*A Scrum Book* Jeff Sutherland, James O. Coplien, 2019-08-16 Building a successful product usually involves teams of people, and many choose the Scrum approach to aid in creating products that deliver the highest possible value. Implementing Scrum gives teams a collection of powerful ideas they can assemble to fit their needs and meet their goals. The ninety-four patterns contained within are elaborated nuggets of insight into Scrum's building blocks, how they work, and how to use them. They offer novices a roadmap for starting from scratch, yet they help intermediate practitioners fine-tune or fortify their Scrum implementations. Experienced practitioners can use the patterns and supporting explanations to get a better understanding of how the parts of Scrum complement each other to solve common problems in product development. The patterns are written in the well-known Alexandrian form, whose roots in architecture and design have enjoyed broad application in the software world. The form organizes each pattern so you can navigate directly to organizational design tradeoffs or jump to the solution or rationale that makes the solution work. The patterns flow together naturally through the context sections at their beginning and end. Learn everything you need to know to master and implement Scrum one step at a time—the agile way.

**Creative Circle Time Lessons for the Early Years** Yvonne

*Weatherhead*, 2008-11-19 Includes CD-rom! This creative book uses music, song, poetry and a host of practical ideas to engage children in Circle Time Activities. The publication stems from Yvonne's own work in schools where 26 alphabetical themes have been centralised around a lovable bear character. There are four strands in the book which are linked to the Social Skills curriculum. - Self esteem - Relationships - Communications - Spiritual and Moral Development These strands are developed through the 26 themes from 'Adorable' bear to 'Zig Zag' bear with a weekly introduction of a new rhythm to accompany the poem. For each theme there are comprehensive notes for teachers with lots of ideas on the content of each theme. The DVD-ROM contains all 26 poems and songs, recited or sung by the children. The DVD-Rom also includes printable posters and positive thought sheets. As an experienced teacher Yvonne offers not only a comprehensive practical resource that all teachers will find useful and time saving, but she also provides links to Citizenship, planning sheets for PSHE, lesson objectives and full lesson notes, providing all the support busy teachers need. A very exciting practical resource, easy to use and built on a very solid foundation of many years of expertise and practice.

**Field & Stream**, 1984-07 FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

.Net 4.0 Generics Beginner's Guide Sudipta Mukherjee, 2012-01-26 This is a concise, practical guide that will help you learn Generics in .NET, with lots of real world and fun-to-build examples and clear explanations. It is packed with screenshots to aid your understanding of the process. This book is aimed at beginners in Generics. It assumes some working knowledge of C#, but it isn't mandatory. The following would get the most use out of the book: Newbie C# developers struggling with Generics. Experienced C++ and Java Programmers who are migrating to C# and looking for an alternative to other generic frameworks like STL and JCF would find this book handy. Managers who want to know what Generics is and how to put it to good use. Architects will find the benchmarking extremely useful, because it's the first of its kind across a framework of several collections.

*The Architect* Francesca Hughes, 1996 *The Architect: Reconstructing Her Practice* examines how the introduction of women to the main body of architecture might bring about a reconstruction of the orders that pervade architectural production and consumption. At a moment when the architectural profession is beginning to shift from its traditionally male domination, The

**Architect: Reconstructing Her Practice** examines how the introduction of women to the main body of architecture might bring about a reconstruction of the orders that pervade architectural production and consumption. In a collection of autobiographical essays in which practice is both the site and the vehicle for change, twelve American and European architects reflect on the nature of critical practice and its relation to architecture. The contributors were chosen not only for the distinguished quality of their work, but also for the range of architectural practices they collectively encompass--from the intersection of theory and philosophy to the intersection of building process and industry. Together, they present a compelling and provocative critique of architectural culture. All show a willingness to transgress the various mediums and territories of architecture, to recover and reopen certain discussions lost in the architectural discourse they have inherited.

*Teach Me Something Real* Dori Seider, 2007-08-27 What can we do to keep not only our teaching but also our lives more deeply meaningful, vibrant,

restorative and exciting? This book gives to both new and experienced teachers and learners alike a gift of power and permission to be every ounce of what you want to be with vigor and determination, courage, respect and passion as well.

