Curiosity and Wonder from the Renaissance to the Enlightenment R.J.W. Evans,2017-03-02 'Curiosity' and 'wonder' are topics of increasing interest and importance to Renaissance and Enlightenment historians. Conspicuous in a host of disciplines from history of science and technology to history of art, literature, and society, both have assumed a prominent place in studies of the Early Modern period. This volume brings together an international group of scholars to investigate the various manifestations of, and relationships between, 'curiosity' and 'wonder' from the 16th to the 18th centuries. Focused case studies on texts, objects and individuals explore the multifaceted natures of these themes, highlighting the intense fascination and continuing scrutiny to which each has been subjected over three centuries. From instances of curiosity in New World exploration to the natural wonders of 18th-century Italy, *Curiosity and Wonder from the Renaissance to the Enlightenment* locates its subjects in a broad geographical and disciplinary terrain. Taken together, the essays presented here construct a detailed picture of two complex themes, demonstrating the extent to which both have been transformed and reconstituted, often with dramatic results.

Art and Curiosity Cabinets of the Late Renaissance Julius von Schlosser,2021-01-19 For the first time, the pioneering book that launched the study of art and curiosity cabinets is available in English. Julius von Schlosser's *Die Kunst- und Wunderkammern der Spätrenaissance* (Art and Curiosity Cabinets of the Late Renaissance) is a seminal work in the history of art and collecting. Originally published in German in 1908, it was the first study to interpret sixteenth- and seventeenth-century cabinets of wonder as precursors to the modern museum, situating them within a history of collecting going back to Greco-Roman antiquity. In its comparative approach and broad geographical scope, Schlosser's book introduced an interdisciplinary and global perspective to the study of art and material culture, laying the foundation for museum studies and the history of collections. Schlosser was an Austrian professor, curator, museum director, and leading figure of the Vienna School of art history whose work has not achieved the prominence of his contemporaries until now. This eloquent and informed translation is preceded by Thomas DaCosta Kaufmann's substantial introduction. Tracing Schlosser's biography and intellectual formation in Vienna at the turn of the twentieth century, it contextualizes his work among that of his contemporaries, offering a wealth of insights along the way.
