*Metronama: Scenes from the Delhi Metro* Rashmi Sadana, 2022-01-21 Rashmi Sadana is Associate Professor of Anthropology at George Mason University and author of *English Heart, Hindi Heartland: The Political Life of Literature in India*.

**The Moving City** Rashmi Sadana, 2021-12-07 The Moving City is a rich and intimate account of urban transformation told through the story of Delhi's Metro, a massive infrastructure project that is reshaping the city's social and urban landscapes. Ethnographic vignettes introduce the feel and form of the Metro and let readers experience the city, scene by scene, stop by stop, as if they, too, have come along for the ride. Laying bare the radical possibilities and concretized inequalities of the Metro, and how people live with and through its built environment, this is a story of women and men on the move, the nature of Indian aspiration, and what it takes morally and materially to sustain urban life. Through exquisite prose, Rashmi Sadana transports the reader to a city shaped by both its Metro and those who depend on it, revealing a perspective on Delhi unlike any other.

*Love In Metro* Arun Anand, 2021-01-19 He is an upcoming journalist from Delhi. She is a beautiful young woman from Chandigarh. He lives with his family in Delhi and has a bright future ahead. She is trying to find a foothold in Delhi with a bleak past and even a bleaker future. Destiny brought them together in a compartment of Delhi Metro on a bright sunny morning and ensured that they meet again and again. But then the sun sets too fast on them. The darkness envelops their lives as if there is no tomorrow. A bleeding; battered Nisha makes the final frantic call to Pankaj from somewhere between Chandigarh and Delhi. This was her final call.

Historical Cities of Delhi: Walks Using the Delhi Metro Siva Prasad Bose,Joy Bose,2022-11-23 Delhi is much more than just the capital of India. It is a city with an amazing history. So many times, it has been the major city or capital of India, from the earliest Mahabharata days to the Rajputs to the Delhi Sultanate to the Mughals to the British. Each time the new rulers left their mark on the city. As a result, now we have a Delhi which has the mark of at least seven or eight different historical cities, if not more. In this book, we review the different historical cities of Delhi. We use the Delhi metro, which

is currently probably the best developed metro in India, as the preferred means of transport to see the sights of the seven cities of Delhi. We hope that this short guide will help the reader the experience a little bit of what Delhi is all about, its people and its history. In this book, we do not cover all the historical sites or attractions of Delhi, such as the many modern museums, markets and other attractions. Rather, we focus on the sites that form part of the historical cities of Delhi and those that are located within the historical boundaries of those cities. This book was born out of many travels and exploratory walks made by the authors in Delhi, where they live.

**Mainstreaming Climate Co-Benefits in Indian Cities** Mahendra Sethi, Jose A. Puppim de Oliveira, 2018-02-06 This volume presents a novel framework to understand urban climate co-benefits in India, that is, tackling climate change and achieving sustainable development goals in cities. It utilizes methods and tools from several assessment frameworks to scientifically evaluate sector co-benefits for informed decision making. The co-benefits approach can lead to significant improvements in the way societies use environmental resources and distribute their outputs. The volume discusses four main themes: (1) Concepts and theories on cities and climate co-benefits; (2) Contextualizing co-benefit issues across spatial scales and sectors; (3) Sectoral analyses of co-benefits in energy, transport, buildings, waste, and biodiversity, and (4) Innovations and reforms needed to promote co-benefits in cities. The discussions are based on empirical research conducted in Indian cities and aligned with the international discourse on the 2030 UN Development Agenda and New Urban Agenda created at the UN-Habitat III in 2016. The analyses and recommendations in this volume are of considerable interest to policy experts, scholars and researchers of urban and regional studies, geography, public policy, international development/law, economics, development planning, environmental planning, climate change, energy studies, and so on.
