Dunwars Book 3 Clash of the Planets Derek Goneke,2021-12-30 Clash of the Planets is the third book of the 6-book series installation about to hit the market. This Science Fiction entry has two central protagonists.Roesha, a girl in a different world. She is far from the world she grew up in. Her venture leads her to Lunaris, a planet that teaches her more about moonwalkers. Roesha is up for an adventure, self-discovery. Most of all, she is bound to a masterplan. She may be the key to bring down the end of her uncle's reign.

Let's Go Now! Book 1: Clash of the Planets Mary Goglia,2019-02-16 Unknowing and unexpected heroes are chosen to combat an ancient evil while unearthing the seeds of a forgotten past, finding themselves caught in a war as old as time and space itself!

The Blue Planet Mark Rogo,2017-03-24 The first book of this series, 23 Hours, was a labor of love and an intense lesson in the skills of writing. I don't even pretend to have those skills, but I do fool myself into thinking they might have some value to someone other than myself. If you enjoyed 23 Hours, I think you will love The Blue Planet. It's shorter and more focused, and less oriented as a social commentary, an outcry against the wrongs of the world. All in all, it's just a lot more fun, with an incredible ending.

Newton's Physics and the Conceptual Structure of the Scientific Revolution Z. Bechler,2012-12-06 Three events, which happened all within the same week some ten years ago, set me on the track which the book describes. The first was a reading of Emile Meyerson's works in the course of a prolonged research on Einstein's relativity theory, which sent me back to Meyerson's Identity and Reality, where I read and reread the striking chapter on Irrationality. In my earlier researches into the origins of French Conventionism I came to know similar views, all apparently deriving from Emile Boutroux's doctoral thesis of 1874 De la contingence des lois de la nature and his notes of the 1892-3 course he taught at the Sorbonne De l'idée de loi naturelle dans la science et la philosophie contemporaines. But never before was the full effect of the argument so suddenly clear as when I read Meyerson. On the same week I read, by sheer accident, Ernest Moody's two parts paper in the JHof 1951, Galileo and Avempace. Put near Meyerson's thesis, what Moody argued was a striking confirmation: it was the sheer irrationality of the Platonic tradition, leading from Avempace to Galileo, which was the working conceptual force behind the notion of a non-appearing nature, active all the time but always submerged, as it is embodied in the concept of void and motion in it

Legend of the Galactic Heroes, Vol. 1: Dawn Yoshiki Tanaka,2016-03-08 The "golden brat" Reinhard von Lohengramm, a military prodigy and admiral of the Galactic Empire, has ambitions beyond protecting the borders or even defeating the empire's enemies. He seeks to overthrow the old order and become a truly absolute—yet benevolent—dictator. His rival, the humble Yang Wen-li of the Free Planets Alliance, wishes to preserve democracy even if he must sacrifice his political ideals to defeat the empire. Their political and military battles play out over a galactic chessboard in an epic saga fifteen centuries in the making! -- VIZ Media

Crystals II Antonis Anastasiadis,2016-05-19 The Crystals series - as you may already know - will hopefully be completed in a decalogy which will start from the creation of the universe, will transcend all human civilization, will come to the present and continue into the future, summarily showing the development of human civilization. In the first book, we saw the discovery of an object with strange properties, the study and finally the 'cosmic' journey in which we observed the Big Bang, the creation of galaxies and star systems.The 2nd book refers to the creation of the solar system, the creation and structure of the earth, the appearance of life on earth and its developmental course. This whole period, which in fact was initiated about five billion years ago, is elaborated with mythological fights and dwells, fitting in reality to mythological forms as natural forces, and that is why they are named 'Supernatural'. Thus, we observe the drama of archetypal life on planet earth in the form of Supernatural Powers.The Titans with their

