

Progress in Computing, Analytics and Networking Prasant Kumar Pattnaik, Siddharth Swarup Rautaray, Himansu Das, Janmenjoy Nayak, 2018-04-10 The book focuses to foster new and original research ideas and results in three broad areas: computing, analytics, and networking with its prospective applications in the various interdisciplinary domains of engineering. This is an exciting and emerging interdisciplinary area in which a wide range of theory and methodologies are being investigated and developed to tackle complex and challenging real world problems. It also provides insights into the International Conference on Computing Analytics and Networking (ICCAN 2017) which is a premier international open forum for scientists, researchers and technocrats in academia as well as in industries from different parts of the world to present, interact, and exchange the state of art of concepts, prototypes, innovative research ideas in several diversified fields. The book includes invited keynote papers and paper presentations from both academia and industry to initiate and ignite our young minds in the meadow of momentous research and thereby enrich their existing knowledge. The book aims at postgraduate students and researchers working in the discipline of Computer Science & Engineering. It will be also useful for the researchers working in the domain of electronics as it contains some hardware technologies and forthcoming communication technologies.

Unveiling Jazbaa Aayush Puthran, 2022-07-14 Shortlisted for the Sunday Times Cricket Book of the Year 2023 Jazbaa – Definition: spirit, feeling, passion, desire, sentiment, emotion In 1996, Shaiza Khan led a Pakistan team on a tour of New Zealand and Australia. While the tour was a failure on the cricketing front, the singular act of eleven women wearing flannels and battling for victory in the faraway antipodes was a significant achievement. These women had – individually and collectively – worked to throw off the shackles of social and cultural decrees that had conspired to keep Pakistani women away from sport for years. Even more importantly, these players were harbingers of change who became heroic role models for women back home and all around the world. *Unveiling Jazbaa* tells the story of Pakistan's women's cricket, detailing the extraordinary journey the players have been on to bring about change both in their country and in the sport itself. This is a tale told through the lens of society and politics, of personal battles and triumphs against the odds, of friendships and rivalries, of favours and revenge. Above all else, it is story of bravery and unerring will and a moving testimony to power of the human spirit. Foreword by Kamila Shamsie 'Compelling, ambitious, beautifully written and about so much more than cricket' – Tim Wigmore, The Telegraph and author of the multiple award-winning *emCricket 2.0*

Proceedings of Data Analytics and Management Deepak Gupta, Zdzislaw Polkowski, Ashish Khanna, Siddhartha Bhattacharyya, Oscar Castillo, 2021-11-21 This book includes original unpublished contributions presented at the International Conference on Data Analytics and Management (ICDAM 2021), held at Jan Wyzykowski University, Poland, during June 2021. The book covers the topics in data analytics, data management, big data, computational intelligence, and communication networks. The book presents innovative work by leading academics, researchers, and experts from industry which is useful for young researchers and students.

Not Out! Desh Gaurav Sekhi, 2016-04-05 Chronicling the Indian Premier League (IPL), India's first sports league and the most controversial ever, this book explores the intricacies of the business and the acceptability of the IPL to take a closer look at the various scams that have plagued it. It is a blow-by-blow description of the highs, lows, and future of the IPL that has, possibly, redefined the way the rest of the world perceives India. It analyses what the league got right and what it has got wrong and why. And, what the IPL and its owner/promoter—the Board of Control for Cricket in India (BCCI)—could have done to sell the sport and build on the popularity of cricket in India, but didn't. Analysing the spot-fixing scandal, the conflict of interest controversy, the specific issues concerning the teams, the complicated interplay between the BCCI and the IPL, this thought-provoking work brings to light many untold stories of cricket in India.

The Cricket Terminology: All about Cricket Terms Chetan Singh, 2023-10-22 Are you a cricket enthusiast who's passionate about the gentleman's game? Do you find yourself immersed in the thrilling world of cricket, but sometimes puzzled by the jargon and terminology used by experts and commentators? Whether you're a seasoned cricket fan or just getting started with the sport, *The Cricket Terminology: All about Cricket Terms* is your ultimate guide to unraveling the mysteries of cricket's unique language. This cricket vocabulary book delves deep into the heart of cricket's lexicon, breaking down the often complex terminology into simple, easy-to-understand explanations. No longer will you be left scratching your head when terms like LBW, googly, gully, or Yorker are mentioned during a match. The cricket terms is more than just a glossary. It's your passport to a deeper appreciation of the sport and a gateway to becoming a true cricket aficionado. Whether you're a player, coach, commentator, or just a cricket lover, this Cricket term book will enrich your experience and make you feel like an insider in the world of cricket. Take your passion for cricket to the next level and ensure you're always in the know with this invaluable reference guide. Dive into the captivating world of cricket terminology today and experience the game like never before.

