Scorecasting Tobias Moskowitz,L. Jon Wertheim,2012-01-17 In *Scorecasting*, University of Chicago behavioral economist Tobias Moskowitz teams up with veteran Sports Illustrated writer L. Jon Wertheim to overturn some of the most cherished truisms of sports, and reveal the hidden forces that shape how basketball, baseball, football, and hockey games are played, won and lost. Drawing from Moskowitz's original research, as well as studies from fellow economists such as bestselling author Richard Thaler, the authors look at: the influence home-field advantage has on the outcomes of games in all sports and why it exists; the surprising truth about the universally accepted axiom that defense wins championships; the subtle biases that umpires exhibit in calling balls and strikes in key situations; the unintended consequences of referees' tendencies in every sport to swallow the whistle,

and more. Among the insights that Scorecasting reveals: • Why Tiger Woods is prone to the same mistake in high-pressure putting situations that you and I are • Why professional teams routinely overvalue draft picks • The myth of momentum or the hot hand in sports, and why so many fans, coaches, and broadcasters fervently subscribe to it • Why NFL coaches rarely go for a first down on fourth-down situations—even when their reluctance to do so reduces their chances of winning. In an engaging narrative that takes us from the putting greens of Augusta to the grid iron of a small parochial high school in Arkansas, Scorecasting will forever change how you view the game, whatever your favorite sport might be.

Past Time Jules Tygiel, 2000 Discusses baseball's history and the game's relationship to American society from the 1850s until the present day.

Encyclopedia of Addictions [2 volumes] Kathryn H. Hollen, 2008-12-30 This two volume set contains frank and factual information about symptoms, causes, effects, prevention, and treatment of substance abuse—alcohol, nicotine, and drugs—and of behavioral addictions such as eating disorders, pathological gambling, and compulsive sexual activity. Including the most up-to-date research, the addiction entries are based largely on criteria established by the American Psychiatric Association in its Diagnostic and Statistical Manual of Mental Disorders. Tracing the history of the debate over whether addiction is a choice or a disease, the volumes explain how genetic and biological findings support the disease concept while lifestyle choices affect the course of the disease. Graphics and discussions of the brain structures that support this self-reinforcing mechanism illustrate why treatments that obstruct the pathway are showing such promise.

Black Tickets Jayne Anne Phillips, 2011-11-16 From one of our most accomplished writers: the reputation-making debut short story collection that paved the way for a new generation of writers. • “Brilliant ... Phillips is a virtuoso.” —The Chicago Tribune Jayne Anne Phillips's reputation-making debut collection paved the way for a new generation of writers. Raved about by reviewers and embraced by the likes of Raymond Carver, Frank Conroy, Annie Dillard, and Nadine Gordimer, *Black Tickets* now stands as a classic. With an uncanny ability to depict the lives of men and women who rarely register in our literature, Phillips writes stories that lay bare their suffering and joy. Here are the abused and the abandoned, the violent and the passive, the impoverished and the disenfranchised who populate the small towns and rural byways of the country. A patron of the arts reserves his fondest feeling for the one man who wants it least. A stripper, the daughter of a witch, escapes from poverty into another kind of violence. A young girl during the Depression is caught between the love of her crazy father and the no less powerful love of her sorrowful mother. These are great American stories that

have earned a privileged place in our literature.

Sport and Nationalism in China Zhouxiang Lu, Fan Hong, 2013-10-30 This book examines the relationships between sport, nationalism and nation building in China. By exploring the last 150 years of Chinese history, it offers unparalleled depth and breadth of coverage and provides a clear grasp of Chinese sports nationalism from both macro and micro perspectives. Beginning with a discussion on the role of sport in the Qing Dynasty's Self-Strengthening Movement (1861-1895), the book examines how sport contributed to the shaping of the early forms of Chinese nationalism in the late 19th century. It identifies and defines the core functions of sport in the Chinese Nationalist Revolution which successfully transformed China from a culturally bound empire to a modern nation state in 1911. The following section, on the Republic of China Era (1912-1949), explores the interactions between sport and the construction of Chinese nationalism and national consciousness, illustrating how sport played its part in the building of the newly established nation state. Moving on to the Communist China Era (1949-present), the book scans the whole spectrum of both modern and contemporary Chinese nationalism and interprets the most important issues on the course of China's nation building, explaining why sport is so tightly bound up with nationalism and patriotism, and how sport became an essential part of nationalists', politicians' and educationalists' strategy to revive the Chinese nation.