leader, Cronos dominate the scene in the 2nd book. The structural upheavals on planet earth are presented in the form of epic battles and struggles, as well as the calamities and extinction of life but also the emergence of new life forms on earth. The 2nd Clash of the Titans brings us to about 50 million years ago with the final triumph of the Supernatural Powers in their fight against the Hypercosmic Powers followed by their slippage into the arrogance of power which will cause the 3rd Clash of the Titans. Continuing on this magic journey and keeping the White Crystal as the 'vehicle' of our transport, the reader of this and the other books in the series will observe the development of the human civilization from the creation of the universe to this day, through the use of myth, allegory and real events and scientific knowledge. The following 10 books will follow with the following proposed titles: 1st Battle of the Titans: Clash between Vacuum and the Hypercosmic (Creation) 2nd Battle of the Titans: Clash between Hypercosmic and the Supernatural (Celestial Battle) 3rd Battle of the Titans: Clash between Natural and the Supernatural (Zeus-Cronos) 4th Battle of the Titans: Clash between Natural and the Paranormal (Battle of Giants) 5th Battle of the Titans: Clash between Natural and the Metaphysical (Prometheus) 6th Battle of the Titans: Clash between the Good and the Evil (White-Dark Crystal) 7th Battle of the Titans: Clash between the Sociopolitical and the Counter-sociopolitical (Early Civilizations) 8th Battle of the Titans: Clash between Humanism and Technocracy (Later Periods) 9th Battle of the Titans: Clash between Civilization and Barbarism (Current Times) 10th Battle of the Titans: Clash between Earthlings and Extraterrestrials (Intergalactic Travel)

The Legend of the Phantom Effect John Henry Hardy, 2018-11-20 Harpie Colcek is a newspaper reporter assigned to write an article about a mysterious blip that appears on NORAD's radar screen every Christmas Eve at 11:55 p.m. As he heads to interview a four-star general at Peterson Air Force Base in Colorado Springs, Harpie has no idea that what lies ahead is much more intriguing than what the radar techs call Santa's Ghost or Santa's Sleigh. After Harpie inadvertently discovers the landing site of a space ship, he sneaks aboard and is horrified to learn the commander and the passengers are the only humanoids. The crew and passengers are an advanced civilization fleeing the planet Rau because its sun is dying. The FBI and CIA believe the blip is an aircraft planting enemy spies and saboteurs on American soil. When Harpie reveals his discovery, chaos reigns throughout the world as militia groups and frightened citizens target anyone suspected to be an extraterrestrial disguised as a human. As a chain of events unfolds and a new world is revealed, the future of the human race hangs in the balance as superpowers prepare to unleash a plan with the potential to change everything. In this exciting science fiction tale, a newspaper reporter becomes intertwined with an advanced civilization from another planet as evil lurks in the shadows and threatens an apocalypse.

Dawn of Small Worlds Michael Moltenbrey, 2015-10-24 This book gives a detailed introduction to the thousands and thousands of smaller bodies in the solar system. Written for interested laymen, amateur astronomers and students it describes the nature and origin of asteroids, dwarf planets and comets, and gives detailed information about their role in the solar system. The author nicely reviews the history of small-world-exploration and describes past, current and future space craft missions studying small worlds, and presents their results. Readers will learn that small solar system worlds have a dramatically different nature and appearance than the planets. Even though research activity on small worlds has increased in the recent past many of their properties are still in the dark and need further research.

Stay Ian Newbegin, 2015-01-23 Frank, and his fellow operatives were kept busy on earth, protecting the inhabitants from each other, since many people were affected by mind altering rays, and these people were made to think that they were fighting for a cause. Janes, Kate, Chris and Louise continued to grow with their newly acquired powers which were far stronger than those of regular operatives. In fact, the group grew to twelve, four from another planet and they were soon involved with missions to protect both earth and particularly the planet Tishog. This group soon became known as the Hymaidem, and each member were sworn to secrecy because of their advanced powers. James discovers the Head Quarters for the Deltrum group on Earth, and helps to defuse its potential powers on Earth. Louise is held captive by the group and is saved with James help. Frank

learns of James involvement and orders him to never mind travel again, though he does not learn of James true potential. Disruption to civilisation on earth continues, thus keeping the operatives busy. However, it is soon learned that Tishog is a planet that is in grave danger of being invaded. The Hymaidem take action on this planet, and again later, with the operatives from earth, still, keeping their identity hidden. Tishog is saved but the activities on earth increase. The navy is involved with potential destruction of a major city, which requires intervention by the hymaidem. The army too is similarly affected, along with some towns. The operatives are kept very busy and Frank is called to a meeting of the Universal Council to explain what has transpired. Earth seems safe with the increased presence of Trellinian space ships, but why the increased action of mind alteration? Is earth the real target? This is what the operatives and Hymaidem had to solve.

