Motivation and Agency Alfred R. Mele,2003-01-02 What place does motivation have in the lives of intelligent agents? Mele's answer is sensitive to the concerns of philosophers of mind and moral philosophers and informed by empirical work. He offers a distinctive, comprehensive, attractive view of human agency. This book stands boldly at the intersection of philosophy of mind, moral philosophy, and metaphysics.

Life as Theater Charles Edgley,2017-09-04 Life as Theater is about understanding people and how the dramaturgical way of thinking helps or hinders such understanding. A volume that has deservedly attained the status of a landmark work, this was the first book to explore systematically the material and subject matter of social psychology from the dramaturgical viewpoint. It has been widely used and quoted, and has sparked ferment and debate in fields as diverse as sociology, psychology, anthropology, political science, speech communication, and formal theater studies. Life as Theater is organized around five substantive issues in social psychology: Social Relationships as Drama; The Dramaturgical Self; Motivation and Drama; Organizational Dramas; and Political Dramas. This classic text was revised and updated for a second edition in 1990, and includes approximately 66 percent new materials, all featuring individual introductions that provide the dramaturgical perspective and reflect the most learned thinking and work being done within this point of view. This book's sophistication will appeal to the scholar, and its clarity and conciseness to the student. Like its predecessor, it is designed to serve as a primary text or supplementary reader in classes. This new paperback edition includes an introduction by Robert A. Stebbins that explains why, even fifteen years after its publication, Life as Theater remains the best single sourcebook on the dramaturgic perspective as applied in the social sciences.

Futures of Science and Technology in Society Arie Rip,2018-06-06 Longer-term developments shape the present and endogenous futures of institutions and practices of science and technology in society and their governance. Understanding the patterns allows diagnosis and soft intervention, often linked to scenario exercises. The book collects six articles offering key examples of this perspective, addressing ongoing issues in the governance of science and technology, including nanotechnology and responsible research and innovation. And adds two more articles that address background philosophical issues.

Neueste Nachrichten Otto Bernhard Friedmann,1859

Weimar Germany Between Two Worlds R. Seth C. Knox,2006 During the interwar period America and Russia provided German travel writers with opposing visions of Germany's future, as well as blank screens for the projections of their hopes and anxieties. The travel literature genre allowed authors and readers to approach Weimar Germany's social issues from a psychologically safe distance. This is the first book to analyze the American and Russian travels of Kisch, Toller, Holitscher, Goldschmidt, and Rundt from a psychogeographic and imagologic perspective. It is a work of particular interest to researchers and students of travel literature, cultural studies, the construction and perception of the «other, » and literary psychology.

Framing Matters William Anthony Donohue,Randall G. Rogan,Sanda Kaufman,2011 The framing metaphor is commonly used in negotiation and communication research to characterize how individuals place interpretive and linguistic boundaries around phenomena, objects, or events. This book develops this construct, exploring its potential to provide research insights, and illustrating new strategies for further development. Divided into three sections, the book first captures the breadth of the theoretical framing construct, then focuses on the many ways in which the construct has been researched and applied. The final section reflects on the construct's potential, and its value in understanding negotiation. An inspiring group of contributors - all experts in framing theory and conflict/negotiation management - outline how the framing construct is viewed theoretically by research scholars, and in the field by conflict resolution practitioners.

Engineering Society Kerstin Brückweh,Richard F. Wetzell,2012-10-09 Explaining crime by reference to abnormalities of the brain is just one example of how the human and social sciences have influenced the approach to social problems in Western societies since 1880. Focusing on applications such as penal policy, therapy, and marketing, this volume examines how these sciences have become embedded in society.

White Heat Dominic Sandbrook,2015-02-05 Harold Wilson's famous reference to 'white heat' captured the optimistic spirit of a society in the midst of breathtaking change. From the gaudy pleasures of Swinging London to the tragic bloodshed in Northern Ireland, from the intrigues of Westminster to the drama of the World Cup, British life seemed to have taken on a dramatic new momentum. The memories, images and colourful personalities of those heady times still resonate today: mop-tops and mini-skirts, strikes and demonstrations, Carnaby Street and Kings Road, Harold Wilson and Edward Heath, Mary Quant and Jean Shrimpton, Enoch Powell and Mary Whitehouse, Marianne Faithfull and Mick Jagger. In this wonderfully rich and readable historical narrative, Dominic Sandbrook looks behind the myths of the Swinging Sixties to unearth the contradictions of a society caught between optimism and decline.