Performing the 'New' Europe K. Fricker, M. Gluhovic, 2013-05-13 This fascinating and lively volume makes the case that the Eurovision Song Contest is an arena for European identification in which both national solidarity and participation in a European identity are confirmed, and a site where cultural struggles over the meanings, frontiers and limits of Europe are enacted.

The State of the Parties John Clifford Green, Daniel M. Shea, 1996 This work illuminates the two realities that currently structure the state of American political organisations. This new edition examines changes in the political landscape, including the impact of the Republican electoral triumph of 1994, the Contract with America, third parties and party elites.

Fans and Fan Cultures Henrik Linden, Sara Linden, 2016-12-20 Exploring the ambiguous relationship between fandom and consumer culture, this book provides a critical overview of fans, fan cultures and fan experiences in relation to the broader experience and transformation economy. Fans and Fan Cultures discusses key theoretical concepts concerning celebrity, fandoms, subculture, consumerism and marketing through a range of examples in film, travel and tourism, football and music. With an emphasis on social media, and how various online platforms are utilised by brands, artists and fans,

the authors explore how this type of communication often contributes to trivialising authentic expressions of cultural and social values and identities.

The Five Wounds: A Novel Kirstin Valdez Quade, 2021-03-30 Winner of the 2021 Center for Fiction First Novel Prize Winner of the 2022 Rosenthal Family Foundation Award Finalist for the 2022 Andrew Carnegie Medal for Excellence in Fiction • Finalist for the 2022 PEN/Hemingway Award for Debut Novel • Finalist for the 2022 Aspen Words Literary Prize • Finalist for the 2022 Lambda Literary Award for Lesbian Fiction One of NPR's Best Books of the Year • A Publishers Weekly and Library Journal Best Book of the Year in Fiction • A Kirkus Reviews Best Fictional Family of the Year • A Booklist Top Ten Book-Group Book of the Year • A Goodreads Choice Awards Best Debut Novel Nominee From an award-winning storyteller comes a stunning debut novel about a New Mexican family's extraordinary year of love and sacrifice. Masterly...Quade has created a world bristling with compassion and humanity. The characters and the challenges they face are wholly realized and moving; their journeys span a wide spectrum of emotion and it is impossible not to root for [them]. —Alexandra Chang, New York Times Book Review It's Holy Week in the small town of Las Penas, New Mexico, and thirty-three-year-old unemployed Amadeo Padilla has been given the part of Jesus in the Good Friday procession. He is preparing feverishly for this role when his fifteen-year-old daughter Angel shows up pregnant on his doorstep and disrupts his plans for personal redemption. With weeks to go until her due date, tough, ebullient Angel has fled her mother's house, setting her life on a startling new path. Vivid, tender, funny, and beautifully rendered, *The Five Wounds* spans the baby's first year as five generations of the Padilla family converge: Amadeo's mother, Yolanda, reeling from a recent discovery; Angel's mother, Marissa, whom Angel isn't speaking to; and disapproving Tíve, Yolanda's uncle and keeper of the family's history. Each brings expectations that Amadeo, who often solves his problems with a beer in his hand, doesn't think he can live up to. *The Five Wounds* is a miraculous debut novel from a writer whose stories have been hailed as "legitimate masterpieces" (New York Times). Kirstin Valdez Quade conjures characters that will linger long after the final page, bringing to life their struggles to parent children they may not be equipped to save.

