Asking to Die: Inside the Dutch Debate about Euthanasia David C. Thomasma,1998-08-31 In the Netherlands, euthanasia is legal, and doctors can openly and intentionally end the life of their patients. This book addresses the debate among Dutch physicians, policy-makers, lawyers, and bioethicists, as well as families, using academic papers as well as personal experiences.

Tales and Translation Cay Dollerup,1999-09-15 Dealing with the most translated work of German literature, the Tales of the brothers Grimm (1812-1815), this book discusses their history, notably in relation to Denmark and subsequently other nations from 1816 to 1986. The Danish intelligentsia responded enthusiastically to the tales and some were immediately translated into Danish by a nobleman and by the foremost Romantic poet. Their renditions remained in print for a century and imbued the tales with high prestige. This book discusses translators, approaches, and other parameters such as copyright, and changes in target audiences. The tales' social acceptability inspired Hans Christian Andersen to write his celebrated fairytales. Combined, the Grimm and Andersen tales came to constitute the 'international fairytale'. This genre was born in processes of translation and, today, it is rooted more firmly in the world of translation than in national literatures. This book thus addresses issues of interest to literary, cross-cultural studies and translation.

Life and Work of Erich Neumann Angelica Löwe,2020-05-10 Life and Work of Erich Neumann: On the Side of the Inner Voice is the first book to discuss Erich Neumann's life, work and relationship with C.G. Jung. Neumann (1905–1960) is considered Jung's most important student, and in this deeply personal and unique volume, Angelica Löwe casts Neumann's comprehensive work in a completely new light. Based on conversations with Neumann's children, Rali Loewenthal-Neumann and Professor Micha Neumann, Löwe explores Neumann's childhood and adolescent years in Part I, including how he met his wife and muse Julie Blumenfeld. In Part II the book traces their life and work in Tel Aviv, where they moved in the early 1930s amid growing anti-Jewish tensions in Hitler's Germany. Finally, in Part III, Löwe analyses Neumann's most famous works. This is the first book-length discussion of the existential questions motivating Neumann's work, as well as the socio-historical circumstances pertaining to the problem of Jewish identity formation against rising anti-Semitism in the early 20th century. It will be essential reading for Jungian analysts and analytical psychologists in practice and in training, as well as scholars of Jungian and post-Jungian studies and Jewish studies.

Studies in Odyssey 11 Odysseus Tsagarakis,2000 This monograph deals with the main problems of the Eleventh Book of the Odyssey (the Nekyia) in the light of recent research. The journey to the underworld is not only troublesome in its composition but also important for its place in the poem, perhaps the most important of the hero's adventures. After a brief introduction, which surveys the present state of research and outlines methodology, the book examines in four chapters: 1. The question of the sources (borrowings, influences etc.) from the Epic of Gilgamesh to the Greek catabaseis (those of Heracles, Orpheus, Theseus and Peirithous) and cult practices at the Oracles of the Dead (the Thesprotian Oracle and that of Trophonius in Lebadeia). 2. The relation of our Nekyia to the poem and especially to the apologoi, as it is part of a larger composition, and its themes (journey to the land of the dead, catabasis, nekyomanteia). 3. The problematic parts of the Book and the question of their authenticity, Catalogue of Heroines, Intermezzo and Review of Hades. 4. The concepts of the Afterlife with the two contrasting views about the fate of psyche. There follows: a conclusion, which gives a summary of the results reached in the discussion of individual topics, select bibliography and the indexes (a Greek index, an index of passages and a general index).

Homer's Iliad Magdalene Stoevesandt,2015-11-13 This commentary on the 6th book of the Iliad concentrates on the interpretation of two episodes which have received a great deal of scholarly attention: the encounter between Diomedes and Glaukos, which surprisingly ends with an exchange of weapons and not a duel, and the series of scenes 'Hector in Troy', which reveal the hero's conflicting roles as defender of the city and father of his family.