The Rise of the Ottoman Empire Paul Wittek,2013-05-20 Paul Wittek's The Rise of the Ottoman Empire was first published by the Royal Asiatic Society in 1938 and has been out of print for more than a quarter of a century. The present reissue of the text also brings together translations of some of his other studies on Ottoman history; eight closely interconnected writings on the period from the founding of the state to the Fall of Constantinople and the reign of Mehmed II. Most of these pieces reproduces the texts of lectures or conference papers delivered by Wittek between 1936 and 1938 when he was teaching at Université Libré in Brussels, Belgium. The books or journals in which they were originally published are for the most part inaccessible except in specialist libraries, in a period when Wittek's activities as an Ottoman historian, in particular his formulations regarding the origins and subsequent history of the Ottoman state (the Ghazi thesis), are coming under increasing study within the Anglo-Saxon world of scholarship. An introduction by Colin Heywood sets Wittek's work in its historical and historiographical context for the benefit of those students who were not privileged to experience it firsthand. This reissue and recontextualizing of Wittek's pioneering work on early Ottoman history makes a valuable contribution to the field and to the historiography of Asian and Middle Eastern history generally.

Building the Great Society Joshua Zeitz,2019-01-29 The author of Lincoln's Boys takes us inside Lyndon Johnson's White House to show how the legendary Great Society programs were actually put into practice: Team of Rivals for LBJ. The personalities behind every burst of 1960s liberal reform - from civil rights and immigration reform, to Medicare and Head Start. Absorbing, and astoundingly well-researched -- all good historians do their homework, but Zeitz goes above and beyond. It's a more than worthwhile addition to the canon of books about Johnson.--NPR Beautifully written...a riveting portrait of LBJ... Every officeholder in Washington would profit from reading this book. --Robert Dallek, Author of An Unfinished Life: John F. Kennedy, 1917-1963 and Franklin D. Roosevelt: A Political Life LBJ's towering political skills and his ambitious slate of liberal legislation are the stuff of legend: the Civil Rights Act of 1964, the Voting Rights Act of 1965, Medicare, Medicaid, Head Start, and environmental reform. But what happened after the bills passed? One man could not and did not go it alone. Joshua Zeitz reanimates the creative and contentious atmosphere inside Johnson's White House as a talented and energetic group of advisers made LBJ's vision a reality. They desegregated public and private institutions throughout one third of the United States; built Medicare and Medicaid from the ground up in one year; launched federal funding for public education; provided food support for millions of poor children and adults; and launched public television and radio, all in the space of five years, even as Vietnam strained the administration's credibility and budget. Bill Moyers, Jack Valenti, Joe Califano, Harry McPherson and the other staff members who comprised LBJ's inner circle were men as pragmatic and ambitious as Johnson, equally skilled in the art of accumulating power or throwing a sharp elbow. Building the Great Society is the story of how one of the most competent White House staffs in American history - serving one of the most complicated presidents ever to occupy the Oval Office - fundamentally changed everyday life for millions of citizens and forged a legacy of compassionate and interventionist government.

The Undermining of Austria-Hungary M. Cornwall,2000-05-23 This is a major new contribution to the historiography of the First World War. It examines the lively battle of ideas which helped to destroy Austria-Hungary. It also assesses, for the first time, the weapon of 'front propaganda' as used by and against the Empire on the Italian and Eastern Fronts. Based on material in eight languages, the work challenges accepted views about Britain's primacy in the field of propaganda, while casting fresh light on the creation of Yugoslavia and the viability of the Habsburg Empire in its last years.

Fifty Years of German Film Hans H. Wollenberg,1972

Report of the American Olympic Committee American Olympic Committee,1920 Issues for 1928-36 include reports of the 2nd-4th Olympic winter games.

Islam Annemarie Schimmel,1992-05-14 It is a splendid introduction—carefully researched and comprehensive, yet readable. It corrects many popular and erroneous notions about Islam that prevail in non-Muslim societies. For the general reader there are many profound insights of great consequence, for example, the passages on women, marriage, and inheritance, or the section on jihad, nearly always completely misunderstood in the press.

Oil and Sovereignty Rüdiger Graf,2018-04-23 In the decades that followed World War II, cheap and plentiful oil helped to fuel rapid economic growth, ensure political stability, and reinforce the legitimacy of liberal democracies. Yet waves of price increases and the use of the so-called “oil weapon” by a group of Arab oil-producing countries in the early 1970s demonstrated the West’s dependence on this vital resource and its vulnerability to economic volatility and political conflicts. Oil and Sovereignty analyzes the national and international strategies that American and European governments formulated to restructure the world of oil and deal with the era’s disruptions. It shows how a variety of different actors combined diplomacy, knowledge creation, economic restructuring, and public relations in their attempts to impose stability and reassert national sovereignty.

Imagined Futures Jens Beckert,2016-06-07 Consumers, investors, and corporations orient their activities toward a future that contains opportunities and risks. How do these actors assess uncertainty? Jens Beckert adds a new chapter to the theory of capitalism by showing how fictional expectations drive modern economies—or throw them into crisis when imagined futures fail to materialize.
