Drive Daniel H. Pink,2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Velva Jean Learns to Drive Jennifer Niven,2009-07-28 The New York Times bestselling author of *All the Bright Places*—soon to be a Netflix film starring Elle Fanning—presents a coming-of-age debut about ill-fated love during the Great Depression—and what it means to be a woman with ambition. Velva Jean's mother urged her to "live out there in the great wide world," and growing up in Appalachia in the years before World War II, Velva Jean dreams of becoming a big-time singer in Nashville. Then she falls in love with Harley Bright, a handsome juvenile delinquent turned revival preacher. As their tumultuous love story unfolds, Velva Jean must choose between keeping her hard-won home and pursuing her dream of singing in the Grand Ole Opry. Like *All the Bright Places*, hailed as a "charming love story about [an] unlikely and endearing pair" (New York Times Book Review), Jennifer Niven's debut novel is a big-hearted story about the struggle to find happiness.

Where the Devil Don't Stay Stephen Deusner, 2021-09-07 In 1996, Patterson Hood recruited friends and fellow musicians in Athens, Georgia, to form his dream band: a group with no set lineup that specialized in rowdy rock and roll. The Drive-By Truckers, as they named themselves, grew into one of the best and most consequential rock bands of the twenty-first century, a great live act whose songs deliver the truth and nuance rarely bestowed on Southerners, so often reduced to stereotypes. *Where the Devil Don't Stay* tells the band's unlikely story not chronologically but geographically. Seeing the Truckers' albums as roadmaps through a landscape that is half-real, half-imagined, their fellow Southerner Stephen Deusner travels to the places the band's members have lived in and written about. Tracking the band from Muscle Shoals, Alabama, to Richmond, Virginia, to the author's hometown in McNairy County, Tennessee, Deusner explores the Truckers' complex relationship to the South and the issues of class, race, history, and religion that run through their music. Drawing on new interviews with past and present band members, including Jason Isbell, *Where the Devil Don't Stay* is more than the story of a great American band; it's a reflection on the power of music and how it can frame and shape a larger culture.

Optimum Drive Paul F. Gerrard, 2017-04-18 A champion racer and professional stunt driver reveals the secrets of peak performance in any endeavor. *Optimum Drive* is the complete step-by-step guide to maximizing human performance. As a professional racing driver and a driving coach for over twenty years, Paul F. Gerrard gives you his unique perspective on what causes people to stagnate with the idea of being merely good, when each of us has the potential to be great. Gerrard believes that peak performance is within our grasp. Gerrard helps you understand the mental toughness that it takes to reach that greatness. He starts off by taking you onto the track

as he explores what driving at 200 mph can teach us about who we are. Using his experiences from behind the wheel at death-defying speeds, Gerrard breaks down the psychology of driving, what it takes, and how we can use it to achieve greatness in life. The key, he says, is the nirvana-like sensation of flow psychology, or being in the zone—a mental state in which one who is performing an activity is fully immersed in a feeling of energized focus, full involvement, and joy. It is through flow psychology that Gerrard introduces a blend of holistic mindset combined with a competitive edge, which is essential to successful professional driving. This mix of guts, tenacity, and endurance is the foundation of Gerrard's philosophy for attaining greatness—and can be put to work for you too, on or off the track.

Drive-ins Joan Liftin, 2004 It's a summer night on the plains, a night for dreamers and lovers, a night for drive-in movies. In Chickasa, Oklahoma, and Turkey, Texas, Main Street is dark and shuttered. Out on the prairie there flickers the first reel of the movie. This is the boundless nostalgia of the drive-in, of the serene confidence of the United States in the 50s, when Korea was a far-off land and Vietnam wasn't on the map, General Dwight D. Eisenhower was in the White House, and Edward Hopper captured the spirit of the age. It was remembered again in The Last Picture Show and by the Boss, Bruce Springsteen, when he sang My Home Town. There were 6,000 drive-ins across the Union then. There are 547 now. Idaho has The Spud, Texas had The Trail, and even New York City has the walk-in show in Bryant Park. The drive-in was born in 1933 in Camden, New Jersey, when an

enterprising gas station owner projected a movie on his wall to entertain impatient customers. Since then the drive-in has had its ups and downs, latterly torn down to be replaced by shopping malls and tatty developments. But that zeitgeist will not die, and in Drive-Ins Joan Liftin has rung again the town bell that remembers it. There are many who will agree with her, and shake their heads at the loss of the apparent innocence of that age. This is now a very different world in which her photographs recall the ephemeral evenings at the drive-in, of the heart-breaking back row kisses, of the beer-topped coolers and popcorn, and the giant images of Monroe, Clift, and Gable bestriding the wilderness. Joan Liftin took these photographs over 20 years, some off-hand, some desultory, some with a startling, mesmeric evocation of what the drive-in was and meant to a generation of Americans.

One Line Drive Daniel Ponce de Leon, 2021-03-09 Daniel Ponce de Leon's hard-fought journey to Major League Baseball and recovery from a near-death injury, followed by his astonishing big league debut, will inspire readers to trust God in all circumstances. □ □ The path you take to achieving your dreams is not always easy. Daniel Ponce de Leon, an acclaimed pitcher for the St. Louis Cardinals, overcame many challenges to get to the Major Leagues. Drafted four times, he spent a long four years climbing his way up through the minors before finally reaching AAA, only one step away from the Major Leagues. Then, Daniel's dream was almost shattered when he was struck in the head by a line drive. Spending weeks in the hospital and months recovering from a large epidural hematoma, skull fracture, brain swelling, and hemorrhaging, Daniel held on to his belief that he would one day realize his dream. Fourteen months later, and fully recovered, he made his first Major League start, becoming the fifth pitcher in modern Major League history to throw seven innings of no-hit ball in his first outing. MLB.com referred to it as one of the greatest debuts in Major League Baseball history. In *One Line Drive*, Daniel retells his remarkable journey, sharing how he never would have made it without his faith in God and the support of family and friends. Full of grit, determination, and faith, Daniel's story is an inspiring reminder to keep pressing on regardless of any setback or disappointment.

Cinema Under the Stars Elizabeth McKeon, Linda Everett, 1998 When Richard M. Hollingshead Jr. first projected a movie onto a white bedsheet stretched between two trees at his home in Camden, New Jersey, in 1933, little did he know that he was on the verge of creating an entirely new entertainment industry. With America just beginning its romance with the automobile, it's no surprise that the general public found this new form of moviegoing irresistible. Fun and affordable, the drive-in quickly gained popularity among families with young children. And, of course, the local drive-in was a favorite weekend hangout for teenagers: a place where they could go just to meet friends or take a sweetheart for a romantic evening of movies under the stars. Although drive-ins are no longer as popular as they once were, in many communities a devoted following still seeks out the open-air theaters at twilight. Cinema Under the Stars is a reminder of those wonderful times, as well as a recounting of the history of the drive-in experience. Here is the story, and here are the memories: B movies, concession stands loaded with goodies, screen towers, ticket booths, scratchy speakers, speaker poles, and intermission. It is all here - a nostalgic look at one of America's all-time favorite pastimes.
