English and Tamil Dictionary Joseph Knight,2017-11-19 Excerpt from English and Tamil Dictionary: Containing All the More Important Words in Dr. Webster's Dictionary of the English Language IN preparing this second edition of the english and tamil dictionary, all the words in Dr. Webster's complete work, which are thought to be of practical utility to missionaries or civilians among the Tamil people, or to Tamil youth who are studying the English language, have been most carefully added to the old edition, and each word defined by one or more Tamil synonyms. The different shades of signification and some idioms are arranged under each word, forming, to a considerable extent, a substitute for a phrase book. As the words are divided, accentuated, and defined according to Dr. Webster's latest edition, the work will be to all Tamil lads who study English, to a great degree, a substitute for an English Dictionary. The Tamil synonyms may be depended upon, with a very few unavoidable exceptions, as good classic words, which are generally arranged so that those most common are placed first. Mathematical, astronomical, and other scientific words, are those taken from native works, as far as such works have been examined, and in foreign words, the synonyms are made from pure Tamil or Sanscrit combinations. A single word is always preferred to a description. In a very few cases, where it was thought the learner would be assisted, repetitions have been allowed. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. A Simple Guide to Learning English Through Tamil Aloysius Aseervatham,2017-06-16 This book, A Simple Guide to Learning English Through Tamil is written to help Tamil-speaking communities with little or no exposure to English. This category of Tamils who left their home countries and migrated to English-speaking countries like England, Australia, and Canada are bound to experience difficulties mingling with the locals because of the language barrier. They could also be finding it hard to secure jobs suited to their education and skills because of the lack of a working knowledge of English. The lessons in the book are designed to provide an easy insight into the basic nature of the English language. If the exercises in each lesson are completed diligently and with enthusiasm, the reader can expect to converse fluently in English in a few months. The students in the Tamil-speaking areas of countries where English is only taught as a second language would also benefit immensely by using this book.
