on Greek moral views, social and economic conditions, political and social ideology, law and legal procedure, and other aspects of Athenian culture that have recently been attracting particular interest: women and family life, slavery, and religion, to name just a few. This volume contains translations of all the surviving deliberative speeches of Demosthenes (plus two that are almost certainly not his, although they have been passed down as part of his corpus), as well as the text of a letter from Philip of Macedon to the Athenians. All of the speeches were purportedly written to be delivered to the Athenian assembly and are in fact almost the only examples in Attic oratory of the genre of deliberative oratory. In the Olynthiac and Philippic speeches, Demosthenes identifies the Macedonian king Philip as a major threat to Athens and urges direct action against him. The Philippic speeches later inspired the Roman orator Cicero in his own attacks against Mark Antony, and became one of Demosthenes' claims to fame throughout history.