Indian Media Giants Surbhi Dahiya, 2022-04-30 *Indian Media Giants* is an analytical chronicle of six Indian mega media conglomerates' individual odyssey from their beginnings in the pre-independence era to their transformation into powerful business empires in the digitised modern India. The book traces media metamorphoses, contours of growth and development, travails and trajectories, organizational structures, editorial policies and business dynamics of print majors in India, namely, The Times Group, The Hindu Group, The Hindustan Times Limited, The Indian Express Group, Dainik Jagran Limited and DB Corp Limited.

Emerging Technologies in Data Mining and Information Security Ajith Abraham, Paramartha Dutta, Jyotsna Kumar Mandal, Abhishek Bhattacharya, Soumi Dutta, 2018-12-12 This book features research papers presented at the International Conference on Emerging Technologies in Data Mining and Information Security (IEMIS 2018) held at the University of Engineering & Management, Kolkata, India, on February 23-25, 2018. It comprises high-quality research work by academicians and industrial experts in the field of computing and communication, including full-length papers, research-in-progress papers, and case studies related to all the areas of data mining, machine learning, Internet of Things (IoT) and information security.

Global Corruption Report: Sport Transparency International, 2016-02-05 Sport is a global phenomenon engaging billions of people and generating annual revenues of more than US\$ 145 billion. Problems in the governance of sports organisations, fixing of matches and staging of major sporting events have spurred action on many fronts. Yet attempts to stop corruption in sport are still at an early stage. The Global Corruption Report (GCR) on sport is the most comprehensive analysis of sports corruption to date. It consists of more than 60 contributions from leading experts in the fields of corruption and sport, from sports organisations, governments, multilateral institutions, sponsors, athletes, supporters, academia and the wider anti-corruption movement. This GCR provides essential analysis for understanding the corruption risks in sport, focusing on sports governance, the business of sport, planning of major events, and match-fixing. It highlights the significant work that has already been done and presents new approaches to strengthening integrity in sport. In addition to measuring transparency and accountability, the GCR gives priority to participation, from sponsors to athletes to supporters an essential to restoring trust in sport.

Introduction to 2023 Indian Premier League Gilad James, PhD, The Indian Premier League (IPL) is one of the most popular Twenty20 cricket leagues in the world. It began in 2008 and has since become a global sensation with millions of cricket fans tuning in every year to watch some of the best players from around the world compete against each other. The 2023 IPL promises to be another exciting tournament with a lot of buzz around which teams will make it to the top. One of the most talked-about changes for the 2023 IPL is the introduction of two new teams, bringing the total number of franchises up to 10. This addition will create more

opportunities for players and create new rivalries within the league. The 2023 IPL will also be taking place just before the T20 World Cup, and teams will be looking to gather momentum and test their strongest lineups before the tournament. It will be interesting to see how players perform on Indian pitches, with spin bowling being a vital aspect of the game in India. Overall, the 2023 IPL promises to be an exciting tournament with a lot of talent on display, new teams, and intense rivalries.

Proceedings of International Conference on Recent Trends in Machine Learning, IoT, Smart Cities and Applications Vinit Kumar Gunjan, Jacek M. Zurada, 2020-10-17 This book gathers selected research papers presented at the International Conference on Recent Trends in Machine Learning, IoT, Smart Cities & Applications (ICMISC 2020), held on 29-30 March 2020 at CMR Institute of Technology, Hyderabad, Telangana, India. Discussing current trends in machine learning, Internet of things, and smart cities applications, with a focus on multi-disciplinary research in the area of artificial intelligence and cyber-physical systems, this book is a valuable resource for scientists, research scholars and PG students wanting to formulate their research ideas and find the future directions in these areas. Further, it serves as a reference work for anyone wishing to understand the latest technologies used by practicing engineers around the globe.