Sport, Nationalism, and Globalization Alan Bairner, 2001-03-29 Explores the relationship between sport and national identities within the context of globalization in the modern era.

Celebration Capitalism and the Olympic Games Jules Boykoff, 2013-08-15 The Olympic Games have become the world's greatest media and marketing event—a global celebration of exceptional athletics gilded with corporate cash. Huge corporations vie for association with the Olympic Image in

the hope of gaining a worldwide marketing audience of billions. In this provocative critical study of the contemporary Olympics, Jules Boykoff argues that the Games have become a massive planned economy designed to shield the rich from risk while providing them with a spectacle to treasure. Placing political economy at the center of the analysis, and drawing on interdisciplinary research in sociology, politics, geography, history, and economics, Boykoff develops an innovative theory of celebration capitalism, the manipulation of state actors as partners that drives us towards public-private partnerships in which the public pays and the private profits. He argues that the Athens Games in 2004 marked the full emergence of celebration capitalism, with London 2012 representing its quintessential expression, characterized by a state of exception, unfettered commercialism, repression of dissent, questionable sustainability claims, and the complicity of the mainstream media. Controversial, challenging, and forthright, this book opens up a fascinating new avenue for understanding the contemporary Olympics in the context of global capitalist society. It is essential reading for anybody with an interest in the Olympic Games, the relationship between sport and society, or global politics and culture.

Healthy Stadia Daniel Parnell, Kathryn Curran, Matthew Philpott, 2018-12-07 Public health is a key priority for developed and developing nations. Indeed, many countries have sought strategies to promote health and reduce health inequalities. A 'settings approach' to promoting health has been endorsed by the World Health Organization, which has seen settings such as workplaces, schools, hospitals and prisons utilised to promote health. Alongside this, sport has received increasing pressure to consider its social role within the societies and communities in which it operates. Healthy Stadia is a European focused initiative with lessons relevant for global audiences to develop: (i) healthier stadium environments for fans and non-matchday visitors (e.g. smoke-free environments), (ii) healthier club workforces (e.g. bike to work schemes) and (iii) healthier populations in local communities (e.g. child obesity interventions). This book outlines lessons and insight from practitioners and empirical research for those seeking to learn and research stadia as a settings approach to health promotion. The areas covered include: practical considerations for health promotion in sports stadia; empirical research on the sports stadia as a setting for public health promotion; research on physical activity and health promotion programmes delivered by the outward facing community trusts attached to sports clubs; an analysis of the policy considerations for health promotion by sports clubs in school based settings and critical insight and discussion surrounding the use of physical activity and sport interventions to promote physical activity and public health. The chapters in this book originally published in a special issue of Sport in Society.

She Said What? Turi Ryder, 2019-06-11 Radio. It's almost as easy as marriage and motherhood. The excitement of a career on the air! Listeners asking for advice on dressing their girlfriends in leather bustiers; managers who believe every professional woman longs for a bouquet on Secretaries' Day; Saturday nights giving away free T-shirts and beer in country music bars; reporting on a day in the life of a dominatrix—all while juggling two kids, rescue dogs, and one cross-country move after another. Live the dream with Turi Ryder, a music jock and talk host on major-market stations from Chicago to Los Angeles, with stops in Minneapolis, Portland, and San Francisco along the way. This darkly comical, biting accurate, and lovingly fictionalized memoir will ring true for anyone who has longed for both a creative life and a family to come home to.

Tourist Behaviour Philip L. Pearce, 2005-01-01 Tourism is an inherently social phenomenon. Tourists travel with others and experience places and cultures through interacting with both familiar and unfamiliar others. This volume presents a thorough tour of the social psychological processes which underpin contemporary travel. The fascinating phenomenon of tourist behaviour deals with topics such as motivation, destination choice, travellers' on site experiences, satisfaction and learning. This book uses an array of developing and recently constructed conceptual frameworks to both synthesise what is established, and to create new insights and directions for further analysis and, ultimately, management action.
