**Managing Sport Mega-Events** Stephen Frawley, 2016-06-17

Managing Sport Mega-Events explores global developments in the management of sport mega-events. Sport mega-events such as the Olympic Games and the Football World Cup have been examined from a number of academic perspectives including history, sociology, politics, urban planning and economics. What is lacking, however, is a book which identifies and evaluates the current issues and complexities faced by those charged with the responsibility of managing these sport mega-events. This book fills the gap. The book addresses three broad but interconnected themes. First, strategic matters are explored focusing on the rise of sport mega-events, the management of stakeholders and governance issues. Second, how organisers can best ensure the sustainable management of sport mega-events is considered. Third, operational matters and related issues are examined including media management, broadcast management, venue management, risk management, marketing and sponsorship management. The book draws on leading international sport management scholars, each of whom has expertise in the organisation of sport mega-events. It makes a valuable contribution to the existing literature.

**Britain in Iraq, 1914-1932** Peter Sluglett, 1976

**A History of the Great Revolt** John William Kaye, 1988 The saga of 1857 revolt, the First War of Independence is written with painstaking care, and much toil and tears. It is a historian's account of chain of events and their cascading effects, baring the truth lying buried deep under the official positions and unofficial assertions. Recounting the events, the author even risked stirring

up of controversy. John William Kaye had mountain of important papers in his possession related to Sepoy War, and to add, promised of further assistance from the surviving actors in the hot scene. The story of the Indian Rebellion of 1857 is, perhaps, the most signal illustration of our great national character ever yet recorded in the annals of our country. It was a vehement and inordinate self-assertion of the Englishman that produced the conflagration, it was the same vehement self-assertion of Indian people showed in the First War of Independence, the Indians cherish even to the date. It is an engrossing and heart-throbbing narration-a must read for the present day generation of Indians.

**Mega-events and Urban Image Construction** Anne-Marie Broudehoux, 2017-02-17 While societies shape the way their cities look and are represented, urban images, in turn, nurture and structure social relations in multiple ways. Nowhere is this dialectical relationship between social processes and urban representations more visible than in the hosting of global spectacles such as the FIFA World Cup and the Olympic Games, which both embody some of society's deepest dreams and desires. The focus of this book is the image of cities. It is not only interested in the mechanisms of urban image construction but also in the politics of such a phenomenon, especially its social impacts in terms of representation and right to the city. The book investigates the complex power relationships that underscore the production of the urban landscape and the construction and diffusion of urban images, especially in the context of urban mega-events. It uses the notion of urban image construction as a lens through which to examine the mega-event spectacle, with chapters exploring the physical, social and political dimensions of the image-making process as well as emerging resistance to controversial initiatives. Through an analysis of event-related urban construction efforts in Rio de Janeiro and Beijing, this book examines the effects of mega-events upon the construction of an exclusive vision of urbanity. It demonstrates how mega-events are

increasingly utilized by local political and economic elites to reconfigure power relations, strengthen their hold upon the urban territory and exclude vulnerable population groups. The book thus offers a critical analysis of the practice of urban image construction, and will be of interest to those working in geography, urban studies, tourism, sport studies, development studies and politics.

Contemporary Gender Formations in India Nandini

Dhar,2024-02-27 The volume discusses critical issues surrounding the developments in gender movements in the last two decades in India following the Delhi rape case and the ensuing massive protests in December 2012. A critical documentation of some of the key moments surrounding the contemporary gendered formations and radicalisms in South Asia, the chapters span questions of class, caste, sexuality, digital feminisms, and conflict zones. The book looks at anger, protest, and imaginations of resistance. It showcases the 'new' visibility that digital spaces have opened up to lend voice to survivors who are let down by traditional justice mechanisms and raises questions regarding 'individualized' modes of seeking justice as against traditional 'collective' voices that have always been a hallmark of movements. The volume analyses and criticizes the complicity of the state and the court as agents of reinforcing gender violence – an issue that has not been theorized enough by activists and scholars of violence. Further, it also delves into the #MeToo movement and the LoSHA, as both have raised contentious, controversial, and often conflicting debates on the nature of addressing sexual harassment, particularly at the workplace. Calling for further debate and discussions of cyberspace, gender justice, sexual violence, male entitlement, and forms of neoliberal feminism, this volume will be of immense interest to scholars and researchers in the areas of women and gender studies, sociology

and social theory, gender politics, political theory, democracy, protest movements, politics, media and the internet, political advocacy, and law and legal theory. It will also be a compelling read for anyone interested in gender justice and equal rights.