Zetel, Biography of a Soul Sam Goldenberg, 2017-11-28 Zetel, a soul in Heaven, is fed up with waiting to be assigned a mortal body, so he decides to escape. The Almighty is not pleased at this, and orders his angels to retrieve him, but Zetel infuses the body of a premature baby—the son of a Jewish couple fleeing Nazi Germany in 1935. Unlike other souls, Zetel can remember and describe his origins and the celestial beings he knew, which alarms his parents, teachers, and family, who worry about his wild imagination. When the Almighty's angels hatch plots to recover him, he forms an alliance with the Devil and eventually grows up, marries, and has a successful career. However, with repeated attempts on his life, the tension mounts as the angels try to outwit Zetel and return him to the bonds of Heaven. Intelligent, ambitious and laugh-out loud-funny, Zetel: Biography of a Soul tells the satirical story of a rebel soul while juxtaposing the tragic events of World War II and the struggle of a Jewish family against the frivolous machinations of Heaven's forces.

The Planets Byron Preiss, 1989-11-01 Consists of essays by astronomers, speculations by science fiction authors, and illustrations by space artists.

Clash by Night, 2002 In this complex and profoundly imagined novella, exiles from Earth's atomic armageddon have journeyed to Venus. There, under the oceans, they have created competing civilizations called Keeps. Brian Scott, a Free Companion militiaman finds he must choose between loyalty and love in Kuttner's rigorous and visionary narrative published in 1943.

Flash Gordon - The Death Planet Dan Barry,

Worlds Without End John S. Lewis, 1998 Everything you ever wanted to know about planets: past, present, and future.

The Fatal Species Andrew Y. Glikson, 2021-06-24 This book presents a history which is nearing its nadir, where a species of warlike primates is destroying the delicate web of life perceived by Charles Darwin in *The Origin of Species*, committing a war against nature and the fastest mass extinction in the history of nature, with global temperatures incinerating the biosphere by several degrees Celsius, within a lifetime. Despite of this knowledge, Homo "sapiens" is proceeding to transfer every accessible molecule of carbon from the Earth crust to the atmosphere and hydrosphere, an auto-da-fe ensues of the terrestrial biosphere. As amplifying feedbacks to global warming—including fires, methane release, ice melt, and warming oceans—are intensifying, at a pace exceeding any recorded in the geological past, societies are pouring their remaining resources into wars. These include likely nuclear wars triggered by arsenals many thousands of missiles strong, posing an equal threat to human existence and that of many other species. Humans, having mastered fire, which allowed them to survive the extreme ice ages, have emerged in the current interglacial as major civilizations coupled with major bloodsheds, called "war", engulfing multitudes of innocent yet betrayed humans. Long suffering from illusions of omnipotence and omniscience, paranoid fears, a warlike mindset, aggression toward the animals and disrespect of females, coupled with artistic excellence and technical brilliance, humans have become victims to a tragic conflict between the mind and the heart, with fatal consequences.

The Ancient Gods; The Superheros of Our Planets C. P. Kiefer, 2019-10-24 A children's book that reveals the exciting relationship between Ancient Greek and Roman Gods and the Planets that were named after them. The book goes into detail on the fascinating characteristics of both the Gods and

the Planets and what makes them unique and is presented with both illustrations and text. Moreover, the reader will begin to understand the relationship between Ancient beings such as the Primordials, Titans and Gods of our ancient past.

Man and His Surroundings Fazil Iskander, 2023-05-09 Man and His Surroundings irreverently explores Soviet and post-Soviet identity, politics, and history. In what Iskander himself calls the book's seminal novella, the narrator meets a man who believes himself to be Lenin, thawed out after decades of cryogenic storage. The narrator endures a phantasmagorical account of what "Lenin" thought and did during the October Revolution of 1917 and how another revolution is imminent. In another novella, the narrator tells of a nationally renowned fencer as the fencer sits at a neighboring table, discussing the impossibility of equality on earth, while his son pesters him for ice cream. The novellas enrapture the reader with their humor and impart a better intuitive understanding of the Soviet cultural heritage and mindset.

Legend of the Galactic Heroes, Vol. 5: Mobilization Yoshiki Tanaka, 2017-11-21 Imperial forces have captured the Phezzan Dominion and draw ever closer to the Free Planets Alliance capital of Heinessen. Yang hurriedly abandons Iserlohn Fortress and heads for the capital to protect countless civilians. Taking out Reinhard is the alliance's only path to victory. Despite the empire's superior numbers, Yang continues to outwit its most resourceful generals via tactical wizardry. Reinhard, on the other hand, seeing through Yang's devices, opts for all-out war. And so, the "invincible" and "undefeated" once again clash swords. Who will emerge victorious? -- VIZ Media
