**Romania: Transylvania** Lucy Mallows, Paul Brummell, 2024-03-15 This new, fourth edition of Bradt's Romania: Transylvania remains the only standalone, full-length, English-language travel guidebook to Transylvania – the legendary, enchanting and increasingly popular region of Romania. Co-authored by former British Ambassador to Romania Paul Brummell, Romania: Transylvania has been thoroughly updated by prolific travel writer Tim Burford, who wrote his first Romania guide in 1991. Transylvania (the 'land beyond the forest') is a wild, wooded, intensely romantic region, filled with mountains and gorges, myths and legends, dragons, bears, wolves – and vampires. Bram Stoker called it 'one of the wildest and least-known parts of Europe', a description that remains true today. Comprehensive chapter-per-county coverage caters for a diverse range of interests, from city breaks to rural escapes, skiing to wildlife watching. One of the most beautiful regions in central Europe and home to three UNESCO World Heritage sites, Transylvania preserves its cultural and artistic treasures in a landscape bordered on three sides by the Carpathian Mountains, which provide Romania's finest skiing and hiking destinations. Hay meadows in the Lower Carpathians form a grassland ecosystem of extraordinary diversity, offering beautiful wildflower displays. The Carpathians are home too to lynx, wild boar and one of Europe's largest populations of brown bear. Other natural phenomena include the Scarisoara Ice Cave in the Apuseni Mountains and the Sfanta Ana volcanic crater lake in Harghita County. Transylvania's cultural riches include the Dacian fortresses of the Orastie Mountains, including Sarmizegetusa Regia, conquered by Roman Emperor Trajan in AD106. Historic Sighisoara is a picture-perfect medieval hill town. The fortified

churches of southern Transylvania are testament to the perils of life in medieval Saxon communities, subject to frequent attacks from Ottoman raiders. The historic cities of Cluj, Sibiu and Brasov are rightly feted (and host internationally renowned film, electronic music and theatre festivals). At Turda's salt mine, you can ride the big wheel in an underground amusement park. And, if you're inspired by the Hotel Transylvania or Twilight films, why not follow the Dracula trail, visiting sites linked to Bram Stoker's novel? Whatever your interests, with Bradt's Romania: Transylvania, you can discover the region's many and varied attractions.

**Romania as a Tourist Destination and the Romanian Hotel Industry** Smaranda Cosma, Adina Negrusa, Cornelia Pop, 2008-12-18 By the end of the 1970s Romania tourism was blooming and the hotel industry appeared to be strong and healthy... That bright period is still vivid in the minds of several generations of Romanians including the present politicians, who believed that foreign tourists did not forget their time spent in Romania, experiencing its beautiful landscapes and Romanians' traditional hospitality. In this respect, the book's aim is to analyse the evolution of the Romanian tourism and hotel industry after 1990s until now. Does Romanian tourism reach the level of development from the golden age of 1970s? How well developed is the Romanian hotel industry? Has Romania managed to build a country brand and differentiate with certain forms of tourism from other countries competing in this area? By addressing and debating these issues the book Romania as a tourist destination and the Romanian hotel industry is must reading for

practioners in the tourism business, like business managers, owners, consultants, corporate financiers, private investors and should also be of particular interest to academic community especially students in the business and tourism subject related areas.

**Romania** International Monetary Fund. European Dept.,2022-09-26 Selected Issues Journal of Cultural Management and Cultural Policy/Zeitschrift für Kulturmanagement und Kulturpolitik Constance DeVereaux,Steffen Höhne,Martin Tröndle,2020-07-31 The Journal of Cultural Management and Cultural Policy offers international perspectives on a wide range of issues in cultural management and cultural policy research and practice. Revisiting the conceptual and theoretical foundations that have informed discourses, research, and cultural policy development on creative cities to date, this issue offers perspectives on creativity off the beaten path. The contributions provide critical reflections on different notions and narratives of creativity, examine the potential and downsides of creativity as a development tool, and integrate perspectives from cities and regions that are often overlooked in the Anglo-Saxon-dominated creativity discourse. Researchers and policymakers who are new to the field of creative cities will gain useful insights into theories and methods on creative city discourse, and those who are already knowledgeable in the field will be provided with fresh ideas and voices that pose the potential to reframe and rethink the role of creativity in theory and practice.

**Some Chairs. Broken Chairs.** Yike Guo, 2013-05-14 *Some Chairs. Broken Chairs* is a 2013 memoir written by Yike Guo. The Author describes in this memoir his own experiences in the most recent two years participating in student conferences simulating the working procedures, negotiations across Europe, notably Model United Nations conferences (Model UN) and simulations of the EU and NATO. He took various roles and travelled to a wide range of countries, while managing to also study in his home town. He also possesses a frevent interest in international relations, human rights, diplomacy, art and cultures, among others. This memoir does not only reflect moments that were daunting and frustrating, but also those who were exceptionally rewarding and memorable. The author decided to immortalize some of the prominent and best moments in his life until then in this book. However, for many reasons, though worked hard on it, he could not cover everything in greater depth. The author provided more fragments of personal collection full of memories, anecdotes and expositions, but also some stories behind the scenes, expectations and realities, comedies and tragedies, and about his job rather than a patterned guidebook for everyone. Yike Guo wrote about some people who inspired and changed him, and gave insights to people wishing to find out more about

what a Model conference is looking like, what one could learn and which motivation he had. The memoir contains also a great range of selections of position papers, articles and post-conference reports by his friends presenting the readership a different view than the author's own. Starting with his first conference two years ago, the author mostly chronologically listed his journeys and events and ended in April 2013, having gone and thrived at some twenty of the most prestigious and meritorious European conferences, projects and dialogues.

