Dutch Vocabulary Book Pinhok Languages, 2022-04-30 Dutch vocabulary book + Dutch dictionary This Dutch vocabulary book contains more than 3000 words and phrases which are grouped by topic to make it easier for you to pick what to learn first. On top of that, the index in the second half of the book provides you with a basic Dutch-English as well as English-Dutch dictionary which makes this a great resource for learners of all levels. What you can expect from this book: This Dutch learning resource is a combination of Dutch vocabulary book and a two-way basic Dutch dictionary: Part 1 - Topic based Dutch vocabulary book: This is the main part of the book and represents a list of chapters each containing Dutch vocabularies for a certain topic. The Dutch vocabularies in the chapters are unsorted on purpose to separate remembering them from a defined alphabetical order. You can start at any chapter and dive directly into the topics that interest you the most. Part 2 - Basic English-Dutch dictionary: The index in the second half of the book can be used as a basic Dutch dictionary to look up words you have learned but can't remember or learn new words you need. Part 3 - Basic Dutch-English dictionary: Easy to use and with just the right amount of words, this third part finishes off with a second index that allows you to

look for Dutch words and directly find the English translation How to use this Dutch vocabulary book: Not sure where to start? We suggest you first work your way through the verbs, adjectives and phrases chapters in part one of the book. This will give you a great base for further studying and already enough vocabulary for basic communication. The Dutch dictionaries in part two and three can be used whenever needed to look up words you hear on the street, English words you want to know the Dutch translation for or simply to learn some new words. Some final thoughts: Vocabulary books have been around for centuries and as with so many things that have been around for some time, they are not very fashionable and a bit boring, but they usually work very well. Together with the basic Dutch dictionary parts, this vocabulary book is a great resource to support you throughout the process of learning Dutch and comes in particularly handy at times when there is no internet to look up words and phrases.

A Frequency Dictionary of Dutch Carole Tiberius, Tanneke Schoonheim, 2013-12-17
A Frequency Dictionary of Dutch is a valuable tool for all learners of Dutch, providing a list of the 5,000 most frequently used words in the language. Based on a 290 million word corpus which includes both written and spoken material from a wide range of sources, this dictionary presents Dutch core vocabulary in a detailed and clearly arranged manner: each of the 5,000 entries includes English equivalents and a sample sentence showing language in use. Users can access the top 5,000 words either through the main frequency listings or an alphabetical index. Throughout the frequency listings there are thematically organized lists featuring the top words from a variety of key topics such as animals, food and other areas of daily and cultural life. Words specific to Dutch in Belgium (Belgian Dutch) are also included. An engaging and efficient resource, A Frequency Dictionary of Dutch will enable students of all levels to get the most out of their study. This book was prepared in association with the Instituut voor Nederlandse Lexicologie (INL, Institute of Dutch Lexicology). A CD version is available to purchase separately. Designed for use by corpus and computational linguists, it provides the full text in a format that researchers can process and turn into suitable lists for their own research purposes.