**Playful User Interfaces** Anton Nijholt, 2014-02-17 The book is about user interfaces to applications that have been designed for social and physical interaction. The interfaces are 'playful', that is, users feel challenged to engage in social and physical interaction because that will be fun. The topics that will be present in this book are interactive playgrounds, urban games using mobiles, sensor-equipped environments for playing, child-computer interaction, tangible game interfaces, interactive tabletop technology and applications, full-body interaction, exertion games, persuasion, engagement, evaluation and user experience. Readers of the book will not only get a survey of state-of-the-art research in these areas, but the chapters in this book will also provide a vision of the future where playful interfaces will be ubiquitous, that is, present and integrated in home, office, recreational, sports and urban environments, emphasizing that in the future in these environments game elements will be integrated and welcomed.

**Perfectly Imperfect** Allison Betancourt, 2009-11 High school changes everything. Molly and Aaron had been best friends since childhood. As neighbors, they were always together. Just before graduation, they begin to realize there may be more between them than friendship. But the transition isn't easy. When Molly's mother finds them asleep on her couch, she assumes the worst and kicks Molly out, setting in motion life-changing events. Soon Molly is brought completely into Aaron's world, and she believes for a moment she may have found perfection. When tragedy strikes, Molly and Aaron are put to the test, forcing them to figure out what it means to grow up. And when a friend becomes a backstabber, their relationship crashes to a halt. Filled with the real issues teens face in today's society, Allison Betancourt's debut novel explores the ups and downs faced by two teens on the edge of adulthood. In the midst of the pain and chaos, these teens will find that life is simply Perfectly Imperfect.

**Stink-o-pedia** Megan McDonald, Peter Reynolds, 2009 An amusing collection of fictional facts about an array of stinky, slimy, and strange things includes the world's loudest burp and a detailed description of the occupation of professional smeller, from the author of *Ant and Honey Bee*. **Ten Minutes Later** Louis Morris, 2022-05-03 Well, once upon a time a crazy man wrote an awful novel about wizards and talking eyes. Then he wrote another one not quite as awful as the first. This is that one; the sequel. It's also about wizards and talking eyes but in this one they go back in time and have wacky adventures and stuff. So if you haven't already read the first one, go read it and if you don't absolutely hate it, maybe read this one next.

**Hearts & Collars** Dan & Dawn Williams, When we started our power exchange relationship, we didn't have many models for it. We didn't know people who practiced authority transfer. We both came into it with emotional burdens and trauma. And in spite of that, we were able to consciously design a power exchange relationship that helps us both grow, brings us closer emotionally, helps us heal some of those hurts, and fulfills our deep desires. The tools we share in this book are ones that have worked for us over the last twenty years. We hope some of them will help you avoid pitfalls we stumbled into. Some of them may be right for you, or for your partner(s), and some of them may not. Like going clothes shopping, we invite you to try everything on; and if it doesn't fit, leave it on the rack. If there's one thing we hope you take away from this book, it's this: whoever you are, whatever you've been through, you have the ability to reflect, and grow, and become the person you want to be. Although it does take work, unflinching honesty with yourself, and compatible partner(s), it is possible to create relationships that hold you up, and help you thrive. We did it. So can you. Dan and Dawn began their

power exchange relationship in 2001. Since then, they have presented at hundreds of events, co-authored five books, and hosted over six hundred episodes of the Erotic Awakenings podcast. They were part of the team that created the Columbus Space, and they have served as co-producers of PXS (Power eXchange Summit) and BTL (Beyond the Love, a Polyamory Summit). Dan and dawn have been recognized as MAsT International Member's Choice Presenters of the Year (2016); Great Lakes title holders (2010); and as featured educators on both Kink Academy and Creative Sexuality. Find more about Dan and dawn at [www.eroticawakening.com](http://www.eroticawakening.com).

**Wood-Fired Cooking** Mary Karlin, 2011-08-23 This contemporary collection of more than 100 recipes from chef-instructor Mary Karlin covers the range of wood-fired cooking options available to home cooks. From flame-licked Plank-Roasted Porterhouse or Grilled Naan to a hearth-baked Milanese Risotto, Leek, and Asparagus Tart or Warm Chocolate-Chipotle Cakes, Karlin's unassuming yet refined kitchen sensibility shines through in every dish. With a vast knowledge of terrific ingredients, the diverse flavor characteristics of hardwoods, and the best live-fire techniques and equipment now available, Karlin is a passionate advocate for this growing trend. Her globally inspired Indian, Italian, Mediterranean, American, and North African recipes for cooking over live flame and embers are paired with contributions from Peter Reinhart, Bruce Aidells, Deborah Madison, and other fired-up chefs. Whether you're a seasoned barbecue expert or you just bought your first bag of lump charcoal, Wood-Fired Cooking will have you stoking appetites in no time.

