PC Mag ,1991-12-17 PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

Business Intelligence Mohamed Fakir, Mohamed Baslam, Rachid El Ayachi, 2021-05-15 This book constitutes the proceedings of the 6th International Conference on Business Intelligence, CBI 2021, which took place in Beni Mellal, Morocco, during May 27-29, 2021. The 26 full and 6 poster papers included in this book were carefully reviewed and selected from a total of 60 submissions. They were organized in topical sections as follows: decision support, information systems and NLP; big data, datamining, Web services and Web semantics; optimization and decision support; signal, image and vision computing; networking, cloud computing and networking architectures in cloud.

The Percy Anecdotes Reuben Percy, 1870

Handbook of Research on the Global Impacts and Roles of Immersive Media Morie, Jacquelyn Ford, McCallum, Kate, 2019-12-06 The world is witnessing a media revolution similar to the birth of the film industry from the early 20th Century. New forms of media are expanding the human experience from passive viewership to active participants, surrounding and enveloping us in ways film or television never could. New immersive media forms include virtual reality (VR), augmented reality (AR), mixed reality (XR),

fulldome, CAVEs, holographic characters, projection mapping, and mixed experimental combinations of old and new, live, and generated media. With the continued expansion beyond the traditional frame, practitioners are crafting these new media to see how they can influence and shape the world. The Handbook of Research on the Global Impacts and Roles of Immersive Media is a collection of innovative research that provides insights on the latest in existing and emerging immersive technologies through descriptions of case studies, new business models, philosophical viewpoints, and scientific findings. While highlighting topics including augmented reality, interactive media, and spatial computing, this book is ideally designed for media technologists, storytellers, artists, journalists, designers, programmers, developers, manufacturers, entertainment executives, content creators, industry professionals, academicians, researchers, and media students.

The Americans: The Democratic Experience Daniel J. Boorstin, 1974-07-12 Winner of the Pulitzer Prize. A study of the last 100 years of American history.

Media & Entertainment Law Ursula Smartt, 2019-11-12 The fourth edition of Media and Entertainment Law has been fully updated, analysing some of the most recent judgments in media law from across the United Kingdom, such as *Cliff Richard v the BBC*, *Max Schrems v Facebook* and the Irish Information Commissioner, developments on the 'right to be forgotten' (NT1 and NT2) and *ABC v Daily Telegraph* (Sir Philip

Green). The book's two main themes are freedom of expression and an individual's right to privacy. Regulation of the communication industries is covered extensively, including discussion of the print press and its online editions following Leveson, traditional broadcasting regulations for terrestrial TV and radio as well as media activities on converged devices, such as tablets, iPads, mobile phone devices and 'on demand' services. Intellectual property law (specifically copyright) in the music and entertainment industries is also explored in the book's later chapters. Also new to this edition are sections on: A focus on freedom of expression: its philosophical foundations; the struggles of those who have fought for it; and the varied ways in which the courts interpret freedom of expression regarding the taking and publishing of photographs. The 'right to be forgotten', data breaches, and the General Data Protection Regulation (GDPR). The media's increasing access to the courts, particularly when considering the privacy of those who are suspected of sexual offences. Press regulators, broadcasting and advertising regulations, and film and video regulations. Election and party-political broadcast regulations, with a focus on social media and recent election fraud. The emergence of online music distribution services, internet radio and free digital streaming music services, and their effect on the music industry. The fourth edition also features a variety of pedagogical features to encourage critical analysis of case law and one's own beliefs.

Explorer's Guide New Jersey (Second Edition)

Andi Marie Cantele, Mitch Kaplan, 2010-03-01 The second edition of this guide to the Garden State reveals the historic, cultural, and ecological diversity of the state. Includes extensive coverage of the Jersey Shore and Atlantic City. New Jersey is a state full of wonders to surprise curious travelers and residents alike. This guide leads you away from the busy interstate highways to reveal the cultural, historic, and geographical diversity that lies beyond the New Jersey Turnpike. For wine connoisseurs, there are more than 25 wineries that offer tours, tastings, and festivals; for history buffs, New Jersey, known as the Cockpit of the Revolution, offers battlefield state parks, monuments, and reenactments. And that's not all: New Jersey's 127-mile shoreline has many diverse communities, including the historic Victorian seaside resort of Cape May, itself a national historic landmark; the casinos of Atlantic City; the natural beauty of Island Beach State Park, with sand dune-scattered, long, white beaches, nature trails, birding, surfing, and guided kayak tours; and the hip shore town of Red Bank, with art galleries, boutiques, bistros, and jazz clubs. In addition, this comprehensive guide to the state includes opinionated listings of inns, B&Bs, hotels, and vacation cabins; hundreds of dining reviews, from diners to four-star restaurants; up-to-date maps; an alphabetical What's Where subject guide to aid in trip planning; and handy icons that point out family-friendly establishments, wheelchair access, places of special value, and lodgings that accept pets.

Census of Population 1960: Alphabetical Index of Occupations and Industries. Rev. Ed. 1960 United States. Bureau of the Census, 1960

International Television & Video Almanac ,1988

Jack Lewis and His American Cousin, Nat

Hawthorne D. G. Kehl, 2013-03-29 When he was a student at Oxford University, C. S. Lewis wrote to a friend expressing his great admiration of and enthusiasm for the novels of Nathaniel Hawthorne, particularly *The House of the Seven Gables* and *Transformation* (British title of *The Marble Faun*). This study examines the parallels between these two kindred spirits and their works, focusing on their similar worldviews, their personal backgrounds and lifestyles, and the Ultimates they both pondered. It discusses common themes in their works, such as myth, scientism, and the great power of blackness. Their respective attitudes toward these issues and others, such as faith, repentance, heaven and hell, confession, church attendance, the clergy, and Puritanism are strikingly similar. Considerable attention is given to companion pieces of the two writers, with discussion of the so-called Fortunate Fall in *The Marble Faun* and *Perelandra*, veil imagery in *The Minister's Black Veil*, *The Blithedale Romance*, and *Till We Have Faces*, influence of Bunyan's allegory on *The Pilgrim's Regress* and *The Celestial Railroad*, and multi-form love in *The Four Loves* and *The House of the Seven Gables*. Examination of such affinities between these two writers and their works provides mutual illumination and enhanced appreciation of each.

Advanced Information Technology, Services and

Systems Mostafa Ezziyyani, Mohamed Bahaj, Faddoul Khoukhi, 2017-11-10 This book includes the proceedings of the International Conference on Advanced Information Technology, Services and Systems (AIT2S-17) held on April 14–15, 2017 in Tangier, Morocco. Presenting the latest research in the field, it stimulates debate, discusses new challenges and provides insights into the field in order to promote closer interaction and interdisciplinary collaboration between researchers and practitioners. Intended for researchers and practitioners in advanced information technology/management and networking, the book is also of interest to those in emergent fields such as data science and analytics, big data, Internet of Things, smart networked systems, artificial intelligence and expert systems, pattern recognition, and cloud computing.
