D. C. [From Ol A. Citizen of Washington

*Citizen* Tore Jamal Castagnier,2019-12-16 Citizen isn't quite the definition of the superhero that most people know. Citizen's unorthodox approach captures the attention of the people of Chicago. He makes the decision of who is in need of help and who is not, and he is guilt free of the choices he decides. He's loved by many and hated by some. Citizen finds complete satisfaction in the way he lives his life. That is until Niana, his ex-girlfriend, shows up demanding to know where their son is and is willing to kill everyone in sight, including Citizen, to find him. Citizen has hidden the child since he was a baby to protect him and the world. Jerry possesses power that exceeds that of his parents, but he doesn't want it. If this power is unleashed on the world, it could be the end of everything as they know it. Will Citizen be able to stop the collision between Niana, Jerry, and himself? Will Jerry accept his legacy and live up to what's expected of him? Who is the dark entity that lurks in the shadows watching everything as it unfolds, waiting to reveal themselves?

**Hero's Life** Lance Schonberg,2020-05-07 Settled into a routine, the Citizen finds himself getting bored with every-day criminal activity. But when things start to get hard in his non-superhero life, Heroes Inc. offers him an expanded opportunity, showing him there's more to the job than muggers and rapists.

Citizen Scientist Mary Ellen Hannibal,2017-08-22 A San Francisco Chronicle Best Book of 2016: "Intelligent and impassioned, *Citizen Scientist* is essential reading for anyone interested in the natural world." Award-winning writer Mary Ellen Hannibal has long reported on scientists' efforts to protect vanishing species, but it was only through citizen science that she found she could take action herself. As she wades into tide pools, spots hawks, and scours

mountains, she discovers the power of the heroic volunteers who are helping scientists measure—and even slow—today’s unprecedented mass extinction. Citizen science may be the future of large-scale field research—and our planet’s last, best hope.

*Citizen Comedy in the Age of Shakespeare* Alexander

Leggatt, 1972-12-15 This is the first book to survey comprehensively the field of Elizabethan and Jacobean citizen comedy. Most studies of the period focus on major authors; this one follows recurring themes and motifs, through a variety of plays by many authors from the moralizing comedies of the boys' companies. Professor Leggatt provides not only a fresh perspective on familiar plays by such figures as Jonson, Middleton, and Dekker, but also a new look at a number of neglected comedies, some by unfamiliar authors, some by major authors working together. Standard figures — the usurer, the prodigal, and the prostitute — and standard plots — notably intrigues based on money or sex (or both) — are traced to show the changes that occur in apparently stereotyped material at the hands of individual authors. The result is to display the range and internal variety of a genre that too often is seen as all of a piece, and to show the different ways in which social thinking can interact with the demands and comic form. This book will interest students of Renaissance English drama, both for its treatment of a neglected type of play and for its comments on individual citizen comedies. Those who are concerned with drama as a vehicle for social commentary will find many points for discussion.

Heroes Inc. Lance Schonberg, 2019-05-21 Armed with a super suit, an IT degree, and a little bit of writing skill, our prospective hero plunges into the heroing business as an official field tester for Heroes Inc., a wholly owned subsidiary of Hamilton Progressive Defense Systems. Criminals and thugs, supervillain wannabes, robots and a

giant, he's got his work cut out for him. And he can't even manage to pick his own superhero name.

Citizen Science Fiction Jerome Winter, 2021-03-19 Citizen Science Fiction argues that science-fiction literature and media can engage and empower individuals to become active and critical participants in citizen science such that they can collaborate meaningfully in the scientific and technological communities, institutions, and industries that deeply shape their everyday lives.