ICT Systems and Sustainability Milan Tuba, Shyam Akashe, Amit Joshi, 2022-01-04 This book proposes new technologies and discusses future solutions for ICT design infrastructures, as reflected in high-quality papers presented at the 6th International Conference on ICT for Sustainable Development (ICT4SD 2021), held in Goa, India, on 5-6 August 2021. The book covers the topics such as big data and data mining, data fusion, IoT programming toolkits and frameworks, green communication systems and network, use of ICT in smart cities, sensor networks and embedded systems, network and information security, wireless and optical networks, security, trust, and privacy, routing and control protocols, cognitive radio and networks, and natural language processing. Bringing together experts from different countries, the book explores a range of central issues from an international perspective.

Twenty20 and the Future of Cricket Chris Rumford, 2013-09-13 Cricket is a sport which is currently undergoing a rapid and dramatic transformation. Traditionally thought of as an English summer game, limited in appeal to Britain and its Commonwealth, cricket has, in the past few years, achieved a global profile. This is largely due to the development of a new TV-friendly format of the game: Twenty20 cricket. Indeed, through the economic and media interests promoting the Indian Premier League (IPL), the world's richest Twenty20 tournament, cricket has belatedly 'gone global'. The rapid rise of the IPL underlines that the economic and political characters within cricket are no longer the traditional elites in metropolitan centres but the businessmen of India and the media entrepreneurs world-wide who seek to shape new audiences for the game and create new marketing opportunities on a global scale. The contributions in this book fall into two broad categories. There are firstly those which explore the rapid growth of Twenty20, particularly the motors of change and the new directions that cricket is taking as a result of the Twenty20 revolution. Secondly, there are a number of contributions which chart the impact of Twenty20 on traditional elements of the game. This book was originally published as a special issue of *Sport in Society*.

Doping in Non-Olympic Sports Lovely Dasgupta, 2021-09-30 This book is the first of its kind to discuss doping within Non-Olympic Sports. Sports like American football, cricket and dance sports have, in recent years, been in the news for doping activities. The scale of the incidents may differ in each of these sports, but they present interesting questions about the legitimacy of the World Anti-Doping Agency (WADA) Code. *Doping in Non-Olympic Sports: Challenging the legitimacy of WADA?* argues against the International Olympic Committee (IOC)-run regime where WADA Code compliance is used as the only parameter to define an activity as a sport. The book argues that the definition of modern sport is based on certain factors identified through sociological and historical research. These parameters are common across the board and do not distinguish between Olympic and Non-Olympic sports. However, the use of the word Olympic in the Non-Olympic sport terminology subjects such sports to IOC dictates. Consequently, the IOC exploits its monopoly over the word Olympics to insist on WADA Code compliance. The numerous instances of doping, as reported, go on to prove that WADA is turning a blind eye to these Non-Olympic sports. This book is the first to dissect the issue of doping within Non-Olympic sports and questions the very idea of WADA compliance as a condition precedent to defining sports going on to highlight the inbuilt inequity within the existing anti-doping system wherein a private regime is usurping the State's discretion. The new, cutting edge research book is key reading for academics and researchers in the fields of Coaching, Sport Pharmacology, Sport Medicine, Sports Law, and the related disciplines.

The SAGE Handbook of Sports Economics Paul Downward, Bernd Frick, Brad R. Humphreys, Tim Pawlowski, Jane E. Ruseski, Brian P. Soebbing, 2019-08-26 Sports economics is a well-established and dynamic area of study; a key component in the fields of sport management, sport science and sport studies, as well as in other areas of economics, finance and management. Covering amateur to professional sports, individual events and organised tournaments, this Handbook provides an authoritative contribution to the understanding of sport in the economy. The editors of *The SAGE Handbook of Sports Economics* have brought together a global team of respected scholars to create this benchmark collection of insights into sports economics. Each chapter includes a study of a specific context in which issues arise in sports economics, a critical presentation of its main theoretical contributions, an overview of current research findings, and an outline of enquiry for future research. PART I: The Nature and Value of the Sports System and Economy PART II: Amateur Sports Participation, Supply and Impact PART III: Professional Team Sports PART IV: Professional Sports Leagues PART V: Sports Events and their Impacts PART VI: Individual Sports PART VII: Future Research

Somaesthetics and Sport, 2022-04-04 The contributors to *Somaesthetics and Sport* explore our embodied experiences of watching and playing sport, including sport's beauty; the place of exercise in our sense of living a good life; and how we cope with pain and suffering.

