Rooster Town Evelyn Peters,Matthew Stock,Adrian Werner,2018-10-16 Melonville. Smokey Hollow. Bannock Town. Fort Tuyau. Little Chicago. Mud Flats. Pumpville. Tintown. La Coule. These were some of the names given to Métis communities at the edges of urban areas in Manitoba. Rooster Town, which was on the outskirts of southwest Winnipeg endured from 1901 to 1961. Those years in Winnipeg were characterized by the twin pressures of depression, and inflation, chronic housing shortages, and a spotty social support network. At the city's edge, Rooster Town grew without city services as rural Métis arrived to participate in the urban economy and build their own houses while keeping Métis culture and community as a central part of their lives. In other growing settler cities, the Indigenous experience was largely characterized by removal and confinement. But the continuing presence of Métis living and working in the city, and the establishment of Rooster Town itself, made the Winnipeg experience unique. Rooster Town documents the story of a community rooted in kinship, culture, and historical circumstance, whose residents existed unofficially in the cracks of municipal bureaucracy, while navigating the legacy of settler colonialism and the demands of modernity and urbanization.

The papers presented in this volume sample that research from a variety of perspectives: the development of local government; social life; businessmen and pressure groups; radical politics; and recent trends and perspectives.

It includes works on geographical studies of Canada as a whole, on multiple provinces, and on individual provinces. Works covered include books, monographs, atlases, book chapters, scholarly articles, dissertations, and theses. The contents are organized first by region into main chapters, and then each chapter is divided into sections: General Studies, Cultural and Social Geography, Economic Geography, Historical Geography, Physical Geography, Political Geography, and Urban Geography. Each section is further sub-divided into specific topics within each main subject. All known publications on the geographical studies of Canada—in English, French, and other languages—covering all types of geography are included in this bibliography. It is an essential resource for all researchers, students, teachers, and government officials needing information and references on the varied aspects of the environments and human geographies of Canada.
