**The British Television Pilot Episodes Research Guide 1936-2015** Christopher Perry,2015-12 A new idea can become an expensive flop for TV executives. So from the earliest days of television, the concept of a pilot episode seemed like a good idea. Trying out new actors; new situations and new concepts before making a series was good economical sense. It was also tax deductible. Sometimes these pilots were shown on television; sometimes they were so awful they were hidden from sight in archives; and sometimes they were excellent one-offs, but a series seemed elusive and never materialised. Chris Perry has always been fascinated by the pilot episode. So many pilots are made annually, but never seen by audiences. Only a handful appear on screen. It's a hidden world of comedy, variety, drama and factual programming. This volume attempts to lift the lid on the world of the TV pilot by revealing the many transmitted and untransmitted episodes made through the decades.

*A Sense of Community* Ann-Gee Lee,2014-05-19 Television's *Community* follows the shenanigans of a diverse group of traditional and nontraditional community college students: Jeff Winger, a former lawyer; Britta Perry, a feminist; Abed Nadir, a pop culture enthusiast; Shirley Bennett, a mother; Troy Barnes, a former jock; Annie Edison, a naïve overachiever; and Pierce Hawthorne, an old-fashioned elderly man. There are also Benjamin Chang, the maniacal Spanish teacher, and Craig Pelton, the eccentric dean of Greendale Community College, along with well-known guest stars who play troublemaking students, nutty professors and frightening administrators. This collection of fresh essays familiarizes readers not only with particular characters and popular episodes, but behind-the-scenes aspects such as screenwriting and production techniques. The essayists explore narrative theme, hyperreality, masculinity, feminism, color blindness, civic discourse, pastiche, intertextuality, media consciousness, how *Community* is influenced by other shows and films, and how fans have contributed to the show.

Philosophy and Community Amanda Fulford,Grace Lockrobin,Richard Smith,2020-01-09 'Why should we care about philosophy?' Public philosophy, or 'doing philosophy' in the community, is an important and growing trend – revealed not only by the phenomenon of the Parisian philosophy café, but also the contemporary rise of multiple grassroots projects, for example the Philosophy in Pubs movement. This book is the first to offer academic examination of the theoretical contributions and practical applications of community philosophy. Bringing together voices from diverse contexts and subject areas, from activism and political action to religious environments, arts organisations and museums to maximum security prisons, this collection asks key questions about the point of making philosophy available for everyone: 'How do you “do philosophy” with the public?'; 'Is philosophy in the community the same as academic philosophy?'; 'Why is community philosophy important?' Including contributions from practitioners and researchers from professional philosophy, education, healthcare, and community philosophy, this collection offers perspectives on a growing area of study. It offers a timely and critical introduction to, and analysis of, what philosophy can be when grounded in socially-engaged activities.

This discussion encapsulates pre-hiring practices, and principles regarding CEO selection, onboarding, various board membership constructions (both appointed and elected), and new dimensions of board governance that emphasize competition, agility, transparency, effectiveness, and new business models. The discussion also includes elements of policy and by-law design, intentional governance design and development, committee structures and use, parliamentary procedures, meeting construction and effectiveness, CEO contracts and evaluation, board self-evaluation, generative thinking and planning, transparency and addressing board and organizational challenges. Given that transitioning to a new, enhanced or blended governance model can be difficult, the book will offer suggestions and guidance about how to move toward a more preferred, effective model. This component will include tools, such as a strategy canvas, and other processes to assist boards in addressing questions along the way, such as how and where to begin, how to evaluate the efficacy of the current model and how to structure the transition process and the timing thereof.
