Aboriginal Customary Law: A Source of Common Law Title to Land Ulla Secher,2014-12-01 Described as 'ground-breaking' in Kent McNeil's Foreword, this book develops an alternative approach to conventional Aboriginal title doctrine. It explains that aboriginal customary law can be a source of common law title to land in former British colonies, whether they were acquired by settlement or by conquest or cession from another colonising power. The doctrine of Common Law Aboriginal Customary Title provides a coherent approach to the source, content, proof and protection of Aboriginal land rights which overcomes problems arising from the law as currently understood and leads to more just results. The doctrine's applicability in Australia, Canada and South Africa is specifically demonstrated. While the jurisprudential underpinnings for the doctrine are consistent with fundamental common law principles, the author explains that the Australian High Court's decision in Mabo provides a broader basis for the doctrine: a broader basis which is consistent with a re-evaluation of case-law from former British colonies in Africa, as well as from the United States, New Zealand and Canada. In this context, the book proffers a reconceptualisation of the Crown's title to land in former colonies and a reassessment of conventional doctrines, including the doctrine of tenure and the doctrine of continuity. 'With rare exceptions ... the existing literature does not probe as deeply or question fundamental assumptions as thoroughly as Dr Secher does in her research. She goes to the root of the conceptual problems around the legal nature of Indigenous land rights and their vulnerability to extinguishment in the former colonial empire of the Crown. This book is a formidable contribution that I expect will be influential in shifting legal thinking on Indigenous land rights in progressive new directions.' Information Modelling and Knowledge Bases XXIII J. Henno,Y. Kiyoki,T. Tokuda,2012-01-18 Information modelling and knowledge bases have become hot topics, not only in academic communities concerned with information systems and computer science, but also wherever information technology is applied in the world of business. This book presents the proceedings of the 21st European-Japanese Conference on Information Modelling and Knowledge Bases (EJC 2011), held in Tallinn, Estonia, in June 2011. The EJC conferences provide a worldwide forum for researchers and practitioners in the field to exchange results and experiences achieved in computer science and related disciplines such as conceptual analysis, design and specification of information systems, multimedia information modelling, multimedia systems, software engineering, knowledge and process management, cross cultural communication and context modelling. Attention is also paid to theoretical disciplines including cognitive science, artificial intelligence, logic, linguistics and analytical philosophy. The selected papers (16 full papers, 9 short papers, 2 papers based on panel sessions and 2 on invited presentations), cover a wide range of topics, including database semantics, knowledge representation, software engineering, www information management, context-based information retrieval, ontology, image databases, temporal and spatial databases, document data management, process management, cultural modelling and many others. Covering many aspects of system modelling and optimization, this book will be of interest to all those working in the field of information modelling and knowledge bases.

Agrarian Problems in the Sixteenth Century and After Eric Kerridge,2013-11-05 Presenting a full and precise description of all legal ties between landlord and tenant in early modern England, Agrarian Problems in the Sixteenth Century and After re-examines one of the key issues in English agrarian history - the question of the legal security of the copyholder. Comparing historical records and literary evidence, Agrarian Problems in the Sixteenth Century and After reprints much of the important 1969 edition of the book, and asserts that: * customary tenants enjoyed legal security in and before the sixteenth century * enclosures proceeded legally,

without oppression, and in much the same form (whether ratified in parliament or not) throughout the whole period * depopulation was less extensive than sometimes supposed and that such depopulation as there was often proved economically profitable and not without social benefit. When first published in 1969, this fascinating book represented a unique viewpoint that affected, and in some cases reversed, much accepted opinion. As a landmark work in a highly important area of English agrarian history, it still has considerable impact today.