**The Crisis of Capitalist Democracy** Richard A. Posner, 2010-01-01 Following up on his timely and well-received book, *A Failure of Capitalism*, Richard Posner steps back to take a longer view of the continuing crisis of democratic capitalism as the American and world economies crawl gradually back from the depths to which they had fallen in the autumn of 2008 and the winter of 2009. By means of a lucid narrative of the crisis and a series of analytical chapters pinpointing critical issues of economic collapse and gradual recovery, Posner helps non-technical readers understand business-cycle and financial economics, and financial and governmental institutions, practices, and transactions, while maintaining a neutrality impossible for persons professionally committed to one theory or another. He calls for fresh thinking about the business cycle that would build on the original ideas of Keynes. Central to these ideas is that of uncertainty as opposed to risk. Risk can be quantified and measured. Uncertainty cannot, and in this lies the inherent instability of a capitalist economy. As we emerge from the financial earthquake, a deficit aftershock rumbles. It is in reference to that potential aftershock, as well as to the government's stumbling efforts at financial regulatory reform, that Posner raises the question of the adequacy of our democratic institutions to the economic challenges heightened by the greatest economic crisis since the Great Depression. The crisis and the government's energetic response to it have enormously increased the national debt at the same time that structural defects in the American political system may make it impossible to pay down the debt by any means other than inflation or devaluation.

**The Bubble Universe: Psychological Perspectives on Reality** Eugene Subbotsky, 2020-07-28 This book examines the role that human subjective experience plays in the creation of reality and introduces a new concept, the Bubble Universe, to describe the universe as it looks from the subjective viewpoint of an individual. Drawing on a range of research, the author questions the extent to which the scientific study of the origins of life, consciousness and subjective experience is itself influenced by scientists' subjective worlds. The author argues that in many respects the Bubble Universe differs from the universe as described by science and religion, and analyzes these differences. The fabric and structure of subjective reality is described, and various aspects of the Bubble Universe are examined, including science, religion, life, morality and history. The differences between the

views from inside the subjective universe and from scientific, religious and sociocultural versions of the universe are outlined, and their significance for practical and theoretical problems are highlighted and illustrated with psychological experiments. This book will be of value to all scholars interested in how subjectivity influences research and appeal in particular to those working in developmental and theoretical psychology, consciousness, epistemology, phenomenology, and the philosophy of science and of the mind.

Covid-19 and the Mental Health Connection Michelle J. Holtby, 2021-07-15 A journey definitely worth taking—most definitely worth the read! – Jack R. Eastman, R.N. Wow! “Right on time.” Michelle has done it again! This is sure to be a bestseller. Our 47 year old author, a native of Albuquerque, NM, published her first book “Bipolar No More: A Memoir of Hope and Recovery” in 2008. Now, we’re again fortunate and inspired as she takes us on a short journey and infuses us with insight, foresight, and hope in our universal quest to maintain mental stability and wellness during the COVID-19 pandemic and beyond. Michelle always makes us feel instantly seen, while creating meaningful connections with her audience. This memoir is written for anyone who has been touched by mental illness and/ or COVID-19 pandemic. It’s a guide, a tool, a comforter, uses various coping techniques, and provides support and views from the secular and Christian world. Michelle invites you to take this one-of-a-kind journey to find hope, help and answers to your most asked questions. Her experiences living with Bipolar I Disorder for 20 years will bring you inner peace so that you, too, can find the answers you need for today, tomorrow and always. One in four Americans are struck each year with a mental illness. While these are challenging enough to deal with, beginning in 2020 the COVID-19 pandemic was added to the equation—causing numerous outbreaks of hospitalizations. Endless isolation, depression, and anxiety soared to all-time levels as did suicide.

**Navigating AAC** Alison Battye, 2022-09-30 Speech and Language Therapists are assumed to have a knowledge of AAC (Augmentative and Alternative Communication). The reality is that, unless they have had a student clinical placement in this field, they will qualify with very little experience in this area. This book is an approachable guide to AAC and covers the various types, including paper-based and voice-output communication aids. There is guidance on how to assess a person who might need AAC, and how to work collaboratively with those who support the person on a daily basis. The author discusses the importance of core vocabulary alongside a personalised vocabulary. There are pointers for referring to specialised services, signposting families to alternative sources of funding, and making a business case for buying AAC equipment. Written by an expert in the field, this book provides tips and strategies for SLTs who are brand new to AAC, as well as experienced clinicians wanting to gain further confidence in working with this varied client group.
