Delhi Metro Rail Corporation's Communication with the Media Meenakshi Sharma,2012

Love In Metro Arun Anand,2021-01-19 He is an upcoming journalist from Delhi. She is a beautiful young woman from Chandigarh. He lives with his family in Delhi and has a bright future ahead. She is trying to find a foothold in Delhi with a bleak past and even a bleaker future. Destiny brought them together in a compartment of Delhi Metro on a bright sunny morning and ensured that they meet again and again. But then the sun sets too fast on them . The darkness envelops their lives as if there is no tomorrow. A bleeding; battered Nisha makes the final frantic call to Pankaj from somewhere between Chandigarh and Delhi. This was her final call.

Delhi Metro Rail Corporations Communication with the Media Meenaxi Sharma,2012 As a new corporation, the Delhi Metro (DMRC) began its relationship with the media, with a clean

slate, and its care with the public relations function made for the establishment of a very cordial relationship with the print media and led to positive image building in the public eye. However, with the rise of electronic media and the proliferating channels' greater emphasis on sensationalism, the warmth in the relations began to subside. A major standoff with the electronic media and the experience of accidents during construction of Phase II of the project, led to the restructuring of the approach to media relations as well as internal restructuring of the PR department. The challenges and major incidents turned out to be hard-learned lessons in managing the media in a dynamic environment.

Corporate Responses to HIV/AIDS ,2007-01-01 How should the corporate sector engage in fighting the global burden of the AIDS epidemic? India's relatively low HIV prevalence rate often raises the question of whether it is in corporate sector interest to

allocate resources to combat HIV and AIDS. The five case studies in this report feature a selection of Indian companies that felt compelled to engage in this fight and id allocate resources in order to do so. The challenges these companies encountered and innovative methods they used to surmount these challenges serve as useful lessons for those interested in launching similar initiatives.

The Urban Transport Crisis in Emerging Economies

Dorina Pojani,Dominic Stead,2016-11-18 This edited volume discusses urban transport issues, policies, and initiatives in twelve of the world's major emerging economies - Brazil, China, Colombia, India, Indonesia, Iran, Mexico, Nigeria, Russia, South Africa, Turkey, and Vietnam - countries with large populations that have recently experienced large changes in urban structure, motorization and all the associated social, economic, and environmental impacts in positive and negative senses.

Contributions on each of these twelve countries focus on one or more major cities per country. This book aims to fill a gap in the transport literature that is crucial to understanding the needs of a large portion of the world's urban population, especially in view of the southward shift in economic power. Readers will develop a better understanding of urban transport problems and policies in nations where development levels are below those of richer countries (mainly in the northern hemisphere) but where the rate of economic growth is often increasing at a faster rate than the wealthiest nations.

The Moving City Rashmi Sadana,2021-12-07 The Moving City is a rich and intimate account of urban transformation told through the story of Delhi's Metro, a massive infrastructure project that is reshaping the city's social and urban landscapes. Ethnographic vignettes introduce the feel and form of the Metro and let readers experience the city, scene by scene, stop by stop,

as if they, too, have come along for the ride. Laying bare the radical possibilities and concretized inequalities of the Metro, and how people live with and through its built environment, this is a story of women and men on the move, the nature of Indian aspiration, and what it takes morally and materially to sustain urban life. Through exquisite prose, Rashmi Sadana transports the reader to a city shaped by both its Metro and those who depend on it, revealing a perspective on Delhi unlike any other.

Geospatial Technology for Landscape and

Environmental Management Praveen Kumar Rai, Varun Narayan Mishra, Prafull Singh, 2022-01-11 Geospatial technology is a combination of state-of-the-art remote sensing and technology for geographic information systems (GIS) and global navigation satellite systems (GNSS) for the mapping and monitoring of landscapes and environment. The main thrust of using geospatial technology is to understand the causes, mechanisms, and consequences of spatial heterogeneity, while its ultimate objective is to provide a scientific basis for developing and maintaining ecologically, economically, and socially sustainable landscapes. This book presents new research on the interdisciplinary applications of geospatial technology for identification, assessment, monitoring, and modelling issues related to landscape, natural resources, and environmental management. The book specifically focuses on the creation, collection, storage, processing, modelling, interpretation, display, and dissemination of spatio-temporal data, which help to resolve environmental management issues including ecosystem change, resource utilization, land use management, and environmental pollution. The positive environmental impacts of information technology advancements with regard to global environmental and climate change are also discussed. The book addresses the interests of a wide spectrum of readers who have a common interest in geospatial science, geology, water resource management, database management, planning and policy making,

and resource management.

A Journey to Remember-- ,2008 On the emergence and development of DMRC at Delhi.

City Planning in India, 1947-2017 Ashok Kumar, Sanjeev Vidyarthi, Poonam Prakash, 2020-07-07 This book is a comprehensive history of city planning in post-independence India. It explores how the nature and orientation of city planning have evolved in India's changing sociopolitical context over the past hundred or so years. The book situates India's experience within a historical framework in order to illustrate continuities and disjunctions between the pre- and post-independent Indian laws, policies, and programs for city planning and development. It focuses on the development, scope, and significance of professional planning work in the midst of rapid economic transition, migration, social disparity, and environmental degradation. The volume also highlights the need for inclusive planning processes that can provide clean air, water, and community spaces to large, diverse, and fast growing communities. Detailed and insightful, this volume will be of interest to researchers and students of public administration, civil engineering, architecture, geography, economics, and sociology. It will also be useful for policy makers and professionals working in the areas of town and country planning.
