Making Indian Law Christian W. McMillen,2008-10-01 In 1941, a groundbreaking U.S. Supreme Court decision changed the field of Indian law, setting off an intellectual and legal revolution that continues to reverberate around the world. This book tells for the first time the story of that case, *United States, as Guardian of the Hualapai Indians of Arizona, v. Santa Fe Pacific Railroad Co.*, which ushered in a new way of writing Indian history to serve the law of land claims. Since 1941, the Hualapai case has travelled the globe. Wherever and whenever indigenous land claims are litigated, the shadow of the Hualapai case falls over the proceedings. Threatened by railroad claims and by an unsympathetic government in the post - World War I years, Hualapai activists launched a campaign to save their reservation, a campaign which had at its centre documenting the history of Hualapai land use. The book recounts how key individuals brought the case to the Supreme Court against great odds and highlights the central role of the Indians in formulating new understandings of native people, their property, and their past.

We are an Indian Nation Jeffrey P. Shepherd,2010-04-15 Though not as well known as the U.S. military campaigns against the Apache, the ethnic warfare conducted against indigenous people of the Colorado River basin was equally devastating. In less than twenty-five years after first encountering Anglos, the Hualapais had lost more than half their population and nearly all their land and found themselves consigned to a reservation. This book focuses on the historical construction of the Hualapai Nation in the face of modern American colonialism. Drawing on archival research, interviews, and participant observation, Jeffrey Shepherd describes how thirteen bands of extended families known as The Pai confronted American colonialism and in the process recast themselves as a modern Indigenous nation. Shepherd shows that Hualapai nation-building was a complex process shaped by band identities, competing visions of the past, creative reactions to modernity, and resistance to state power. He analyzes how the Hualapais transformed an externally imposed tribal identity through nationalist discourses of protecting aboriginal territory; and he examines how that discourse strengthened the Hualapais' claim to land and water while simultaneously reifying a politicized version of their own history. Along the way, he sheds new light on familiar topics—Indian-white conflict, the creation of tribal government, wage labor, federal policy, and Native activism—by applying theories of race, space, historical memory, and decolonization.

Drawing on recent work in American Indian history and Native American studies, Shepherd shows how the Hualapai have strived to reclaim a distinct identity and culture in the face of ongoing colonialism. *We Are an Indian Nation* is grounded in Hualapai voices and agendas while simultaneously situating their history in the larger tapestry of Native peoples' confrontations with colonialism and modernity.