**Insidious Capital** Don Kalb, 2024-01-05 With a team of anthropologists and geographers, *Insidious Capital* explores value and values in what may well be the last phase of capitalist globalization. In a global perspective of fast transforming social spaces that move from East to West, the book explores the struggles around the exploitation and valuation of labor, environmental politics, expansion of the ground rent, new hierarchies, the contradictions of higher education, the off shoring of immaterial labor, the illiberal right, and the mobilizations against it. This is a book about the variegated frontlines of value within an uneven, but not random, geography of capitalist expansion.

The Routledge Handbook of the Anthropology of Labor Sharryn Kasmir, Lesley Gill, 2022-06-01 The Routledge Handbook of the Anthropology of Labor offers a cross-cultural examination of labor around the world and presents the breadth of a growing and vital subfield of anthropology. As we enter a new crisis-ridden age, some laboring people are protected, while others face impoverishment and death, as they work in unsafe conditions, migrate to gain livelihoods, languish in the unwaged sector, and become targets of law enforcement. The contributions to this volume address questions surrounding the categorization and visibility of work, the relationship of labor to the state, and how divisions of labor map onto racial, gendered, sexual, and national inequalities. In addition to the emotional dimensions and subjectivities of labor, the book also examines how laborers can articulate common experiences and identities, build organizational forms, and claim power together. Bringing together the work of an impressive group of international scholars, this Handbook is essential for anthropologists with an interest in labor and political economy, as well as useful for scholars and students in related fields such as sociology and geography.

**Spaces and Places in Central and Eastern Europe** Gyula Horváth, 2014-08-21 Across Europe there is a rapidly changing context for undertaking regional development. In the 20th century, development of the former planned economies (Bulgaria, Czech Republic, Hungary, Poland, Romania and Slovakia), was defined by these countries differences, rather than their common ideological roots. These disparities altered over

time and were marked by changing social structures. However, the ranking of regions has remained the same as core areas have strengthened their positions while the structural obstacles to the modernisation of peripheral areas have remained due to a lack of coherent regional policy. This book examines the specific regional development paths of Central and Eastern European countries and evaluates the effects of the determining factors of this process. Through analysis of the system of objectives, instruments and institutions used in different eras, and case studies of Hungary, East Germany and Germany, development models are established and compared with Western European patterns. The book summarises the experiences of Central and Eastern European regional cooperation and examines the basic nature of the cohesion problems of the Carpathian Basin trans-national macro region. It confirms by comparative historical analyses that the transformation was indeed unique. This book will make a welcome addition to the literature for students and academics interested in the broader picture of Central and Eastern European politics, future integration within the European Union and the history of regional development processes.

The Tectonics of Structural Systems Yonca Hurol,2015-09-16 The Tectonics of Structural Systems provides an architectural approach to the theory of structural systems. The book combines: structural recommendations to follow during the architectural design of various structural systems and the tectonic treatment of structural recommendations in architecture. Written expressly for students, the book makes structures understandable and useful, providing: practical and useful knowledge about structures a design based approach to the subject of structures and a bridge in the gap between structures and the theory of design. Good architectural examples for each structural system are given in order to demonstrate that tectonics can be achieved by applying technical knowledge about structures. Over 300 illustrations visually unpack the topics being explained, making the book ideal for the visual learner.

*Air Transport and its Subsidies* Friedrich Thießen,2022-08-26 The book deals with the subsidies of air transport. It shows which subsidies are used to promote air transport and how the subsidies influence the various segments of air transport. The types of subsidies dealt with correspond to the OECD's delimitation. In addition to tax breaks and transfers, capital subsidies, infrastructure subsidies, regulatory deficits and non-internalised externalities are also included. The areas of air transport in which subsidies are identified are airports, airlines and air traffic control. Furthermore, aircraft manufacturers and research as well as air transport regulation, the behaviour of MPs and airport-related

infrastructure are dealt with. The subject is of general and long-term interest. The book is the most comprehensive and systematic compilation of subsidies available. The result is that air transport is permeated by a largely uncoordinated system of subsidies in all its areas, the overall effects of which have not been recorded until today.

**The European Union in the Age of (In)Security** Claudia Anamaria Iov, 2022-01-21  
In the spirit of Jean Monnet's desire to "Continue, continue, there is no future for the people of Europe other than in union", this volume analyses the process of European construction, paving a road to the United States of Europe. It focuses on the challenges and issues the Union is currently facing, from illegal migration, to the refugee crisis, fake news, populism, insecurity, the Eastern Partnership, and the COVID-19 pandemic. For the European Union's citizens, security was, is, and will remain a top priority. The book is part of a constructivist approach with a dynamic perspective on the political, social, economic, military and societal, where the actors and the system structure are interconnected. It will appeal to students, professors, researchers, stakeholders, politicians, and specialists on international relations and security studies, as well as the general public interested in the evolution of the European Union, today's challenges and tomorrow's opportunities.
