Sidewalk City Annette Miae Kim,2015-05-27 This title re-maps public space in order to unveil contemporary spatial practices and to explore future possibilities. In the midst of historic migration and urbanisation, our limited public spaces are being contested and re-conceptualised in cities around the world with innovative experiments in some places and bloody battles in others. This book uses the case of sidewalks in Ho Chi Minh City, Vietnam where a vibrant everyday urbanism takes place in flexible patterns that defy conventional conceptions of public space.

Vietnam Travel Map Eighth Edition Periplus Editors,2014-05-27 The Vietnam Travel Map from Periplus is designed as a convenient, easy-to-use tool for travelers. This extensive geographical reach and attention to detail mean that Periplus Travel Maps are the natural first choice for anyone traveling in the region.

Sustainable Ho Chi Minh City: Climate Policies for Emerging Mega Cities
Antje Katzschnher, Michael Waibel, Dirk Schwede, Lutz Katzschnher, Michael Schmidt, Harry Storch, 2015-12-01 As climate change and urban development are closely interlinked and often interact negatively, this edited volume takes Ho Chi Minh City (HCMC), Vietnam's first mega-urban region as a case study to analyse its vulnerability to climate change and to suggest measures towards a

more sustainable urban development. The book offers an overview on land use planning regarding the aspects of urban flooding, urban climate, urban energy and urban mobility as well as spatial views from the angle of urban planning such as the metropolitan level, the city, the neighbourhood and building level. It shows that to a significant degree, measures dealing with climate change can be taken from the toolbox of sustainable urban development and reflects how institutional structures need to change to enhance chances for implementation given socio-cultural and economic constraints. This is merged and integrated into a holistic perspective of planning recommendations, supporting the municipal government to increase its adaptive capacity. The authors are members of a German government funded research project on how to support HCMC's municipal government to adapt to risks related to climate change.

The Urban Climatic Map Edward Ng, Chao Ren, 2015-09-07 Rapid urbanization, higher density and more compact cities have brought about a new science of urban climatology. An understanding of the mapping of this phenomenon is crucial for urban planners. The book brings together experts in the field of Urban Climatic Mapping to provide the state of the art understanding on how urban climatic knowledge can be made available and utilized by urban planners. The book contains the technology, methodology, and various focuses and approaches of urban climatic map making. It illustrates this understanding with examples and case studies from around the world, and it

explains how urban climatic information can be analysed, interpreted and applied in urban planning. The book attempts to bridge the gap between the science of urban climatology and the practice of urban planning. It provides a useful one-stop reference for postgraduates, academics and urban climatologists wishing to better understand the needs for urban climatic knowledge in city planning; and urban planners and policy makers interested in applying the knowledge to design future sustainable cities and quality urban spaces.

My Saigon: The Local Guide to Ho Chi Minh City, Vietnam Elly Thuy Nguyen, 2024-01-21 Experience real Saigon: My Saigon 2024 Saigon (Ho Chi Minh City) offers bustling streets, amazing walks, too-hip-for-you cafes, rocking music clubs, luxurious salons, explosively delicious restaurants, and indoor cat zoos. Saigon is Vietnam. It's young, practical, crowded, and a little bit brash. Most visitors to Saigon see the same boring "attractions": boring restaurants, tourist-trap markets, and War propaganda. Saigon has so much more to experience than tourists see. My Saigon gives you the insider track: the most amazing experiences, the cultural backstories, the practical go-to tips, the best coffee, the best food (far beyond pho and banh mi), the best hangouts, the coolest stuff, and hipsters, hipsters everywhere. Details about 90-day and multi-entry electronic visas to Vietnam (new as of August, 2023). Big-picture navigation. History your tour guides aren't allowed to mention. Good hotels for cheap, without hostels, bedbugs, and weird smells. Get mobile data up and running without being scammed. The best pho in Saigon: no, it's not the one in the backpacker district. Awesome, authentic, cheap restaurants

where my friends and I eat -- and Tripadvisor has no clue about. Coffee. Did someone say coffee? 1930s coffee, street coffee, specialty coffee, all kinds of coffee: I'll tell you where. Hang out with Vietnamese people, munch on dried squid, listen to Viet Pop (if you dare). Make cool friends, date guys or girls, whatever flag you might fly. Bust out with Saigonese slang to make your new friends laugh. Watch out for Saigon's mafia: they run the streets, and they don't announce themselves. Don't unintentionally offend people by wearing a popular tourist souvenir t-shirt. You definitely shouldn't give money to beggars and street kids. Avoiding taxi scams in Saigon is so easy, but most tourists refuse to learn. My Saigon is a guide, a love confessional, an instruction manual, and an ode to the city.

