Beneath Roland Smith, 2015-01-27 Roland Smith, the master of middle-grade adventure, returns with a new novel full of high-speed chases, secret identities, and a dangerous underground world. What waits Beneath? Pat O'Toole has always idolized his older brother, Coop. He's even helped Coop with some of his crazier plans -- such as risking his life to help his big brother dig a tunnel underneath their neighborhood in the suburbs of Washington, DC. Coop is . . . different. He doesn't talk on the phone, doesn't use email, and doesn't have friends. He's never really cared for anything but the thrill of being underground and Pat. So it's no surprise to anyone -- even Pat -- that after a huge fight with their parents, Coop runs away. Exactly one year later, Pat receives a package containing a digital voice recorder and a cryptic message from his brother. He follows the clues to New York City, and soon discovers that Coop has joined the Community, a self-sufficient society living beneath the streets. Now it's up to Pat to find his brother -- and bring him home.

Spouse in the House Cynthia Ruchti, Becky Melby , 2021-09-21 A frank and funny look at what to do when together is too close Two's company, especially for those who love each other. So what happens when--due to retirement, working from home, or even running a business together--spouses find that being in the same space all the time is awkward, complex, annoying, and just plain challenging? How can partners coexist without co-exhausting each other? Cynthia Ruchti and Becky Melby know all too well how adjusting to a new, all-the-time closeness can cause the bliss of marriage to form blisters. Drawing from their experiences, and from men and women across the country in the same situation, the authors take a deep breath and dive into the root causes. They dig into the ways God's Word has to say, and they offer practical tips for learning the spiritual, emotional, relational, and even physical steps that can help readers replace irritation with peace. For any Christian who wants their home to be a refuge of peace and serenity for all—not just themselves—and who wants to know they aren't alone in the mental and physical claustrophobia of too much togetherness, *Spouse in the House* is a vulnerable, charming, and pragmatic breath of hope.

Age of the Geek Kathryn E. Lane, 2017-10-29 This collection examines the nerd and/or geek stereotype in popular culture today. Utilizing the media—film, TV, YouTube, Twitter, fiction—that often defines daily lives, the contributors interrogate what it means to be labeled a “nerd” or “geek.” While the nerd/geek that is so easily recognized now is assuredly a twenty-first century construct, an examination of the terms’ history brings a greater understanding of their evolution. From sports to slasher films, *Age of the Geek* establishes a dialogue with texts as varied as the depictions of “nerd” or “geek” stereotypes.

Book Nerd Holly Maguire, 2021-04-13 You know you’re a Book Nerd when... —You have a minimum of 5 books on your night table. —You never thought one the movie was better. —Your favorite mug says “I’d rather be reading.” —You use words like librocubicularist in casual conversation (though no conversation about books is ever casual”). Charming, affectionate, and unabashed in its celebration of bookishness, this little love letter is for every avid reader.

Move Fast Jeff Meyerson, 2021-06-10 Over the last fifteen years, every major aspect of our lives has changed because of Facebook. You may not like Facebook, but you can't deny its success. And to a large degree, that success stems from the move fast ethos. The entire culture of Facebook is built for speed. *Move Fast* is an exploration of modern software strategies and tactics through the lens of Facebook. Relying on in-depth interviews with more than two dozen Facebook engineers, this book explores the product strategy, cultural principles, and technologies that made Facebook the dominant social networking company. Most importantly, *Move Fast* investigates how you can apply those strategies to your creative projects. It's not easy to build a software company, but once you know how to move fast, your company will be prepared to build a strategy that benefits from the world's rapid changes, rather than suffering from them.

Level Up Your Life Steve Kamb, 2016-01-12 In 5 years, Steve Kamb has transformed himself from wanna-be daydreamer into a real-life superhero and actually turned his life into a gigantic video game: flying stunt planes in New Zealand, gambling in a tuxedo at the Casino de Monte-Carlo, and even finding Nemo on the Great Barrier Reef. To help him accomplish all of these goals, he built a system that allowed him to complete quests, take on boss battles, earn experience points, and literally level up his life. If you have always dreamed of adventure and growth but can't seem to leave your hobbit-hole, *Level Up Your Life* is for you. Kamb will teach you exactly how to use your favorite video games, books, and movies as inspiration for adventure rather than an escape from the grind of everyday life. Hundreds of thousands of everyday Joes and Jills have joined Steve's Rebellion through his popular website, NerdFitness.com, and leveled up their lives—losing weight, getting stronger, and living better. In *Level Up Your Life*, you'll meet more than a dozen of these members of The Rebellion: men and women, young and old, single and married, from all walks of life who have created superhero versions of themselves to live adventurously and happily. Within this guide, you'll follow in their footsteps and learn exactly how to:

- Create your own “Alter Ego” with real-life super powers
- Build your own Epic Quest List, broken into categories and difficulty levels
- Hack your productivity habits to start making progress
- Train your body for any adventure
- Build in rewards and accountability that will actually motivate you to succeed
