The Price of Death Hikaru Suzuki,2002-02-01 Funerary practices have long been a classic topic of anthropological inquiry, which has tended to focus on death rituals as expressions and reinforcers of community ties and values. In this book, the author looks at funerals as an urban business, based on her fieldwork at a large Japanese funeral company. Her central theme is the progressive commercialization of what once were primarily religious rituals. The book depicts the process of contemporary Japanese funerals, the practices of those who provide commercial funeral services, and the motivations and behavior of the mourners who purchase those services. In so doing, it examines the role of funeral companies in shaping Japanese cultural practices and changing an important aspect of Japanese society. The author addresses several related questions: What cultural changes accompanied the shift from traditional community funeral rituals to commercial funeral services? How did the mass consumption of commercial funerals produce cultural homogeneity while allowing for differences in individual services? How does the marketing of professional funeral services mediate changing cultural values? How have commercial services served to objectify changing concepts of dying, death, and the deceased in contemporary Japan? The author demonstrates that the funeral industry, the purchasers of funeral services, and Japanese values surrounding death are mutually dependent and are responsible for supporting, representing, and transforming cultural practices. Throughout, the author relates vivid and often moving details and anecdotes to lend a personal element to her study of the commodification of death in Japan.

The Lucky Few Elwood Carlson,2008-06-19 Born during the Great Depression and World War Two (1929–1945) an entire generation has slipped between the cracks of history. These Lucky Few became the first American generation smaller than the one before them, and the luckiest generation of Americans ever. As children they experienced the most stable intact parental families in the nation's history. Lucky Few women married earlier than any other generation of the century and helped give birth to the Baby Boom, yet also gained in education compared to earlier generations. Lucky Few men made the greatest gains of the century in schooling, earned veterans benefits like the

Greatest Generation but served mostly in peacetime with only a fraction of the casualties, came closest to full employment, and spearheaded the trend toward earlier retirement. Even in retirement/old age the Lucky Few remain in the right place at the right time. Here is their story, and the story of how they have affected other recent generations of Americans before and since.

The Stalking Death William W. Johnstone,J.A. Johnstone,2018-03-27 A rich rancher is terrorizing Laramie County—but one man is about to fight back—in this thrilling tale of the Old West by the national bestselling authors... Descended from Scottish Highlanders and blood kin to Falcon and Jamie Ian, Duff MacCallister forged a bold new life on the American frontier. But he will always stay true to his clan's fighting spirit—when it comes

to justice . . . THE STALKING DEATH There's something rotten in Wyoming, and it's not just the smell of cow pies—the first whiff is coming off the Laramie County Cattlemen. Right off the bat, Duff notices something odd: no small-time ranchers allowed. It's big-leaguers only. And none are bigger than Brad Houser, owner of the sprawling Twin Peaks ranch. He's up in arms over the small-timers claiming the unbranded mavericks who escape their herds. Which is perfectly legal. No brand, free cow. Houser has a plan to stop these former cowboys from taking their runaways. For \$1000, Houser will make the small ranchers go away—six feet under. That makes Duff MacCallister madder than a wet hen . . . and his guns will do the screaming.

Contemporary European Perspectives on the Ethics of End of Life Care Nathan Emmerich, Pierre Mallia, Bert Gordijn, Francesca Pistoia, 2020-05-12 This book examines the ethics of end of life care, focusing on the kinds of decisions that are commonly made in clinical practice. Specific attention is paid to the intensification of treatment for terminal symptoms, particularly pain relief, and the withdrawal and withholding of care, particularly life-saving or life-prolonging medical care. The book is structured into three sections. The first section contains essays examining end of life care from the perspective of moral theory and theology. The second sets out various conceptual terms and distinctions relevant to decision-making at the end of life. The third section contains chapters that focus on substantive ethical issues. This format not only provides for a comprehensive analysis of the ethical issues that arise in the context of end of life care but allows readers to effectively trace the philosophical, theological and conceptual underpinnings that inform their specific interests. This work will be of interest to scholars working in the area as well as clinicians, specialists and healthcare professionals who encounter these issues in the course of their practice.

Love Faith Death Tara Shah, 2014-09-29 Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-racking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going through her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA (this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer, meaning that the planet Mars "mangal Graha" was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet

Mars was not in such position.) What happens next changes the lives of the main characters.
