Family Maps of Geneva County, Alabama, Deluxe Edition Gregory A. Boyd,2010-05-20 Locating original landowners in maps has never been an easy task-until now. This volume in the Family Maps series contains newly created maps of original landowners (patent maps) in what is now Geneva County, Alabama, gleaned from the indexes of the U.S. Bureau of Land Management. But it offers much more than that. For each township in the county, there are two additional maps accompanying the patent map: a road map and a map showing waterways, railroads, and both modern and many historical city-centers and cemeteries. Included are indexes to help you locate what you are looking for, whether you know a person's name, a last name, a place-name, or a cemetery. The combination of maps and indexes are designed to aid researchers of American history or genealogy to explore frontier neighborhoods, examine family migrations, locate hard-to-find cemeteries and towns, as well as locate land based on legal descriptions found in old documents or deeds. The patent-maps are essentially plat maps but instead of depicting owners for a particular year, these maps show original landowners, no matter when the transfer from the federal government was completed. Dates of patents typically begin near the time of statehood and run into the early 1900s. 312 pages with 89 total maps What's Mapped in this book (that you'll not likely find elsewhere) . . . 5683 Parcels of Land (with original landowner names and patent-dates labeled in the relevant map) 47 Cemeteries plus . . . Roads, and existing Rivers, Creeks, Streams, Railroads, and Small-towns (including some historical), etc. What YEARS are these maps for? Here are the counts for parcels of land mapped, by the decade in which the corresponding land patents were issued: DecadeParcel-count 1820s1 1830s42 1840s161 1850s1183 1860s550 1870s9 1880s613 1890s2620 1900s396 1910s100 1920s6 What Cities and Towns are in Geneva County, Alabama (and in this book)? Atlas of Cities Paul Knox,2022-01-11 A unique, stunningly illustrated look at the origins, development, and future prospects of cities More than half the world's population lives in cities, and that proportion is expected to rise to three-quarters by 2050. Urbanization is a global phenomenon, but the way cities are developing, the experience of city life, and the prospects for the future of cities vary widely from region to region. The Atlas of Cities presents a unique taxonomy of cities that looks at different aspects of their physical, economic, social, and political structures; their interactions with each other and with their hinterlands; the challenges and opportunities they present; and where cities might be going in the future. Each chapter explores a particular type of city—from the foundational cities of Greece and Rome and the networked cities of the Hanseatic League, through the nineteenth-century modernization of Paris and the industrialization of Manchester, to the green and smart cities of today. Expert contributors explore how the development of these cities reflects one or more of the common themes of urban development: the mobilizing function (transport, communication, and infrastructure); the generative function (innovation and technology); the decision-making capacity (governance, economics, and institutions); and the transformative capacity (society, lifestyle, and culture). Using stunning info-graphics, maps, charts, tables, and photographs, the Atlas of Cities is a comprehensive overview of the patterns of production, consumption, generation, and decay of the twenty-first century's defining form. Presents a one-of-a-kind taxonomy of cities that looks at their origins, development, and future prospects Features core case studies of particular types of cities, from the foundational cities of Greece and Rome to the smart cities of today Explores common themes of urban development, from transport and communication to lifestyle and culture Includes stunning info-graphics, maps, charts, tables, and photos Cities Featured: Abuja, Alexandria, Amsterdam, Athens, Augsburg, Babylon, Beijing, Berlin, Brasilia, Bruges, Budapest, Cairo, Canberra, Chandigarh, Chicago, Constantinople, Curitiba, Detroit, Dubai, Dublin, Düsseldorf, Florence, Frankfurt, Freiburg, Geneva, Ghent, Glasgow, Güssing, Hong Kong, Innsbruck, Istanbul, Jakarta, Karachi, Knossos, Las Vegas, London, Los Angeles, Lübeck, Manchester, Marseille, Masdar City, Mexico City, Miami, Milan, Mumba, Mumbai, Nairobi, New York, Paris, Pella, Portland, Rome, San Francisco, Santorini, São Paulo, Seoul, Shanghai, Sheffield, Singapore, Sparta, St. Petersburg, Stockholm, Sydney, Syracuse, Tokyo, Vancouver, Venice, Vienna, Washington, D.C., Wildpoldsried