Supernatural Beings 1 Thierry Kouam, 2019-05-24 Winnipeg is divided between two worlds: one is comprised of human beings and the other of supernatural beings, some of whom have been gifted with special powers and magic. Supernatural beings, animals shaped like humans, believe their ancestors are their gods, dutifully follow the rules of their tradition, and understand their purpose is to eradicate the human race. Hero is a young adult, magician supernatural being who has been sent with his brothers to the world of human beings to destroy humankind. But everything changes during his important mission when Hero surprisingly feels his magic pushing him against his own desire to protect Angel, a mysterious human being who appears different than others in her race. When Hero breaks the rules of his tradition and battles against his own family to protect Angel, he becomes a traitor who now must learn why his magic warns him when Angel is in danger as fate leads him to places he never imagined. In this fantasy tale, a young supernatural being with magical powers on a mission to destroy the human race crosses paths with a mysterious being that causes him to question

everything he has ever known.

**No Citizen Left Behind** Meira Levinson, 2012-04-23 While teaching at an all-Black middle school in Atlanta, Meira Levinson realized that students' individual self-improvement would not necessarily enable them to overcome their profound marginalization within American society. This is because of a civic empowerment gap that is as shameful and antidemocratic as the academic achievement gap targeted by No Child Left Behind. No Citizen Left Behind argues that students must be taught how to upend and reshape power relationships directly, through political and civic action. Drawing on political theory, empirical research, and her own on-the-ground experience, Levinson shows how de facto segregated urban schools can and must be at the center of this struggle. Recovering the civic purposes of public schools will take more than tweaking the curriculum. Levinson calls on schools to remake civic education. Schools should teach collective action, openly discuss the racialized dimensions of citizenship, and provoke students by engaging their passions against contemporary injustices. Students must also have frequent opportunities to take civic and political action, including within the school itself. To build a truly egalitarian society, we must reject myths of civic sameness and empower all young people to raise their diverse voices. Levinson's account challenges not just educators but all who care about justice, diversity, or democracy.

Cincinnatus and the Citizen-Servant Ideal Michael J.

Hillyard, 2001-08-16 A compilation of the recorded life, times, and influence of a Roman legend, Cincinnatus and the Citizen-Servant Ideal captures the essence of human virtue as it was embodied in the Roman Republic's earliest days. Describing Cincinnatus's recorded life and times, Hillyard traces the legend's major interpretations from its

origin amidst early Roman culture through contemporary times. In its impact on some of the world's leading thinkers and leaders, such as Livy, George Washington, Henry Knox, Harry Truman, and others, the Cincinnatus legend is described in the many interesting forms it has taken over two millennia. Carried throughout the narrative is the timeless nature of the Cincinnatus ideal—the central issues of the role of citizen and leader in society.

Every Citizen a Statesman David Allen, 2023-01-10 The surprising story of the movement to create a truly democratic foreign policy by engaging ordinary Americans in world affairs. No major arena of US governance is more elitist than foreign policy. International relations barely surface in election campaigns, and policymakers take little input from Congress. But not all Americans set out to build a cloistered foreign policy “establishment.” For much of the twentieth century, officials, activists, and academics worked to foster an informed public that would embrace participation in foreign policy as a civic duty. The first comprehensive history of the movement for “citizen education in world affairs,” *Every Citizen a Statesman* recounts an abandoned effort to create a democratic foreign policy. Taking the lead alongside the State Department were philanthropic institutions like the Ford and Rockefeller foundations and the Foreign Policy Association, a nonprofit founded in 1918. One of the first international relations think tanks, the association backed local World Affairs Councils, which organized popular discussion groups under the slogan “World Affairs Are Your Affairs.” In cities across the country, hundreds of thousands of Americans gathered in homes and libraries to learn and talk about pressing global issues. But by the 1960s, officials were convinced that strategy in a nuclear world was beyond ordinary people, and foundation support for outreach withered. The local councils increasingly focused on those who were already engaged in political debate and otherwise decried supposed public apathy, becoming a force for the very elitism they set out to combat. The result, David Allen argues, was a chasm between policymakers and the public that has persisted since the Vietnam War, insulating a critical area of decisionmaking from the will of the people.
