The Lake Bodom Blood Murders D.Z. Matt Demas,2013-10-19

The Lake Bodom murders is one of the worlds most unsolved, triple murders case that happened in the Finnish land in 1960. Even after reopening the case in 2004, 44 years after the horrific event, still left the murders a cold case. Four friends went camping at Lake Bodom and were found brutally and savagely murdered the next morning. However of the four, one survived sustaining less brutal injuries. Although the Lake Bodom murders remains a cold case after 50 years, can you come to a conclusion or theory on what really happened that night in 1960? There is only one person on this earth who could tell you, but the questions remain the same. After this story and over 3 murder scenerios, what do you believe? Is the sole survivor Byron Niles walking amongst you freely with a guilty mind? Or is the sadistic murderer someone else of the many suspects? Figure it out for yourself in this true life horror story.