Take the Chance: Don't Say No If You Can Say Yes Rakesh Dewan, 2022-11-05 Saying 'Yes' when one is tempted to say 'No' is a definite way of moving out of one's comfort zone and attracting new outcomes. Saying 'Yes' to living life is the biggest treasure of all and is the soul of this book and its inspiration. A determined 'Yes' as against the habitual 'No' is the choice that often changes the course of our lives. It is the 'Yes' that allows relationships, love and life to blossom. In the ordinary, you may discover the extraordinary.

Management of the Cricketing Ecosystem Subhasis Ray, 2022-11-04 This book is a culmination of sustained research work on the evaluation of cricket and its management to imbibe a balance between its various formats by using data and analytics. The book has identified three primary stakeholders—administrators, players and spectators—each having their own ambitions. In order for convergence of these ambitions, it has prescribed the networked governance in place of hierarchic governance for the International Cricket Council (ICC), the cricket's apex body. This book aims at creating a balance between formats that each country should play. There is as much dearth of academic research on this topic, as there is abundance of individual viewpoints from professionals related to the game. Hence at the outset, the book has created action points and has underlined the lack of convergence with the present way of governance. This book has created a meta-metric framework for formative assessment of influence across cricket formats. In order to assess the influence of T20 on test matches and on India's performance, a comparison between pre-IPL period (1998-2007) and post-IPL period (2008-2017) by using this framework has been done.

Limitless Nishad Pai Vaidya, Sachin Bajaj, 2022-11-19 The year 2007 was game-changing for Indian cricket. In March that year, Indian cricket was rocked by the early exit at the 50-over World Cup in the Caribbean. However, in the months ahead, the team picked up the pieces and charted a path to recovery. In the backdrop was the ICC

World T20 2007 – the first ever world championship in the format. India opted to back the youngsters, led by Mahendra Singh Dhoni. There were no expectations or the pressure of history. In South Africa, MS Dhoni and his men dazzled the public and clinched victory in a dramatic final against arch-rivals Pakistan. A lot happened on and off the field in the months between India's nadir and zenith that year. This book explores those events and recounts how Indian cricket changed in those months. The ripple effects of that victory are felt even today as India's cricket loving public embraced T20 cricket and created a big market for the format.

An Island's Eleven Nicholas Brookes,2022-12-12 From Sathasivam to Sangakkara, Murali to Malinga, Sri Lanka can lay claim to some of the world's most remarkable cricketers – larger-than-life characters who thumbed convention and played the game their own way. More so than anywhere else in the world, Sri Lankan cricket has an identity. This is the land of pint-sized swashbuckling batsman, on-the-fly innovators and contorted, cryptic spinners. On the field of play, Victorian ideals of the past collide with madcap tropical hedonism to create something dizzying. Cricket is Sri Lanka, and Sri Lanka is cricket. We all know the story of the '96 World Cup: how a team of unfancied amateurs rose from obscurity to the top the world, doing so with such swagger that they changed the way the game was played. Yet the lore of Sri Lankan cricket stretches back much further. In the early days, matches between colonists and locals imbued cricket with a nationalistic drive. Ashes-bound ships stopping over in Colombo brought the world's biggest stars, from Bligh and Bradman to Grace and Grimmet. More recently, Sri Lanka has had to face the triumphs and tragedies that come when cash flows freely into the gentleman's game. *An Island's Eleven* tells this story for the first time, focusing on the characters and moments that have shaped the game forever.

Data Management, Analytics and Innovation Neha Sharma,Amlan Chakrabarti,Valentina Emilia Balas,Jan Martinovic,2020-09-18 This book presents the latest findings in the areas of data management and smart computing, big data management, artificial intelligence and data analytics, along with advances in network technologies. Gathering peer-reviewed research papers presented at the Fourth International Conference on Data Management, Analytics and Innovation (ICDMAI 2020), held on 17-19 January 2020 at the United Services Institute (USI), New Delhi, India, it addresses cutting-edge topics and discusses challenges and solutions for future development. Featuring original, unpublished contributions by respected experts from around the globe, the book is mainly intended for a professional audience of researchers and practitioners in academia and industry.

Cricbuzz Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled **"Cricbuzz,"** written by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound affect our existence. Throughout this critique, we will delve in to the book is central themes, evaluate its unique writing style, and assess its overall influence on its readership.