Saigon's Edge Erik Harms, 2011 Exploring the places where the rural and urban intersect, where many of the world's people live.

Encyclopedia of Saigon / Ho Chi Minh City JUSTIN. CORFIELD, 2017-09-05
During the eighteenth century, the Cambodian settlement of Prey Nokor became the Vietnamese port of Saigon which in turn emerged as one of the largest settlements in the Vietnamese Empire. Captured by the French in 1861, it developed into the capital of the French colony of Cochinchina. An increasingly wealthy port, its population became increasingly politicised and in 1955, Saigon became the capital of the Republic of Vietnam. In 1976, Hanoi became the capital of the new Socialist Republic of Vietnam, with Saigon being renamed Ho Chi Minh City. Now a popular tourist destination, many of

the sites dating from the French period and the Vietnam War survive with the city authorities taking an increasing interest in architectural heritage. This book is wholly updated and considerably expanded from the Historical Dictionary of Ho Chi Minh City, including more than 550 illustrations and photographs, many in colour, and city maps. With entries on the major places, institutions and people who had an important role in the history and the cultural life of the city, it remains an indispensable guide to scholars and researchers.

Context-Aware Systems and Applications, and Nature of Computation and Communication Phan Cong Vinh, Abdur Rakib, 2019-10-31 This book constitutes the refereed post-conference proceedings of the International Conferences ICCASA and ICTCC 2019, held in November 2019 in My Tho, Vietnam. The 20 revised full papers presented were carefully selected from 33 submissions. The papers of ICCASA cover a wide spectrum in the area of context-aware-systems. CAS is characterized by its self- facets such as self-organization, self-configuration, self-healing, self-optimization, self-protection used to dynamically control computing and networking functions. The papers of ICTCC cover formal methods for self-adaptive systems and discuss natural approaches and techniques for computation and communication.

More Than a Pretty Picture Tara Bedi, Aline Coudouel, Kenneth Simler, 2007 The allocation of resources and the design of policies tailored to local-level conditions require highly disaggregated information. Data on poverty at the local level is typically not available because most household surveys are not

representative past the regional level. This volume aims to promote the effective use of Small Area Estimation poverty maps in policy making. It presents the range of policies and interventions which have been informed by poverty maps, focusing on the political economy of poverty maps and the key elements to their effective use by policy makers. The volume also looks at the future of poverty maps in terms of new techniques and new areas of application.

Sidewalk City Annette Miae Kim, 2015-05-27 For most, the term “public space” conjures up images of large, open areas: community centers for meetings and social events; the ancient Greek agora for political debates; green parks for festivals and recreation. In many of the world’s major cities, however, public spaces like these are not a part of the everyday lives of the public. Rather, business and social lives have always been conducted along main roads and sidewalks. With increasing urban growth and density, primarily from migration and immigration, rights to the sidewalk are being hotly contested among pedestrians, street vendors, property owners, tourists, and governments around the world. With *Sidewalk City*, Annette Miae Kim provides the first multidisciplinary case study of sidewalks in a distinctive geographical area. She focuses on Ho Chi Minh City, Vietnam, a rapidly growing and evolving city that throughout its history, her multicultural residents have built up alternative legitimacies and norms about how the sidewalk should be used. Based on fieldwork over 15 years, Kim developed methods of spatial

ethnography to overcome habitual seeing, and recorded both the spatial patterns and the social relations of how the city's vibrant sidewalk life is practiced. In *Sidewalk City*, she transforms this data into an imaginative array of maps, progressing through a primer of critical cartography, to unveil new insights about the importance and potential of this quotidian public space. This richly illustrated and fascinating study of Ho Chi Minh City's sidewalks shows us that it is possible to have an aesthetic sidewalk life that is inclusive of multiple publics' aspirations and livelihoods, particularly those of migrant vendors.

Vietnam Jan Dodd, Mark Lewis, 2003 The Rough Guide to Vietnam is the ideal companion for exploring Southeast Asia's most intriguing destination. A full-colour introductory section includes photos of the country's highlights, from the waterborne markets of the Mekong Delta to the faded elegance of Hanoi. Lively coverage is given to towns and attractions and opinionated reviews give an up-to-the-minute impression of the country's best-known sights. There is practical advice on exploring everything that may concern the independent traveller, from negotiating Vietnam's borders to dining in street kitchens. The Contexts section includes enlightening articles on Vietnamese history, religion, music and film. The Rough Guide to Vietnam is strongly recommended The Daily Telegraph
