Split the Pie Barry Nalebuff, 2022-03-08 From a leading Yale expert and serial entrepreneur, a radical, principled, and field-tested approach that identifies what's really at stake in any negotiation and ensures you get your half—so you can focus on growing the pie. Negotiations are incredibly stressful and can bring out the worst in people. Wouldn't it be better if there were a principled way to negotiate? Wouldn't it be even better if there were a way to treat people fairly and get treated fairly in a negotiation? Split the Pie offers a new approach that does both—a field-tested method that reframes how negotiations play out. Barry Nalebuff, a professor at Yale School of Management, helps identify what's really at stake in a negotiation: the “pie.” The negotiation pie is the additional value created through an agreement to work together. Seeing the relevant pie will change how you think about fairness and power in negotiation. You'll learn how to get half the value you create, no matter your size. Filled with examples and in-depth case studies, Split the Pie is a practical and theory-based approach to negotiation. You'll see how it helped reframe a high-stakes negotiation when Coca-Cola purchased Honest Tea, a company Barry cofounded with his former student Seth Goldman. The pie framework also works for everyday negotiations. You'll learn how to deploy logic to determine truly equitable solutions and employ empathy to expand the pie and sell your solution. Split the Pie allows both sides to focus their energy on making the biggest possible pie—to have your pie and eat it too.

**Social Networks and the Life Course** Duane F. Alwin, Diane H. Felmlee, Derek A. Kreager, 2018-03-06  
This volume engages the interface between the development of human lives and social relational networks. It focuses on the integration of two subfields of sociology/social science--the life course and social networks. Research practitioners studying social networks typically focus on social structure or social organization, ignoring the complex lives of the people in those networks. At the same time, life course researchers tend to focus on individual lives without necessarily studying the contexts of social relationships in which lives are embedded and "linked" to one another through social networks. These patterns are changing and this book creates an audience of researchers who will better integrate the two subfields. It covers the role of social networks across the life span, from childhood and adolescence, to midlife, through old age.

Cemeterians Jack W. Plunkett, 2008 Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-

privilege-schedule long enough to get the job done! Not likely.
