The Desert Crop Catherine Cookson, 2005 Money is tight in the farming communities in the 1880s so when Hector marries Moira, a wealthy distant relative, his youngest child guesses the purpose of the union. Moira thinks she is marrying landed gentry. She is not the only one surprised when she finally arrives at the farm.

The Desert Home the Adventures of a Lost Family in the Wilderness Mayne Reid, 2017-06-26 The Great American Desert. There is a great desert in the interior of North America. It is almost as large as the famous Saara of Africa. It is fifteen hundred miles long, and a thousand wide. Now, if it were of a regular shape-that is to say, a parallelogram-you could at once compute its area, by multiplying the length upon the breadth; and you would obtain one million and a half for the result-one million and a half of square miles. But its outlines are as yet very imperfectly known; and although it is fully fifteen hundred miles long, and in some places a thousand in breadth, its surface-extent is probably not over one million of square miles, or twenty-five times the size of England. Fancy a desert twenty-five times as big as all England! Do you not think that it has received a most appropriate name when it is called the Great American Desert? Now, my young friend, what do you understand by a desert? I think I can guess. When you read or hear of a desert, you think of a vast level plain, covered with sand, and without trees, or grass, or any kind of vegetation. You think, also, of this sand being blown about in thick yellow clouds, and no water to be met with in any direction. This is your idea of a desert, is it not? Well, it is not altogether the correct one. It is true that in almost every desert there are these sandy plains, yet are there other parts of its surface of a far different character, equally deserving the name of desert. Although the interior of the great Saara has not been fully explored, enough is known of it to prove that it contains large tracts of mountainous and hilly country, with rocks and valleys, lakes, rivers, and springs. There are, also, fertile spots, at wide distances from each other, covered with trees, and shrubs, and beautiful vegetation. Some of these spots are small, while others are of large extent, and inhabited by independent tribes, and even whole kingdoms of people. A fertile tract of this kind is called an oasis; and, by looking at your map, you will perceive that there are many oases in the Saara of Africa. Of a similar character is the Great American Desert; but its surface is still more varied with what may be termed geographical features. There are plains-some of them more than a hundred miles wide-where you can see nothing but white sand, often drifting about on the wind, and here and there thrown into long ridges such as those made by a snowstorm. There are other plains, equally large, where no sand appears, but brown barren earth utterly destitute of vegetation. There are others, again, on which grows a stunted shrub with leaves of a pale silvery colour. In some places it grows so thickly, interlocking its twisted and knotty branches, that a horseman can hardly ride through among them. This shrub is the artemisia-a species of wild sage or wormwood, -and the plains upon which it grows are called by the hunters, who cross them, the sage prairies. Other plains are met with that present a black aspect to the traveller....

Desert England David Williams,2008 A terrifying tidal wave was sweeping across Europe, leaving widespread devastation in its wake. But this was no natural phenomenon; this was a wholly manmade weapon of terror, dubbed by the foreign media as the English disease: football hooliganism. In the months leading up to FIFA's decision as to which country would have the prestigious honour of hosting the 2006 World Cup England or arch-enemies Germany the level of wanton, indiscriminate violence being perpetrated at overseas match locations in the name of British patriotism was escalating out of control ... but why? Detective Inspector John Milton of the Metropolitan Police and his specially formed anti-hooliganism task force were facing a brick wall. The incidents smacked of highly organised, mafia-style operations carried out with military precision. Something sinister was at play and time was running out to crack the case. England's honour was on the line, and so were their careers.

The Desert Crop Catherine Cookson,2011-06-27 Shocking tragedy unexpectedly frees a young man to pursue the love and happiness he thought were unattainable in this family saga by Catherine Cookson, who remains even after her death one of the world's best loved historical novelists. Money was tight in the farming communities around Fellburn, England, in the 1880s, so when Hector Stewart, only two years after the death of his long-suffering wife, announces to his children, Daniel and Pattie, that he is to marry Moira Conelly, a wealthy distant relative who lives in a castle in Ireland, it is easy to discern his motive. As for Moira, who had not been entirely honest about her background or finances, she has convinced herself that she would be marrying into landed gentry, allowing her the leisured lifestyle to which she believes herself entitled. It is with sonic surprise, therefore, after she arrives with her companion, Maggie Ann, that she realizes she is now the mistress of a ramshackle farm without any servants. Nonetheless, with her ever-cheerful disposition, Moira soon settles into the Stewart family routine. Pattie, always the rebel, leaves home to be married, but Daniel, deprived of an opportunity to study at university by his father's insistence that he stay on the farm, can see no escape. Moira and Hector's marriage of convenience works well enough at first, but as their growing family compounds their financial difficulties, Hector's behavior toward her changes disturbingly. A horrifying act of violence provokes an even more shocking act of retribution in the family. Yet, this tragedy opens the way for Daniel to expand his horizons and to find the love and joy that have long been denied him.

Set in Catherine Cookson's now familiar area of northeast England, Fellburn and its surroundings, this deeply felt novel of family conflict will be admired as one of the most powerful Cookson wrote in a career that spanned more than forty years.

The Top Books of the Year Desert England The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Let's delve into the realm of popular books, exploring the engaging narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Desert England : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Desert England : Delia Owens' "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
