Towards Post-Native-Speakerism Stephanie Ann Houghton,Kayoko Hashimoto,2017-12-05 This book probes for a post-native-speakerist future. It explores the nature of (English and Japanese) native-speakerism in the Japanese context, and possible grounds on which language teachers could be employed if native-speakerism is rejected (i.e., what are the language teachers of the future expected to

do, and be, in practice?). It reveals the problems presented by the native-speaker model in foreign language education by exploring individual teacher-researcher narratives related to workplace experience and language-based inclusion/exclusion, as well as Japanese native-speakerism in the teaching of Japanese as a foreign language. It then seeks solutions to the problems by examining the concept of post-native-speakerism in relation to multilingual perspectives and globalisation generally, with a specific focus on education.

Usage-Based Perspectives on Second Language Learning Teresa Cadierno,Søren Wind Eskildsen,2015-10-16 This edited volume brings together perspectives that find mutual kinship in a view of language as an embodied, semiotic, symbolic tool used for communicative and interactional purposes and an understanding of language use as the preeminent condition for language learning – perspectives that we conjoin under the umbrella term of usage based perspectives.

Handbook of Research on Teacher and Student Perspectives on the Digital Turn in Education Karpava, Sviatlana,2022-06-24 In recent years, the traditional way of teaching has been substituted by online

teaching. Teachers have had to think about efficient and effective teaching methods and activities in online delivery that can keep students interested and engaged. It is important to examine teacher cognition and its relevance to classroom management and teaching practice as the role of technology in teaching and learning cannot be overestimated. The Handbook of Research on Teacher and Student Perspectives on the Digital Turn in Education examines the cognitions of teachers and students, their attitudes and perceptions regarding online teaching, and their personal experiences and challenges regarding the use of online platforms and digital tools. This book discusses the implementation of digital technologies in primary, secondary, and tertiary education that facilitates the learning and teaching process and creates a student-centered environment. Covering topics such as digital literacy, student engagement, and pedagogy, this reference work is an essential resource for practitioners, scholars, administrators, policymakers, researchers, academicians, instructors, and students.

Language Learning Beyond the Classroom David Nunan,Jack C. Richards,2015-01-30 This volume presents case studies of language learning beyond the classroom. The studies draw on a wide range of contexts, from North and South America to Europe and the Asia-Pacific region. Each provides principled links between theory, research and practice. While out-of-class learning will not replace the classroom, ultimately all successful learners take control of their own learning. This book shows how teachers can help learners bridge the gap between formal instruction and autonomous language learning. Although English is the primary focus of most chapters, there are studies on a range of other languages including Spanish and Japanese.

Also, the book covers advances in agricultural biotechnology in such areas of research as crop production improvement

practices, genetic modification, as well as microbial biotechnology in agriculture, etc. The book is aimed for scientists, researchers, and graduate students. It is also useful for representatives of regional authorities, as it gives an idea of existing high-tech solutions for agriculture. The book is written and edited by international researchers, academics, and experts in the corresponding research areas.

Teaching ESL/EFL Listening and Speaking

Jonathan M. Newton,I.S.P. Nation,2020-10-26 This guide for teachers and teacher trainees provides a wealth of suggestions for helping learners at all levels of proficiency develop their listening and speaking skills and fluency, using a framework based on principles of teaching and learning. By following these suggestions, which are organised around four strands—meaning-focused input, meaning-focused output, language-focused learning, and fluency development—teachers will be able to design and present a balanced programme for their students. Updated with cutting-edge research and theory, the second edition of Teaching ESL/EFL Listening and Speaking retains its hands-on focus and engaging format, and features new activities and information on emerging topics, including: Two new chapters on Extensive Listening and Teaching Using a Course Book Expanded coverage of key topics, including assessment, pronunciation, and using the internet to develop listening and speaking skills Easy-to-implement tasks and suggestions for further reading in every chapter More tools for preservice teachers and teacher trainers, such as a sample unit, a survival syllabus, and topic prompts The second edition of this bestselling book is an essential text for all Certificate, Diploma, Masters, and Doctoral courses for teachers of English as a second or foreign language.

Active Listening Michael Rost,J. J. Wilson,2013-11-04 Listening is now regarded by researchers and practitioners as a highly active skill involving prediction, inference, reflection, constructive recall, and often direct interaction with speakers. In this new theoretical and practical guide, Michael Rost and JJ Wilson demonstrate how active listening can be developed through guided instruction. With so many new technologies and platforms for communication, there are more opportunities than ever before for learners to access listening input, but this abundance leads to new challenges: how to choose the right input how to best use listening and viewing input inside and outside the classroom how to create an appropriate syllabus using available resources Active Listening explores these questions in clear, accessible prose, basing its findings on a theoretical framework that condenses the most important listening research of the last two decades. Showing how to put theory into practice, the book includes fifty innovative activities, and links each one to relevant research principles. Sample audio recordings are also provided for selected activities, available online at the series website www.pearsoned.co.uk/rostwilson. As a bridge between theory and practice, Active Listening will encourage second language teachers, applied linguists, language curriculum coordinators, researchers, and materials designers to become more active practitioners themselves, by more fully utilising research in the field of second language listening.

Show, Tell, Build Joyce W. Nutta,Carine Strebel,Florin M. Mihai,Edwidge Crevecoeur Bryant,Kouider Mokhtari,2020-07-29 Building upon the theoretical and practical foundation outlined in their previous book, Educating English Learners, the authors show classroom teachers how to develop a repertoire of

instructional techniques that address K–12 English learners (ELs) at different English proficiency and grade levels, and across subject areas. Show, Tell, Build is organized around two decision maps for planning and implementing differentiated instruction for ELs: the Academic Subjects Protocol (for teachers of academic subjects) and the Language Arts Protocol (for teachers of language arts). The instructional tools and techniques described in each chapter help teachers provide communication support for ELs through showing and telling, and develop their language proficiency through building their skills. The book also discusses the demands that academic language poses for ELs and ways to assess students' proficiency in English. Show, Tell, Build provides classroom teachers, English language development specialists, literacy coaches, and school leaders with valuable knowledge and skills to support ELs' academic success.
